

Opportunity name	Primary funder name	Closing date	Deadline information	Award type	Award amount max	Award amount min	Award budget total	Summary text	Website
Joint US–UK workshop on improving understanding of potential environmental impacts associated with unconventional hydrocarbons	Arts and Humanities Research Council	09 Sep 15	Expressions of interest due by 4pm BST.	Travel to conferences, meetings etc., Directed grants for individual investigators	-	-	-	The workshop aims to bring together academic experts from the UK and Egypt to address an issue of growing importance as Egypt seeks to preserve and position its rich cultural history within the context of growing international concerns about the threats modern society is posing to cultural heritage. Funding covers transports, accommodation, visa charges and subsistence costs incurred during the event.	http://www.ahrc.ac.uk/funding/opportunities/current/preservingegyptsculturalheritage/
RCUK/CONICYT research partnerships call	Arts and Humanities Research Council	17 Sep 15	Applications due by 5pm BST, 17 September; team funding proposals due by 10 December 2015.	Prototypes and demonstrations, Directed grants for individual investigators, Networking/collaboration	-	-	-	Each researcher will attend a 10-day creative lab in Rio de Janeiro, held from 25 October to 4 November 2015. Afterwards, limited funding will be available to support project pitches developed from ideas presented in the lab.	http://www.ahrc.ac.uk/funding/opportunities/current/socialchangethroughcreativityandculture/
Valuing nature programme – understanding the value of the natural environment for improving human health and wellbeing	Arts and Humanities Research Council	22 Sep 15	Applications due by 4pm.	Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	This enables UK researchers and their Indian partners to build networks and partnerships that explore and develop key issues addressing the theme of cultural heritage and rapid urbanisation in India. Four to five awards are expected to be granted. Awards for UK partners cover 80 per cent of the project's full economic cost and are worth between £24,000 and £36,000. Matched resources are available for Indian partners.	http://www.ahrc.ac.uk/funding/opportunities/current/heritageurbanisationindia/?utm_source=Newton+updates+list&utm_campaign=0c8049b7af-Newton_fund_bulletin_08_05_2015&utm_medium=email&utm_term=0_fe132e884b-0c8049b7af-100004309
Seed awards in science	Arts and Humanities Research Council	22 Oct 15	Outline proposals due by 4pm, 22 October 2015; full proposals due in April 2016.	Technology innovation/development, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration	£640,000	£320,000	-	These support research addressing issues of central relevance to the PaCCS conflict theme, which brings together security research and other activities that are sensitive to the changing global context and have an impact in the prediction, detection, prevention and reduction of security threats. Awards are worth between £320,000 and £640,000 each, covering 80 per cent of full economic cost, over a maximum period of four years.	http://www.ahrc.ac.uk/funding/opportunities/current/paccsconflicttheme/
Interdisciplinary research grants	Arts and Humanities Research Council	22 Oct 15	Applications due by 4pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration	£80,000	-	-	These support the development of innovative, high risk, interdisciplinary research, exploratory or pilot studies, or the development of new partnerships and collaborations addressing issues of central relevance to the PaCCS conflict theme. Awards are worth up to £80,000 each, covering 80 per cent of full economic cost, over a maximum period of 18 months.	http://www.ahrc.ac.uk/funding/opportunities/current/paccsconflicttheme/
Postdoctoral research training fellowships for clinicians	Arts and Humanities Research Council	30 Oct 15		Prizes, Student awards	£500	£250	-	This recognises essays linked to a debate series focusing on the theme of 'the way we live now', and more particularly, on the following debates: curating the nation; the challenge of change; faith and education; social cohesion and the common good. The author of the best essay on each debate receives £250 and the essay will be published in an AHRC publication and website. Each winning essay will also be considered for the overall prize of £500.	http://www.ahrc.ac.uk/funding/opportunities/current/the-way-we-live-now-the-ahrc-anniversary-essay-competition/
COMING SOON: Healthcare technologies impact fellowships	Arts and Humanities Research Council	10 Dec 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Institutional development, Studentship allocations, Directed grants to institutions, research groups etc, Academic-Industry links, Networking/collaboration	-	-	-	These enable non-HEI organisations or consortia with a proven track record in postgraduate research to apply for a cohort of studentships. AHRC aims to make up to 50 PhD studentships to selected partners every year. Awards last for three and a half years.	http://www.ahrc.ac.uk/funding/opportunities/current/collaboratedoctoralpartnerships/
Training bursaries	Arts and Humanities Research Council	15 Dec 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Personal development, Travel to conferences, meetings etc., Publish, edit, translate, disseminate	-	-	-	This enables early career researchers working in all areas of the arts and humanities to attend a series of dedicated workshops and become Radio 3's resident new generation thinkers. Up to 10 workshop attendees receive further media training and support from AHRC, and have their travel and subsistence reimbursed for the Hay Festival 2015 and for the first recording of their radio programme.	http://www.ahrc.ac.uk/funding/opportunities/current/newgenerationthinkers2015/
COMING SOON: Research professorships	Arts and Humanities Research Council	18 Dec 15		Prizes, Student awards	£500	£250	-	This recognises essays linked to a debate series focusing on the theme of 'the way we live now', and more particularly, on the following debates: beyond the digital; future cities for all; rethinking the nation; books and the human. The author of the best essay on each debate receives £250 and the essay will be published in an AHRC publication and website. Each winning essay will also be considered for the overall prize of £500.	http://www.ahrc.ac.uk/funding/opportunities/current/the-way-we-live-now-the-ahrc-anniversary-essay-competition/
Dental academic clinical fellowships	Arts and Humanities Research Council	31 Mar 16		Prizes, Student awards	£500	£250	-	This recognises essays linked to a debate series focusing on the theme of 'the way we live now', and more particularly, on the following debates: machine world; is British culture a myth. The author of the best essay on each debate receives £250 and the essay will be published in an AHRC publication and website. Both winning essays will also be considered for the overall prize of £500.	http://www.ahrc.ac.uk/funding/opportunities/current/the-way-we-live-now-the-ahrc-anniversary-essay-competition/
ESRC/PIC master's studentship scheme in population studies	Arts and Humanities Research Council	07 Jul 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications are invited between 1 May and 7 July 2015. This call is repeated once a year.	Studentship allocations, Academic-Industry links, Networking/collaboration	-	-	-	These encourage and develop collaboration between higher education institutions and non-academic organisations and businesses by enabling doctoral students to gain work experience outside an academic environment. Students receive a standard doctoral studentship and an additional annual payment of £550. Awards support up to three and a half years of full-time studies or up to six years of part-time studies.	http://www.ahrc.ac.uk/funding/opportunities/current/collaboratedoctoralawards/

POSTPONED: Research programme grants	Arts and Humanities Research Council	---	Applications should be submitted no less than nine months prior to the intended project start date.	Directed grants to institutions, research groups etc, Networking/collaboration	£1,000,000	£50,000	-	The scheme supports well-defined projects enabling individual researchers to collaborate with, and bring benefits to, other individuals and organisations through the conduct of research. Depending on the chosen route, funding is worth between £50,000 and £1 million over a maximum of five years.	http://www.ahrc.ac.uk/funding/opportunities/current/researchgrantsstandardroute/
Strategic awards in biomedical science	Arts and Humanities Research Council	---		Directed grants to institutions, research groups etc, Networking/collaboration	£1,800,000	-	-	These enable transnational British and Brazilian teams to apply for funding for collaborative research projects. The overall proposal budget should not exceed £2m. Projects may last for up to 60 months.	http://www.ahrc.ac.uk/funding/opportunities/current/soapauloresearchfoundation/
Collaborative research grants São Paulo Research Foundation	Arts and Humanities Research Council	---		Hosting conferences, Directed grants to institutions, research groups etc, Networking/collaboration	£100,000	-	-	This provides funding for innovative and creative engagements with new audiences and user communities that stimulate pathways to impact. Awards will be worth up to £100,000 over a maximum of 12 months.	http://www.ahrc.ac.uk/funding/opportunities/current/followfunding/
Follow-on funding for impact and engagement scheme	Arts and Humanities Research Council	---	Applications are due at least nine months prior to the start of the project.	Senior fellowships, Travel for research purposes, Directed grants for individual investigators, Publish, edit, translate, disseminate, Equipment and materials, Networking/collaboration, Mid-Career fellowships	£200,000	£40,000	-	This enables researchers to develop their capabilities as leaders, to carry out work with a potential to generate a transformative impact on their discipline, and to develop and undertake leadership activities that are connected to their research. Proposals should have a full economic cost of between £50,000 and £250,000. Fellowships cover up to 80 per cent fEC and are awarded for six to 18 months for full-time researchers.	http://www.ahrc.ac.uk/funding/opportunities/current/leadershipfellows/
Early-career researchers' bursaries	Arts and Humanities Research Council	---	Applications are due at least nine months prior to the start of the project.	Early-Career fellowships, Travel for research purposes, Directed grants for individual investigators, Publish, edit, translate, disseminate, Equipment and materials, Networking/collaboration	£200,000	£40,000	-	This enables early-career researchers to develop their leadership experience and capabilities as they establish themselves and develop beyond doctoral and postdoctoral work, and to produce innovative research that moves significantly beyond doctoral projects. Proposals should have a full economic cost of between £50,000 and £250,000. Fellowships cover up to 80 per cent fEC and are awarded for 24 months for full-time researchers.	http://www.ahrc.ac.uk/funding/opportunities/current/leadershipfellowsecr/
Telescope time grants	Biotechnology and Biological Sciences Research Council	15 Sep 15 (Forecast)	II Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Prizes, Young investigator awards, Travel to conferences, meetings etc., Innovation grants, Academic-Industry links, Networking/collaboration	-	-	-	*** The Biotechnology and Biological Sciences Research Council, under its Innovation and Skills Group, and the University of Nottingham, under the Haydn Green Institute, will shortly be inviting applications for their biotechnology young entrepreneurs scheme. The next deadline is expected to be in September 2015. The following information refers to the previous round and is subject to change. This aims to raise awareness of the commercialisation of ideas from the biosciences among postgraduate students and postdoctoral scientists. There is a prize fund of £5,000. ***	http://www.bbsrc.ac.uk/business/commercialisation/biotechnology-yes.aspx
Work-life balance in the digital age network	Biotechnology and Biological Sciences Research Council	16 Sep 15	Outline proposals are invited between 29 June and 4pm, 16 September 2015.	Technology innovation/development, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration	-	-	£3,500,000	These support research projects that address the challenge of predictive capabilities for sustainable agriculture. The total budget of £3.5 million will fund projects at 80 per cent full economic cost. Projects with a duration of up to five years will be considered.	http://www.bbsrc.ac.uk/business/collaborative-research/industry-clubs/sustainable-agriculture/saric-apply.aspx?utm_source=feedburner&utm_medium=feed&utm_campaign=Feed%3A+bbsrcfunding+%28BBSRC+-+Funding+opportunities%29
Sustainable agriculture research and innovation club – research grants	Biotechnology and Biological Sciences Research Council	16 Sep 15	Outline proposals are invited between 29 June and 4pm, 16 September 2015.	Technology innovation/development, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration	-	-	£1,500,000	These support projects with innovative approaches to translating existing research data and knowledge into new tools, technologies and other outcomes that create tangible economic or societal benefits. Activities should address the challenge of predictive capabilities for sustainable agriculture. The total budget of £1.5 million will fund five to 12 projects at 80 per cent full economic cost for up to three years.	http://www.bbsrc.ac.uk/business/collaborative-research/industry-clubs/sustainable-agriculture/saric-apply.aspx?utm_source=feedburner&utm_medium=feed&utm_campaign=Feed%3A+bbsrcfunding+%28BBSRC+-+Funding+opportunities%29
Health services and delivery research programme – researcher-led workstream	Biotechnology and Biological Sciences Research Council	17 Sep 15	Expressions of interest due by 4pm, 17 September 2015; invited full applications due between December 2015 and March 2016 depending on the appropriate council's deadlines.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration	-	-	-	Funding supports the development and application of new tools and technologies with the aim of promoting innovation in novel veterinary and medical vaccines. Projects will be funded through the responsive mode grant schemes of the Biotechnology and Biological Sciences Research Council, the Engineering and Physical Sciences Research Council and the Medical Research Council.	http://www.bbsrc.ac.uk/funding/opportunities/2015/novel-tools-technologies-for-vaccinology/
Cultural heritage and rapid urbanisation in India	Biotechnology and Biological Sciences Research Council	23 Sep 15	Applications due by 4pm. Deadlines on: 28 April 2015, 23 September 2015.	Access to laboratories, telescopes etc., Technology innovation/development, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Equipment and materials, Innovation grants, Networking/collaboration	-	-	-	These support investigator-led research activities addressing any topic within the council's remit. Grants may be used for research projects, technology development, equipment or use of existing facilities, new facilities or infrastructure provision, research networks and coordination, and summer schools. Grants support periods of up to five years.	http://www.bbsrc.ac.uk/funding/apply/deadlines.aspx
New investigator research grants – infections and immunity	Biotechnology and Biological Sciences Research Council	23 Sep 15	Applications due by 4pm. Deadlines on: 28 April 2015, 23 September 2015.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	This assists early-career researchers in securing their first major element of research funding. The scheme is available for up to five years.	http://www.bbsrc.ac.uk/funding/grants/new-investigator.aspx

New investigator scheme	Biotechnology and Biological Sciences Research Council	23 Sep 15	Applications due by 4pm. Deadlines on: 28 April 2015, 23 September 2015.	Research calls for business, Directed grants to institutions, research groups etc, Academic-Industry links, Networking/collaboration	-	-	-	These support science-led research projects that address any topic within the council's remit, and where industrial partners contribute in cash funding. Industrial partners must contribute in cash at least 10 per cent of the full economic costs of projects. Awards are tenable for up to five years.	http://www.bbsrc.ac.uk/business/collaborative-research/industrial-partnership-awards.aspx
Programme grants – infections and immunity	Biotechnology and Biological Sciences Research Council	23 Sep 15	Applications due by 4pm. Deadlines on: 28 April 2015, 23 September 2015.	Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	This supports applications that cut across national boundaries and involve international collaborative teams. Proposals may be submitted in any area of science within the remit of both supporting organisations. Funding is available for up to five years.	http://www.bbsrc.ac.uk/funding/internationalfunding/fapesp-joint-funding-research/
BBSRC/Brazil joint funding of research	Biotechnology and Biological Sciences Research Council	23 Sep 15	Applications may be submitted by 4pm on any responsive mode deadline date; however, applications are encouraged to be submitted annually to the January deadline. Deadlines on: 28 April 2015, 23 September 2015.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	This call encourages high-quality research that seeks to understand and promote the welfare of managed animals in the UK, including farmed, laboratory and companion animals. Funding is available for up to five years.	http://www.bbsrc.ac.uk/funding/opportunities/2015/2015-welfare-of-managed-animals.aspx?utm_source=feedburner&utm_medium=feed&utm_campaign=Feed%3A+bbsrcfunding+%28BBSRC+-+Funding+opportunities%29
Welfare of managed animals	Biotechnology and Biological Sciences Research Council	23 Sep 15	Applications due by 4pm. Deadlines on: 28 April 2015, 23 September 2015.	Research calls for business, Directed grants to institutions, research groups etc, Academic-Industry links, Networking/collaboration	-	-	-	This call supports pre-competitive research projects that address any topic within the council's remit, and where industry contributes at least 50 per cent of the full economic cost of projects. Funding is available for up to five years.	http://www.bbsrc.ac.uk/business/collaborative-research/stand-alone-link.aspx
EXTENDED DEADLINE: Internet of Things cities demonstrator	Biotechnology and Biological Sciences Research Council	23 Sep 15	Applications due by 4pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Equipment and materials, Networking/collaboration	-	-	-	This encourages research that increases mechanistic understanding of the role that foods and nutrients play in health and disease. Successful applications are funded through BBSRC's responsive mode or MRC's funding schemes. BBSRC's grants are available for up to five years.	http://www.bbsrc.ac.uk/funding/opportunities/2015/mechanistic-research-in-nutrition-highlight/
British Academy/Leverhulme small research grants	Biotechnology and Biological Sciences Research Council	15 Oct 15	Proposals due by 4pm. This call is repeated 3 times a year.	Institutional development, Directed grants to institutions, research groups etc, Academic-Industry links, Networking/collaboration	-	-	-	These enable research organisations to collaborate with industry to develop industrially-relevant short training courses at master's level. Eight to 10 awards are normally available every year and are usually worth around £20,000 per module.	http://www.bbsrc.ac.uk/business/training/module-training.aspx
Confidence in concept scheme	Biotechnology and Biological Sciences Research Council	15 Oct 15	Applications due by 4pm.	Travel for research purposes, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Academic-Industry links, Networking/collaboration	£120,000	-	-	This supports the movement of people between different environments to further the exchange of knowledge, technology and skills in the field of bioscience research and the council's strategic priorities. Approximately 20 awards are available each year. Awards are worth up to £150,000 each in total at 80 per cent full economic cost over a maximum period of two years.	http://www.bbsrc.ac.uk/business/people-information/flexible-interchange-programme.aspx
Innovation vouchers on cybersecurity	Biotechnology and Biological Sciences Research Council	21 Oct 15	Applications due by 4pm.	Early-Career fellowships, Directed grants for individual investigators, Mid-Career fellowships	-	-	-	These support researchers who are wishing to establish their first independent research group in any area of science within the council's remit, which includes research on plants, microbes, animals, and tools and technology underpinning biological research. Each fellowship includes up to £1 million at 80 per cent full economic cost for personal salary and research support.	http://www.bbsrc.ac.uk/funding/fellowships/david-phillips.aspx
Efficacy and mechanism evaluation programme – commissioned calls for proposals	Biotechnology and Biological Sciences Research Council	11 Nov 15	Applications are invited between 14 September and 11 November 2015.	Technology innovation/development, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Innovation grants	£200,000	-	-	This supports the translation of BBSRC-funded fundamental research into practical application, including commercialisation, with the overall aim of helping researchers maximise the societal and economic benefits of their research. Standard follow-on projects should have a total duration of 12 to 18 months and be worth up to £250,000. Grants cover 80 per cent of the full economic cost and are worth up to £200,000.	http://www.bbsrc.ac.uk/business/commercialisation/follow-on.aspx
International academic fellowships	Biotechnology and Biological Sciences Research Council	13 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Hosting conferences, Networking/collaboration	£10,000	-	-	This aims to stimulate joint working in topics important to BBSRC's strategy, and to match numbers of scientists from the UK with other countries to identify areas of commonality and explore the potential for international collaboration. Around eight awards are available, worth approximately £10,000 each.	http://www.bbsrc.ac.uk/funding/internationalfunding/international-workshops/
International workshops scheme	Biotechnology and Biological Sciences Research Council	13 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Institutional development, Hosting visits, Hosting conferences, Access to laboratories, telescopes etc., Travel to conferences, meetings etc., Travel for research purposes, Networking/collaboration	£50,000	-	-	The scheme aims to set up partnership links between UK and overseas laboratories, promote the exchange of scientists. Awards are typically worth up to £50,000 for a period of four years, and cover travel, subsistence and other activities, such as workshops and exchanges.	http://www.bbsrc.ac.uk/funding/internationalfunding/japan/
Japan partnering awards	Biotechnology and Biological Sciences Research Council	13 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Hosting visits, Hosting conferences, Access to laboratories, telescopes etc., Travel to conferences, meetings etc., Travel for research purposes, Networking/collaboration	£30,000	-	-	The scheme aims to set up partnership links between UK and overseas laboratories, promote the exchange of scientists, particularly those in the early stages of their career, and promote access to facilities. Awards are typically worth up to £30,000 for a period of four years for partnerships with one or more Chinese life science laboratories.	http://www.bbsrc.ac.uk/funding/internationalfunding/china/

China partnering awards	Biotechnology and Biological Sciences Research Council	13 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Institutional development, Hosting visits, Hosting conferences, Access to laboratories, telescopes etc., Travel to conferences, meetings etc., Travel for research purposes, Networking/collaboration	£30,000	-	-	The scheme aims to set up partnership links between UK and overseas laboratories, promote the exchange of scientists, particularly those in the early stages of their career, and promote access to facilities. Awards are normally worth up to £30,000 for up to four years for partnerships with one or more Indian life science laboratories. Funding may cover travel, subsistence and other activities, such as workshops and exchanges.	http://www.bbsrc.ac.uk/funding/internationalfunding/india
India partnering awards	Biotechnology and Biological Sciences Research Council	13 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Institutional development, Hosting visits, Hosting conferences, Access to laboratories, telescopes etc., Travel to conferences, meetings etc., Travel for research purposes, Networking/collaboration	£50,000	-	-	The scheme aims to set up partnership links between UK and overseas laboratories, promote the exchange of scientists, particularly those in the early stages of their career, and promote access to facilities. Awards are typically worth up to £50,000 for a period of four years, and cover travel, subsistence and other activities, such as workshops and exchanges.	http://www.bbsrc.ac.uk/funding/internationalfunding/usa/
US partnering awards	Biotechnology and Biological Sciences Research Council	13 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Institutional development, Hosting visits, Hosting conferences, Access to laboratories, telescopes etc., Travel to conferences, meetings etc., Travel for research purposes, Networking/collaboration	£50,000	-	-	The scheme aims to set up partnership links between UK and overseas laboratories, promote the exchange of scientists. The council also seeks to enhance food security, bioenergy and industrial biotechnology research in the UK and Brazil. Partnerships of up to four years are supported, with £50,000 available for single partner collaborations and up to £100,000 for consortia applications.	http://www.bbsrc.ac.uk/funding/internationalfunding/brazil.aspx
Brazil partnering awards	Biotechnology and Biological Sciences Research Council	13 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect.	Institutional development, Hosting visits, Hosting conferences, Access to laboratories, telescopes etc., Travel to conferences, meetings etc., Travel for research purposes, Networking/collaboration	£25,000	-	-	The scheme aims to set up partnership links between UK and overseas laboratories, promote the exchange of scientists, particularly those in the early stages of their career, and promote access to facilities. Awards are worth up to £25,000 for a period of two years for the UK partner.	http://www.bbsrc.ac.uk/funding/internationalfunding/taiwan.aspx
Taiwan partnering awards	Biotechnology and Biological Sciences Research Council	13 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect.	Hosting visits, Hosting conferences, Travel to conferences, meetings etc., Travel for research purposes, Networking/collaboration	£30,000	-	-	This supports the development of long-term collaborations with overseas scientists in countries not currently offered through the council's country-specific partnering award schemes. Typically, up to £30,000 is available over a four-year period. Funds can only be used for travel, subsistence and other activities, such as workshops or exchanges.	http://www.bbsrc.ac.uk/funding/internationalfunding/other-countries.aspx
Other countries partnering awards	Biotechnology and Biological Sciences Research Council	13 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect.	Hosting visits, Hosting conferences, Travel to conferences, meetings etc., Travel for research purposes, Networking/collaboration	£20,000	£15,000	-	These provide funding for networking and other activities to facilitate UK coordination and participation in consortia for the preparation and development of collaborative research proposals for submission to European Commission funding calls under Horizon 2020. Typically, between £15,000 and £20,000 is available over 12 to 18 months.	http://www.bbsrc.ac.uk/funding/internationalfunding/europe.aspx
COMING SOON: Biomedical vacation scholarships	Biotechnology and Biological Sciences Research Council	---	Applications must be submitted at least six weeks before travel.	Travel for research purposes, Networking/collaboration	£5,000	-	-	This aims to help scientists add an international dimension to their BBSRC-funded research by making and establishing new contacts with international counterparts. Grants do not usually exceed £5,000 and cover travel and subsistence costs only.	http://www.bbsrc.ac.uk/science/international/isis.aspx
RCUK-FAPESP bilateral agreement for the research grants scheme	Biotechnology and Biological Sciences Research Council	---	Applications due at least 12 weeks before the proposed start of the project.	Hosting visits, Access to laboratories, telescopes etc., Travel to conferences, meetings etc., Travel for research purposes, Networking/collaboration	£35,000	-	-	These provide short-term pump-priming for new collaborations between BBSRC-funded research groups in the UK and Brazilian research groups in São Paulo state. BBSRC contributes up to £35,000 for a period of two years to cover travel, subsistence and other collaborative activities such as workshops or exchanges. The São Paulo Research Foundation contributes a similar amount of BRL100,000.	http://www.bbsrc.ac.uk/funding/internationalfunding/fapesp-pump-priming.aspx
HEE/NIHR master's in clinical research studentships	Biotechnology and Biological Sciences Research Council	---		Hosting conferences, Academic-Industry links, Networking/collaboration	£2,000	-	-	This enables universities and institutes to deliver events to facilitate discussion and improve awareness of knowledge exchange and commercialisation of BBSRC-supported research. Grants are worth up to £2,000 each.	http://www.bbsrc.ac.uk/business/commercialisation/kec-seminars.aspx
Exploring innovation seminars (formerly the knowledge exchange and commercialisation seminars)	Biotechnology and Biological Sciences Research Council	---		Directed grants for individual investigators, Directed grants to institutions, research groups etc, Academic-Industry links	£16,000	-	-	This enables potential follow-on funding applicants to develop a clearer understanding of the commercial potential of the outputs of a research grant and to assist with the development of a full follow-on funding application. Awards cover 80 per cent of full economic cost and are typically worth between £5,600 and £8,000. In exceptional cases, up to £16,000 can be requested for activities such as milestone one achievement.	http://www.bbsrc.ac.uk/business/commercialisation/follow-on-pathfinder.aspx
Manufacturing the future: call for investigator-led research projects	Biotechnology and Biological Sciences Research Council	---		Predocctoral fellowships, Early-Career fellowships, Personal development, Financial aid for postgraduate students, Travel for research purposes	-	-	-	This is an opportunity for the council's doctoral training partnership PhD students to carry out work placement unrelated to their doctoral research during their PhD, and gain experience of working in corporate policy and strategy, science and innovation policy, public engagement or project management at the BBSRC Swindon office. Up to eight placements per year are available, each tenable for three months.	http://www.bbsrc.ac.uk/business/people-information/professional-internships.aspx
Ebola trials funding call	Biotechnology and Biological Sciences Research Council	Unknown		Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration	-	-	-	*** The Biotechnology and Biological Sciences Research Council will shortly be inviting proposals for the BBSRC-State of São Paulo Research Foundation joint call in advanced biofuels. The call is due to open in early 2015, with further information to be announced in late 2014. Application information is subject to change. This call aims to encourage new partnerships to develop integrated biorefinery approaches for the manufacture of advanced biofuels.***	http://www.bbsrc.ac.uk/funding/opportunities/2015/joint-fapesp-advanced-biofuels.aspx

Projects peer review panel – large projects	Biotechnology and Biological Sciences Research Council	Unknown		Directed grants to institutions, research groups etc	-	-	£14,000,000	*** The Biotechnology and Biological Sciences Research Council and four other funders, under their global food security programme, will soon be inviting applications for their call on resilience of the UK food systems in a global context. This is expected to be launched in September 2015. The following information is subject to change. Funding supports interdisciplinary projects addressing key themes related to the resilience of the UK food systems in a global context. The total budget is worth up to £14 million. ***	http://www.bbsrc.ac.uk/funding/opportunities/2015/food-system-resilience/
Programme development grants for applied research – including the multiple morbidities in older people themed call	British Academy	14 Oct 15	Applications are invited between 2 September and 14 October 2015.	Hosting visits, Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators, Networking/collaboration	£10,000	£500	-	These are available to support primary research in the humanities and social sciences. Grants are tenable for up to two years and are worth between £500 and £10,000.	http://www.britac.ac.uk/funding/guide/srg.cfm
Fellowships	British Academy	18 Nov 15	Applications are invited between 14 October and 5pm GMT, 18 November 2015. This call is repeated every 2 years.	Early-Career fellowships, Senior fellowships, Directed grants for individual investigators, Mid-Career fellowships	-	-	-	This enables an established scholar to have time away from their normal teaching and administrative responsibilities for one year to concentrate on a major piece of research that is related to “human studies, widely interpreted”.	http://www.britac.ac.uk/readfell.cfm
Ecology and evolution of infectious diseases	British Academy	18 Nov 15	Applications are invited between 14 October and 5pm UK time, 18 November 2015. This call is repeated once a year.	Senior fellowships, Directed grants for individual investigators, Publish, edit, translate, disseminate	-	-	-	These enable mid-career scholars to have one year’s research leave by providing funding to cover the costs of replacement teaching. Fellowships are provided on a non full economic cost basis.	http://www.britac.ac.uk/readfell.cfm
Network grants	Daphne Jackson Trust	---		Early-Career fellowships, Senior fellowships, Travel to conferences, meetings etc., Mid-Career fellowships	-	-	-	Fellowships are normally undertaken on a part-time basis in a university or research establishment in the UK. They are flexible and include a tailored training programme to update the skills and knowledge of the fellow, allowing them to return at the appropriate level to their career. Fellowships last for two years and cover a salary with a small additional allowance for expenses such as conference attendance.	http://www.daphnejackson.org/fellowships/
Clinician scientist award	Department for International Development	20 Jul 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Expressions of interest due by 11.59pm BST, 20 July; full proposals due by 9am GMT, 14 December 2015. This call is repeated once a year.	Travel for research purposes, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	£2,000,000	Funding supports collaborative projects that aim to improve health outcomes by strengthening the evidence base for public health interventions in humanitarian crises. The annual budget is worth approximately £2 million. Seed funding of up to £10,000 per project may be awarded to cover travel and other costs associated with bringing the various project partners together and to collect preliminary data to support the proposal.	http://www.elrha.org/news/funding-alert-call-open-for-research-for-health-in-humanitarian-crises/
Understanding and sustaining Brazilian biome resources	Department of Health including NIHR	03 Sep 15	Expressions of interest for primary research or full proposals for evidence synthesis due by 1pm. Deadlines on: 3 September 2015.	Clinical trials, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	This supports research that assesses the effectiveness of technologies within the NHS. Health technology covers any method used to promote health, prevent and treat disease, and improve rehabilitation or long-term care.	http://www.nets.nihr.ac.uk/funding/hta-researcher-led
Health technology assessment programme – researcher-led workstream	Department of Health including NIHR	03 Sep 15	Proposals due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	Proposals may address one of the following subjects: public communication for anti-microbial resistance; health improvement interventions for gay, bisexual, transgender or other men who have sex with men; interventions to target people in mid-life to maintain or take up healthy behaviours; community-based interventions that promote uptake and maintenance of breastfeeding; interventions to promote healthy eating in minority ethnic groups.	http://www.nets.nihr.ac.uk/funding/phr-commissioned
Public health research programme – commissioned calls for proposals: 15/50, 15/51, 15/52, 15/53, 15/54	Department of Health including NIHR	03 Sep 15	Proposals due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	Proposals are sought on the topic of evidence syntheses to support emerging models of care. These models include multispecialty community providers, primary and acute care systems, viable smaller hospitals and enhanced health in care homes.	http://www.nets.nihr.ac.uk/funding/hsdr-commissioned
UK in a changing Europe senior fellowships	Department of Health including NIHR	10 Sep 15	Proposals due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	Proposals are sought on evaluating service models of smoking cessation in prison.	http://www.nets.nihr.ac.uk/funding/hsdr-commissioned
What’s inside that building – themed research call	Department of Health including NIHR	10 Sep 15	Applications due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	Proposals are sought on the topic of cost-effectiveness of cascade testing for familial hypercholesterolaemia.	http://www.nets.nihr.ac.uk/funding/hta-commissioned
Senior research fellowships in clinical science	Department of Health including NIHR	11 Sep 15	Applications due by 5pm. This call is repeated once a year.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	This enables Cochrane Review Groups to prepare key new or updated Cochrane reviews. Awards are worth £5,000, though in very exceptional cases a higher incentive payment may be agreed.	http://www.nets.nihr.ac.uk/funding/nihr-cochrane-review-incentive-scheme

Cochrane review incentive scheme	Department of Health including NIHR	14 Sep 15	Applications due by 12 noon. This call is repeated once a year.	Prizes, Technology innovation/development, Directed grants to institutions, research groups etc, Innovation grants	-	-	£150,000	These encourage, recognise and reward front line innovation, and drive spread and adoption of these innovations across the NHS in the following two challenges: cancer challenge; acorn challenge. The total budget is worth £150,000.	http://www.england.nhs.uk/challengeprizes/
Eurostars programme	Department of Health including NIHR	17 Sep 15	Standard outlines and evidence synthesis proposals both due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	This supports research into the quality, effectiveness and accessibility of health services, including evaluations of how the NHS might improve delivery of services. NIHR will fund HEIs at a maximum of 80 per cent of full economic cost, and non-HEIs at 100 per cent of full economic cost.	http://www.nets.nihr.ac.uk/funding/hsdr-researcher-led
Ernest Rutherford fellowships	Department of Health including NIHR	24 Sep 15	Applications due by 1pm. This call is repeated once a year.	Early-Career fellowships, Senior fellowships, Directed grants for individual investigators, Mid-Career fellowships	-	-	-	These support innovative and creative proposals that seek to increase the effectiveness of knowledge mobilisation within NHS settings and increase understanding of these processes. KMR fellowships cover an individual's salary, a training and development programme, travel and conference fees and costs for other activities needed to complete the research project such as equipment and patient and public involvement. Each fellowship may be undertaken on a full-time basis covering 100 per cent of costs or a part-time basis covering 70 per cent of costs over 36 months or 50 per cent of costs for 48 months.	http://www.nihr.ac.uk/funding/knowledge-mobilisation-research-fellowships.htm
Knowledge mobilisation research fellowships	Department of Health including NIHR	24 Sep 15	Proposals due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	Proposals are sought on various specified topics in health research.	http://www.nets.nihr.ac.uk/funding/hta-commissioned
Health technology assessment – commissioned calls: 15/31, 15/97-15/119, 15/39-15/46	Department of Health including NIHR	24 Sep 15	Proposals due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	*** The Department of Health's National Institute for Health Research has extended the closing date for outline proposals and evidence syntheses under the commissioned funding stream of its health technology programme. The previous deadline of 12 May has been extended to 24 September 2015. All other call information remains unchanged. Proposals are sought on mechanical insufflation-exsufflation devices for assisted cough in neuromuscular disease. ***	http://www.nets.nihr.ac.uk/funding/hta-commissioning-briefs-of-continuing-interest
New investigator research grants – neurosciences and mental health	Department of Health including NIHR	06 Oct 15	Applications due by 1pm.	Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration	-	-	-	This call aims to provide evidence to improve health outcomes in England through promotion of health, prevention of ill health, and optimal disease management, with particular emphasis on conditions causing significant disease burden. The award amount and funding period depends on the nature of the proposed work. There is no fixed upper limit, although funding in excess of £2.5 million is unusual.	http://www.nihr.ac.uk/funding/pgfar-guidance.htm
Sir Henry Wellcome postdoctoral fellowships	Department of Health including NIHR	13 Oct 15	Proposals due by 1pm. This call is repeated 2 times a year.	Directed grants to institutions, research groups etc, Networking/collaboration	£100,000	£20,000	-	These support projects in all areas of health research, however priority is given to those that focus on the evaluation of interventions or services delivered for older people with multimorbidity, defined as the co-occurrence of two or more chronic conditions in one person. Grants are worth between £20,000 and £100,000 for a period of six to 18 months.	http://www.nihr.ac.uk/funding/pgd-calls-and-competitions.htm
Investigator awards in biomedical science	Department of Health including NIHR	09 Nov 15	Applications due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	This supports research that evaluates public health interventions, specifically to provide new knowledge on the benefits, costs, acceptability and wider impacts of non-NHS interventions intended to improve the health of the public and reduce inequalities in health.	http://www.nets.nihr.ac.uk/funding/phr-researcher-led
Public health research programme - researcher-led call for proposals	Department of Health including NIHR	10 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Predocctoral training fellowships, Postdoctoral training fellowships, Directed grants for individual investigators	-	-	-	These enable candidates to undertake specialist clinical training as well as research or educationalist training. The duration of a fellowship is a maximum of three years or four years in general practice.	http://www.nihr.ac.uk/funding/academic-clinical-fellowships.htm
Academic clinical fellowships	Department of Health including NIHR	10 Nov 15	Applications due by 1pm. This call is repeated 3 times a year.	Clinical trials, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	This supports research into interventions based in or used by the NHS and its partners, including clinical trials and evaluative studies of novel and repurposed interventions. There is no fixed limit on project duration. All funding should be clearly justified, but there is no upper limit.	http://www.nets.nihr.ac.uk/funding/eme-researcher-led
Multi-user equipment grants	Department of Health including NIHR	10 Nov 15	Applications due by 1pm.	Clinical trials, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	Proposals are sought for the areas treatment response in non-cancerous conditions, novel diagnostics and treatments for irritable bowel syndrome, mechanisms of action of health interventions and severe opportunistic fungal infections. There is no fixed limit on project duration. All funding should be clearly justified, but there is no upper limit.	http://www.nets.nihr.ac.uk/funding/eme-commissioned
Europe partnering awards	Department of Health including NIHR	14 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Personal development, Institutional development	-	-	-	These are one-year opportunities for qualified health and social care professionals to find out about the inner workings of NICE and undertake supported improvement projects, related to NICE guidance, within their local organisations. Scholars are not paid, but all reasonable expenses incurred in the course of carrying out scholarship activities are met. NICE aims to appoint 10 scholars per year.	http://www.nice.org.uk/Get-Involved/Fellows-and-Scholars/Scholars
Scholarships	Department of Health including NIHR	14 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Senior fellowships, Institutional development	-	-	-	These are awarded to senior health and social care leaders for them to act as ambassadors for the institute at regional and national levels and among their professional groups and peers. Fellows are not paid, but all reasonable expenses incurred in the course of carrying out fellowship activities are met. NICE aims to appoint 10 fellows per year.	http://www.nice.org.uk/Get-Involved/Fellows-and-Scholars/Fellows

Energy catalyst – early-stage awards – technical feasibility	Department of Health including NIHR	18 Nov 15	EOIs due by 1pm.	Clinical trials, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	Funding supports research that assesses the effectiveness of important health interventions and technologies to inform clinical or public health decision making within the NHS. Applications can relate to any area of the health service, with no restrictions on speciality or disease area. The setting may be in primary, community or hospital care.	http://www.nets.nihr.ac.uk/funding/hta-researcher-led?utm_source=Funding+programmes+mailing+list&utm_campaign=1820c60d65-HTA_commissioned_call_alert_July_2015&utm_medium=email&utm_term=0_0ff7d16771-1820c60d65-147159717
Seed awards in society and ethics	Department of Health including NIHR	02 Dec 15	Applications due by 1pm. This call is repeated 3 times a year.	Directed grants to institutions, research groups etc, Networking/collaboration	£350,000	-	-	*** The Department of Health's National Institute for Health Research will shortly be inviting applications for its research for patient benefit programme, including the multimorbidities in older people themed call. The closing date is 2 December 2015 and further call details will be announced on 26 August 2015. The following information is subject to change. This programme supports high-quality research that directly benefits users of the NHS in England. Projects may receive up to £350,000 each for up to three years. ***	http://www.nihr.ac.uk/funding/RFPB_calls-and-competitions.htm
New generation thinkers	Department of Health including NIHR	15 Dec 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Early-Career fellowships, Travel for research purposes, Directed grants for individual investigators, Equipment and materials	-	-	-	*** The Department of Health's National Institute for Health Research will shortly be inviting applications for its research professorships. The closing date is expected to be mid-December 2015 and further call details will be announced in late September 2015. The following information is subject to change. These professorships enable candidates in the early part of their careers to lead research, promote effective translation of research and strengthen research leadership at the highest academic levels. Each award includes a postdoctoral appointment, research running costs, a travel fund, access to the NIHR leadership programme and the opportunity for a sabbatical, as well as the basic salary costs of the individual plus indirect costs. ***	http://www.nihrcc.nhs.uk/researchprofessor/
Study abroad studentships	Department of Health including NIHR	13 Jan 16	Stage 1 proposals due by 1pm, 13 January 2016; invited stage 2 proposals due by 1pm, 20 April 2016.	Academic-Industry links, Directed grants to institutions, research groups etc, Innovation grants, Technology innovation/development, Research calls for business, Networking/collaboration, Travel for research purposes, Equipment and materials, Travel to conferences, meetings etc.	-	-	-	*** The Department of Health's National Institute for Health Research will shortly be inviting applications for its invention for innovation (i4i) product development awards. The closing date for stage 1 applications is 13 January 2016 and further call details will be announced on 11 November 2015. The following information is subject to change. These awards support research and development of medical devices, active implantable devices and in vitro diagnostic devices in any area of existing or emerging clinical need. Awards cover between 80 and 100 per cent of eligible project costs over a maximum period of three years. ***	http://www.nihr.ac.uk/funding/i4i-guidance.htm
COMING SOON: Invention for innovation (i4i) product development awards	Department of Health including NIHR	13 Jan 16	Stage 1 proposals due by 1pm, 13 January 2016; invited stage 2 proposals due by 1pm, 20 April 2016.	Directed grants to institutions, research groups etc, Innovation grants, Prototypes and demonstrations, Technology innovation/development, Research calls for business, Clinical trials, Travel to conferences, meetings etc., Travel for research purposes, Equipment and materials, Networking/collaboration	-	-	-	*** The Department of Health's National Institute for Health Research will shortly be inviting applications for its invention for innovation (i4i) challenge awards. The closing date for stage 1 applications is 13 January 2016 and further call details will be announced on 11 November 2015. The following information is subject to change. These awards support the clinical development of laboratory-validated technologies or interventions, requiring minimal preclinical development, and addressing an existing or emerging healthcare need in the area of regenerative medicine technologies or biological therapeutics for cancer. Awards cover between 80 and 100 per cent of eligible project costs over a maximum period of three years. ***	http://www.nihr.ac.uk/funding/i4i-guidance.htm
Arctic research station	Department of Health including NIHR	31 Mar 16		Early-Career fellowships, Predoctoral training fellowships, Postdoctoral training fellowships	-	-	-	These provide a clinical and academic training environment for a dentist in the early stages of specialty training to prepare an application for a training fellowship leading to a PhD, or equivalent, or if applicable a postdoctoral fellowship. Clinician scientist fellowships	Economic and Social Research Council	08 Apr 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Proposals due by 4pm. This call is repeated once a year.	Hosting conferences, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Academic-Industry links, Networking/collaboration	-	-	-	This supports the hosting of research seminars and strategic networks for groups of academic researchers, postgraduate students and non-academics users from different organisations. A total of 20 seminar series grants, worth up to £30,000 each, are available over two to three years. A total of four strategic network grants, worth up to £100,000 each at 100 per cent economic cost, are available for up to one year.	http://www.esrc.ac.uk/funding-and-guidance/funding-opportunities/33615/research-seminars-and-strategic-networks-competition.aspx?utm_source=feedburner&utm_medium=feed&utm_campaign=Feed%3A+ESRCCurrentFundingOpportunities+%28ESRC+Current+Funding+Opportunities%29&utm_content=FeedBurner
Research seminars and strategic network competition	Economic and Social Research Council	13 Apr 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Proposals are invited between 16 February and 13 April 2015. This call is repeated once a year.	Access to libraries	-	-	-	This call invites proposals for studies to be incorporated in the Understanding Society panel of data collection from wave nine onwards, with priority given to experiments related to: education; employment; family and household; health, health behaviours, wellbeing; income, housing, wealth, expenditure and deprivation.	https://www.understandingsociety.ac.uk/research/get-involved/innovation-panel-competition
Master's awards in medical humanities	Economic and Social Research Council	14 May 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications due by 4pm UK time. This call is repeated once a year.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Development (Africa/Caribbean), Networking/collaboration	£700,000	£200,000	£6,500,000	This aims to address key questions on learning outcomes within education systems in developing countries, provide policymakers and practitioners with concrete ideas on how to improve learning outcomes, and understand how these translate to their specific contexts and institutions. Grants are worth between £200,000 and £700,000 each. Projects must last between one and four years, starting from 1 March 2016. The total budget is worth £6.5 million.	http://www.esrc.ac.uk/funding-and-guidance/funding-opportunities/33605/esrc-dfid-education-and-development-raising-learning-outcomes-in-education-systems-programme2015-call.aspx?utm_source=twitterfeed&utm_medium=twitter&utm_campaign=Feed%3A+ESRCCurrentFundingOpportunities+%28ESRC+Current+Funding+Opportunities%29
Standard research grants	Economic and Social Research Council	---		Directed grants for individual investigators, Directed grants to institutions, research groups etc	£2,000,000	£200,000	-	These support individuals or teams at eligible institutions to conduct research projects, large-scale surveys and other infrastructure or methodological developments in any area within the council's remit. Grants range in size from £200,000 to £2 million at 100 per cent full economic cost.	http://www.esrc.ac.uk/funding-and-guidance/funding-opportunities/3717/standard-grants.aspx
Fellowships	Economic and Social Research Council	---		Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	£350,000	-	Grants support collaborative research in any area of the social sciences within the remit of both the ESRC and the State of São Paulo Research Foundation. The combined cost of the entire collaborative project should be at least £350,000.	http://www.esrc.ac.uk/funding-and-guidance/funding-opportunities/16961/rcuk-fapesp-bilateral-agreement-for-the-research-grants-scheme.aspx?utm_source=feedburner&utm_medium=feed&utm_campaign=Feed%3A+ESRCCurrentFundingOpportunities+%28ESRC+Current+Funding+Opportunities%29
Conference and short course applications	Economic and Social Research Council	---		Tenders	€2,500,000	€2,000,000	-	*** The Economic and Social Research Council will shortly be announcing a tender for research and development consultancy services on ESRC-DFID strategic partnerships. The tenderer will form an evidence and policy directorate to maximise research impact on policy and practice relevant to developing countries. Funding for this tender is worth between €2 million and €2.5m. Closing date information has not been confirmed by the funder. Application information is subject to change. ***	http://ted.europa.eu/udl?uri=TED:NOTICE:296509-2014:TEXT:EN:HTML

COMING SOON: Efficacy and mechanism evaluation commissioned call – graft vs host disease	Economic and Social Research Council	Unknown		Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	*** The Economic and Social Research Council will shortly be inviting proposals for its secondary data analysis initiative. Closing date information has not yet been released by the council but the call is expected to launch in November 2015, with further information to be announced in autumn. The following call details are subject to change. The call aims to deliver high quality and high-impact research through the deeper exploitation of major data resources created by the ESRC and other agencies. ***	http://www.esrc.ac.uk/news-and-events/announcements/34602/sdaipen-funding-competition.aspx
Research training fellowships	Engineering and Physical Sciences Research Council	07 Sep 15	ARCHER technical assessments due by 4pm, 7 September; proposals due by 4pm, 21 September 2015.	Access to laboratories, telescopes etc.	-	-	-	This scheme provides access to the council's national state-of-the-art high performance computing facility for proposals that are within the council's remit and that would benefit from ARCHER. Users may request significant amounts of computing resource (>1 million allocation units) over a maximum one-year period.	https://www.epsrc.ac.uk/funding/calls/rapaccessoarchersummer2015/
Resource allocation panel – access to ARCHER	Engineering and Physical Sciences Research Council	07 Sep 15	ARCHER technical assessments due by 4pm, 7 September; proposals due by 4pm, 21 September 2015.	Access to laboratories, telescopes etc.	-	-	-	This call enables investigators on existing EPSRC grants to access the computing resources on ARCHER in order to meet their current grant objectives. The maximum time period is two years.	https://www.epsrc.ac.uk/funding/calls/raptopupaapplicationssummer2015/
Resource allocation panel – top-up of ARCHER resource for existing grant holders	Engineering and Physical Sciences Research Council	07 Sep 15	ARCHER technical assessments due by 4pm, 7 September; proposals due by 4pm, 21 September 2015.	Access to laboratories, telescopes etc.	-	-	-	*** The Engineering and Physical Sciences Research Council and the Natural Environment Research Council has extended the closing date for technical assessments and applications for their ARCHER leadership projects. The previous deadline of 1 September has been extended to 7 September 2015. All other call details remain the same. These awards provide direct access to the UK's national supercomputing facility ARCHER for computationally intensive individual projects. A total of 2 million kAU is available and each applicant should apply for at least 100,000 kAU for a maximum period of two years. ***	https://www.epsrc.ac.uk/funding/calls/archerleadership1/
Sustaining water resources for food, energy and ecosystem services in India	Engineering and Physical Sciences Research Council	08 Sep 15	Intents to apply due by 8 September; full proposals due by 4pm, 6 October 2015.	Hosting visits, Hosting conferences, Travel to conferences, meetings etc., Travel for research purposes, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	£5,000,000	Funding supports projects that seek to establish new research communities around the grand challenge of developing future therapies, frontiers of physical intervention, optimising treatment or transforming community health and care. The total budget of up to £5 million will fund approximately eight projects. Awards support periods between three and four years.	https://www.epsrc.ac.uk/funding/calls/htgcnetsplu/
Innovation challenge prizes	Engineering and Physical Sciences Research Council	14 Sep 15	Intents to submit due by 14 September; full proposals due by 4pm, 13 October 2015.	Prototypes and demonstrations, Research calls for business, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Equipment and materials, Networking/collaboration	-	-	£10,000,000	This call supports co-created, user-driven and interdisciplinary research that addresses real problems in the broad areas of trust, identity, privacy and security in the digital economy. The total budget available is £10 million to fund up to 10 projects.	https://www.epsrc.ac.uk/funding/calls/trustidentityprivacysecurity/
Call for research on prevention and management of chronic lung diseases	Engineering and Physical Sciences Research Council	15 Sep 15	Applications due by 5pm.	Hosting conferences, Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Academic-Industry links, Networking/collaboration	£6,000	-	£35,000	This links academics with business, policy and user groups for the outcome of increasing direct societal impact over academic or research projects about how technology shapes home- and work-life, including feeding research into business development and informing policy. Up to £6,000 is available for each application, although the majority of applications will receive funding under £4,000. The total budget is £35,000.	http://balancenetwork.bmsserver2.com/index.php/news/item/53-balance-network-funding-announced
EXTENDED DEADLINE: Health technology assessment – commissioned call 14/229	Engineering and Physical Sciences Research Council	24 Sep 15	Outline applications due by 4pm, 24 September; invited full proposals due by 4pm, 10 December 2015.	Institutional development, Research centres, Directed grants to institutions, research groups etc, Academic-Industry links, Networking/collaboration	£5,000,000	-	-	This supports cross energy-sector collaboration designed to enable future energy systems integration which will help the UK meet its ambitious 2050 emission targets and address the energy trilemma by providing resilient, affordable and sustainable future energy systems. Funding is worth up to £5 million for the development of a new research centre.	https://www.epsrc.ac.uk/funding/calls/systinenergysupplydemand/
Systems integration of energy supply and demand	Engineering and Physical Sciences Research Council	25 Sep 15	Outline proposals due by the last working Friday in the month before each batch meeting. Deadlines on: 25 September 2015, 27 November 2015, 29 January 2016.	Institutional development, General operating support, Travel for research purposes, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	These provide a baseline of flexible support that can be used for the retention of key staff, feasibility studies, longer-term research and international networking. Awards provide baseline funding for up to five years. Funds should be used for staff-centric purposes, with requests expected to be for 80 to 140 person-months of staff time.	http://www.epsrc.ac.uk/funding/howtoapply/routes/capacity/platform/
Leverhulme Trust senior research fellowships	Engineering and Physical Sciences Research Council	27 Oct 15	Proposal outlines are invited between 8 September and 4pm, 27 October 2015.	Technology innovation/development, Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration	-	-	£15,000,000	*** The Engineering and Physical Sciences Research Council will shortly be inviting outlines for its healthcare technologies programme grants. The call will open on 8 September 2015, when full details are expected to be announced, and will close on 27 October 2015. The following details are subject to change. These grants support research that seeks to address significant major research challenges that align with the healthcare technologies grand challenges. A total of £15 million is available to fund three to five projects. ***	https://www.epsrc.ac.uk/funding/calls/htproggrants/#scrolltop

Integrative toxicology training partnership PhD studentship scheme	Engineering and Physical Sciences Research Council	01 Dec 15	Expressions of interest due by 12 noon. This call is repeated once a year.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Networking/collaboration	£10,000	-	-	£30,000	This supports researchers to further tell the story of research impact through producing informative case study exemplars that can be used to help the wider research community develop understanding of the nature of a pathway to impact. Three awards of £10,000 are available. The maximum project duration is 18 months.	https://www.epsrc.ac.uk/funding/calls/ttoe2015/
Biomedical catalyst – developmental pathway funding scheme	Engineering and Physical Sciences Research Council	03 Dec 15	Applications are invited between 8 September and 3 December 2015.	Early-Career fellowships, Senior fellowships, Directed grants for individual investigators, Mid-Career fellowships	-	-	-	£2,500,000	*** The Engineering and Physical Sciences Research Council will shortly be inviting applications for its healthcare technologies impact fellowships. This call will open on 8 September 2015 and has a closing date of 3 December 2015. All call details are subject to change. The aim of these fellowships is to enable EPSRC-funded fellows to progress the research outputs from their fellowship towards impact in healthcare and to fund a cohort of fellows from a broad range of engineering and physical sciences backgrounds that have the common interest in progressing the research supported by their fellowships towards impact in healthcare. A budget of around £2.5 million will be available. ***	https://www.epsrc.ac.uk/funding/calls/htimpacfellows/
Research project grants	Engineering and Physical Sciences Research Council	---		Travel for research purposes, Academic-Industry links, Networking/collaboration	-	-	-	-	The aim of these networks is to create new interdisciplinary research communities and topics by developing interaction between the research community and appropriate science, technology and industrial groups. Funding for a maximum of three years is provided to cover the operating and support costs of a network.	http://www.epsrc.ac.uk/funding/howtoapply/routes/network/networks/
Research grants – standard route and route for early career researchers	Engineering and Physical Sciences Research Council	---		Directed grants for individual investigators, Networking/collaboration	£100,000	-	-	-	This helps new academics apply for research funding at the start of their careers. Academics who have had non-typical or part-time working patterns and whose return to academic life will be enhanced by grants are welcome to apply. Grants cover 80 per cent of full economic costs up to a maximum of £100,000 over two years.	http://www.epsrc.ac.uk/funding/howtoapply/routes/newac/firstgrant/
Chronic fatigue syndrome/myalgic encephalomyelitis – cross-board highlight notice	Engineering and Physical Sciences Research Council	---		Travel for research purposes, Technology innovation/development, Directed grants to institutions, research groups etc, Equipment and materials, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	-	-	These are flexible grants that support projects ranging from small travel grants to multi-million-pound research programmes. Grants have no limit on value or length.	http://www.epsrc.ac.uk/funding/howtoapply/routes/standardresearch/
Research grants	Engineering and Physical Sciences Research Council	---		Hosting conferences, Travel to conferences, meetings etc., Networking/collaboration	-	-	-	-	These may be held to exchange ideas and expertise internationally, with the objective of exploring the possibility of more substantial future collaboration. Funding covers travel and accommodation expenses of UK participants and, for meetings in the UK, core meeting costs.	http://www.epsrc.ac.uk/funding/howtoapply/routes/international/epsrcfunding/
Bilateral research workshops	Engineering and Physical Sciences Research Council	---	Applicants must discuss their proposal with the appropriate EPSRC contact before submitting an outline proposal. Outlines due by last Friday of January, March, May, July, September and November every year.	Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	-	These enable researchers to address major research challenges. Grants are intended to support a suite of related research activities focusing on one strategic theme. Funding may last for up to six years.	http://www.epsrc.ac.uk/funding/howtoapply/routes/capacity/programme/
Principal research fellowships	Engineering and Physical Sciences Research Council	---		Personal development, Travel for research purposes, Networking/collaboration	-	-	-	-	These enable individuals to visit recognised non-UK universities and industrial organisations, in order to study new techniques and develop international collaborations. In addition to travel and subsistence, the principal investigator may request funds to cover their salary and indirect costs. Visa costs are also eligible.	http://www.epsrc.ac.uk/funding/howtoapply/routes/international/otgs/
Translational medicine and therapeutics programmes	Engineering and Physical Sciences Research Council	---		Travel for research purposes, Directed grants for individual investigators, Networking/collaboration	-	-	-	-	This enables researchers to spend time in a new and different research or user environment. Each award principally covers 80 per cent of the cost of the principal investigator's salary as well as travel, subsistence, some technical effort and the costs of an academic in the host location. Projects should be between three and 12 months in duration, although part time awards may be awarded for up to 24 months.	http://www.epsrc.ac.uk/funding/calls/disciplinehooping07/
Leadership fellows scheme – standard route	Engineering and Physical Sciences Research Council	---		Early-Career fellowships, Senior fellowships, Directed grants for individual investigators, Mid-Career fellowships	-	-	-	-	These aim to develop the next generation of researchers with the greatest potential across different career stages. Fellowships are available at the postdoctoral, early career and established career level.	http://www.epsrc.ac.uk/skills/fellows/
Capital funding for learned societies	Engineering and Physical Sciences Research Council	---		Travel for research purposes, Networking/collaboration	£5,000	-	-	-	This allows researchers from one information and communication technology discipline to spend a short time in a different institute, or two researchers to spend time in each other's institutions. The award is worth up to £5,000 for visits or exchanges lasting no longer than one month.	http://efutures.ac.uk/xd/awards/travel

eFuturesXD travel award	Engineering and Physical Sciences Research Council	---		Travel for research purposes, Directed grants to institutions, research groups etc, Networking/collaboration	£16,000	-	-	This is for researchers who have a current or recent cross-disciplinary project and require additional resources to take their idea towards commercialisation or follow-on funding to bridge the gap. The award covers 80 per cent of full economic cost up to a maximum of £16,000 per project.	http://efutures.ac.uk/xd/awards/facility
eFuturesXD facility award	Engineering and Physical Sciences Research Council	---		Travel for research purposes, Directed grants to institutions, research groups etc, Networking/collaboration	£48,000	-	-	This is primarily aimed at small teams of researchers from two or more disciplines wishing to carry out key experiments or measurements to confirm an initial hypothesis. The award covers 80 per cent of full economic cost up to a maximum of £48,000 per project.	http://efutures.ac.uk/xd/awards/staff
eFuturesXD staff award	Engineering and Physical Sciences Research Council	---		Hosting conferences, Networking/collaboration	£8,000	-	-	This is intended to facilitate the building of larger research consortia comprising researchers from a number of departments and institutions across the portfolio of information and communications technology. The award covers 80 per cent of full economic cost up to a maximum of £8,000 per project.	http://efutures.ac.uk/xd/awards/meeting
Environmental exposure and chronic disease highlight notice	Engineering and Physical Sciences Research Council	---	Applications should be submitted three months before funding is required.	Hosting conferences, Directed grants for individual investigators	-	-	-	Small awards are available to help individuals or organisations with activities related to science and engineering for which public funds are not available.	http://www.epsrc.ac.uk/funding/howtoapply/routes/pe/holmeshinesfund/
Return to research support bursaries	Engineering and Physical Sciences Research Council	---	Proposals are next assessed on 27 February and 31 August 2015.	Technology innovation/development, Directed grants for individual investigators, Equipment and materials, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£5,000,000	Proposals should address key research challenges facing manufacturing in the UK, both currently and in the future. The total annual budget is approximately £5 million.	http://www.epsrc.ac.uk/funding/calls/investigatorledresearchprojects/
COMING SOON: Sustainable gas futures	Engineering and Physical Sciences Research Council	---	Applicants should prepare for a turnaround time of up to one month.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Academic-Industry links, Networking/collaboration	£2,000	£1,000	-	This promotes interdisciplinary and academic-industry collaborations by funding travel and accommodation for short term visits and exchanges, each of which may involve several people and more than one visit. Awards typically range from £1,000 to £2,000 each.	http://www.dial-a-molecule.org/wp/funding/
Interdisciplinary mobility fund	Engineering and Physical Sciences Research Council	---	Interested applicants should contact the Network Coordinator to discuss their proposal.	Hosting conferences	-	-	-	This may support small sandpit-type meetings of a selected group aimed at producing a specific grant application, or large open meetings aimed at generating ideas and developing new collaborations in a defined area. Funding may be used to fund or co-fund meetings.	http://www.dial-a-molecule.org/wp/funding/
Funding for meetings	Engineering and Physical Sciences Research Council	---		Travel to conferences, meetings etc., Directed grants for individual investigators	-	-	-	These enable early-career researchers to attend the Dial-a-Molecule grand challenge network's events. Bursaries cover travel expenses and accommodation costs.	http://www.dial-a-molecule.org/wp/funding/
FAPESP pump-priming awards	ERA-Net CHIST-ERA	---		Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	€10,660,000	*** ERA-Net CHIST-ERA will shortly be inviting applications for its joint call. The call is expected to open in October 2015. The following information is subject to change. This aims to reinforce the transnational collaboration between the participating states in challenging multidisciplinary research in the area of information communication technology services with the potential to lead to significant breakthroughs. ***	http://www.chistera.eu/
Public engagement training courses	ERA-Net ERA-IB-2	Unknown		Prototypes and demonstrations, Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	€20,000,000	*** ERA-Net ERA-IB-2 and ERA-Net EuroTransBio will shortly be inviting proposals via their joint call. Closing date information has not yet been confirmed by the networks, but is due to be announced when the call launches in October 2015. The following call details are from the previous round and are subject to change. This call supports near to the market research, development and innovation projects in all fields of modern biotechnology. The budget for the previous call was worth approximately €20 million. ***	https://www.eurotransbio.eu/index.php?index=117
STFC enterprise fellowships	ERA-Net MARTEC II	29 Apr 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Proposals due by 5pm CET. This call is repeated once a year.	Technology innovation/development, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	-	This supports collaborative research projects aiming at developing new knowledge, new technology and products, in order to improve European competitiveness and to address major societal needs. Funding is available for projects lasting a maximum of 36 months. Each country funds his participants and the form of reimbursement can vary from country to country.	https://www.martec-era.net/index.php?index=60
Sustainable agriculture research and innovation club – research translation grants	EUREKA	17 Sep 15	Applications due by 8pm Brussels time. Deadlines on 17 September 2015, 18 February 2016.	Prototypes and demonstrations, Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	-	This funds collaborative innovation research and innovation projects that will be rapidly commercialised. Funding for Eurostars participants is provided on a country by country basis. The average project includes three to four participants from two to three countries over a duration of 29 months with a project budget of €1.4 million.	https://www.eurostars-eureka.eu/content/apply-funding

SHEAR research consortia grants 2015	Innovate UK	02 Sep 15	Registrations are invited between 18 May and 12 noon, 2 September; full applications due by 12 noon, 9 September 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£3,000,000	This supports technological innovation feasibility studies on biosciences with a special focus on the areas of characterisation and discovery tools, and production and processing. Each project should range in size between £50,000 and £150,000 and last six to 15 months. The total budget is worth up to £3 million.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/technology-inspired-innovation-may-2015-biosciences
Technology-inspired innovation – biosciences	Innovate UK	02 Sep 15	Registrations are invited between 18 May and 12 noon, 2 September; full applications due by 12 noon, 9 September 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£3,000,000	This supports technological innovation feasibility studies in advanced materials, with a special focus on the areas of sustainability and materials security; materials for energy and high-value markets. Each project should range in size between £50,000 and £150,000 and last six to 15 months. The total budget is worth up to £3 million.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/technology-inspired-innovation-may-2015-advanced-materials
Technology-inspired innovation – advanced materials	Innovate UK	02 Sep 15	Registrations are invited between 18 May and 12 noon, 2 September; full applications due by 12 noon, 9 September 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£3,000,000	This supports technological innovation feasibility studies on electronics, with a special focus on photonics, sensor systems, plastic electronics, electronic systems and power electronics. Each project should range in size between £50,000 and £150,000 and last six to 15 months. The total budget is worth up to £3 million.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/technology-inspired-innovation-may-2015-electronics-sensors-and-photonics
Technology-inspired innovation – electronics, photonics and sensors	Innovate UK	02 Sep 15	Registrations are invited between 18 May and 12 noon, 2 September; full applications due by 12 noon, 9 September 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£3,000,000	This supports technological innovation feasibility studies on information and communication technology, with a special focus on new software-based technologies or approaches that enable innovation in the areas of data exploration, simpler user experiences, increasing confidence in distributed computing systems, and advanced, modern software engineering. Each project should range in size between £50,000 and £150,000 and last six to 15 months. The total budget is worth up to £3 million.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/technology-inspired-innovation-may-2015-ict
Technology-inspired innovation – information and communications technology	Innovate UK	02 Sep 15	Registrations are invited between 30 April and 12 noon, 2 September; expressions of interest due by 12 noon, 9 September 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	-	These fund projects that take innovative ideas forward through the technology development stage by conducting industrial research and development in the energy sector, including laboratory studies, testing, verification and evaluation in simulated environments. Projects may receive maximum £1.5 million for up to 36 months.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/energy-catalyst-mid-stage-awards-technology-development-round-3
Energy catalyst – mid-stage awards – technology development	Innovate UK	02 Sep 15	Registrations are invited between 30 April and 12 noon, 2 September; expressions of interest due by 12 noon, 9 September 2015.	Prototypes and demonstrations, Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	£14,000,000	-	-	These fund projects that demonstrate and evaluate the capability and performance of innovative technologies through pre-commercial technology validation in the energy sector, including prototype and pilot testing such as field trials in realistic operating environments. Projects may receive maximum £10 million for up to 36 months.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/energy-catalyst-late-stage-awards-pre-commercial-technology-validation-round-3
Partnership grant – molecular and cellular medicine	Innovate UK	09 Sep 15	Registrations are invited between 15 June and 12 noon, 9 September; applications due by 12 noon, 16 September 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£2,500,000	This competition supports feasibility studies that encourage better management and use of biofilms for beneficial purposes, and that accelerate the transfer of knowledge of model systems from research to real world challenges and opportunities, in vivo and in situ. Projects are expected to be worth up to £100,000 each and last for up to one year. The total budget is worth up to £2.5 million.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/the-management-and-use-of-biofilms
Management and use of biofilms	Innovate UK	09 Sep 15	Registrations are invited between 29 June and 12 noon, 9 September; expressions of interest due by 12 noon, 16 September; full applications due by 12 noon, 12 November 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£10,000,000	This supports collaborative research and development projects that accelerate the commercialisation of highly innovative technologies for civil aerospace. Projects are expected to range in size between £250,000 and £1.5m and last for up to three years.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/game-changing-technologies-for-aerospace
Game-changing technologies for aerospace – collaborative R&D	Innovate UK	09 Sep 15	Registrations are invited between 29 June and 12 noon, 9 September; full applications due by 12 noon, 16 September 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants	£80,000	-	£700,000	This seeks innovative technology solutions for phase one of the competition that contribute towards the aim of helping the public sector create sustainable operational services from satellite data and enable smarter, more efficient operations, reduce risk and enhance policy making. The total budget for phase one is £700,000, in which individual contracts may receive up to £80,000 each for a maximum period of five months. Phase two intends to develop and evaluate prototypes and demonstrators from the promising technologies in phase one, and has a total budget of up to £500,000 over one year.	https://sbri.innovateuk.org/competition-display-page/-/asset_publisher/E809e7R25ZTz/content/space-for-smarter-government/1524978

Stand-alone LINK	Innovate UK	23 Sep 15	Registrations due by 12 noon, 23 September; full applications due by 12 noon, 30 September 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration	£10,000,000	-	£10,000,000	*** Innovate UK and the Department for Culture, Media and Sport has extended the deadline for registrations for their Internet of Things cities demonstrator competition. The previous registration deadline of 25 August has been extended to 23 September 2015. The full applications deadline has also been extended from 2 September to 30 September 2015. All other call details remain unchanged. This competition supports a collaborative research and development project that demonstrates the capability of the Internet of Things in a city region, and shows how the large-scale deployment of IoT may benefit citizens by offering environmental improvements, economic opportunities, and more efficient and effective delivery of services such as transport, healthcare and energy. The project may receive up to £10 million for a maximum period of two years. ***	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/internet-of-things-cities-demonstrator
Mechanistic research in nutrition highlight	Innovate UK	23 Sep 15	Registrations due by 12 noon, 23 September; applications due by 12 noon, 30 September 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	£5,000,000	£50,000	£20,000,000	This supports collaborative R&D projects and feasibility studies to stimulate developments in autonomous vehicles and connected transport systems. The total available budget is worth up to £20m, of which £2.5m is reserved for feasibility studies.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/connected-and-autonomous-vehicles
Opportunities to work in the new research complex at Harwell - senior fellowships	Innovate UK	24 Sep 15	Applications due by 12 noon. Deadlines on: 21 May 2015, 16 July 2015, 24 September 2015, 26 November 2015, 21 January 2016, 24 March 2016.	Prototypes and demonstrations, Technology innovation/development, Research calls for business, Innovation grants	£250,000	-	-	These support small and medium-sized enterprises engaging in R&D projects in science, engineering and technology, from which successful new products, processes and services could emerge. Grants are worth up to £25,000 each over nine months for proof of market projects, up to £100,000 each over 18 months for proof of concept projects, and up to £250,000 each over two years for prototype development projects.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/smart-2015-16
Wellcome image awards	Innovate UK	30 Sep 15	Expressions of interest open on 2 March 2015 and are due by 12 noon on deadline dates. Deadlines on: 15 April 2015, 17 June 2015, 19 August 2015, 30 September 2015, 18 November 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£1,000,000	This aims to support the use of stratified medicine in the UK across the fields of bioinformatics, systems biology, health economics and analytical algorithms. The total budget is worth up to £1 million. Projects are worth around £60,000 on average and last from six months to three years.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/new-modelling-systems-for-stratified-medicine?p_auth=a99FWYM9
New modelling systems for stratified medicine	Innovate UK	30 Sep 15	Registrations due by 12 noon UK time, 30 September 2015; expressions of interest due by 12 noon UK time, 7 October 2015; invited applications due by 12 noon UK time, 27 January 2016.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£14,400,000	This supports collaborative research and development projects that stimulate innovation and find new commercial solutions to challenges that Malaysia is facing as climate change increasingly impacts upon its cities and its urbanisation trajectory. The total budget is worth up to £14.4 million. Projects are expected to range in size between £1m and £1.75 each and last from 24 to 34 months.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/malaysia-uk-research-and-innovation-bridges-competition
Malaysia-UK research and innovation bridges competition	Innovate UK	30 Sep 15	Registrations are invited between 24 August and 30 September; full applications due by 7 October 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	£40,000	-	£300,000	Funding supports phase 1 proof-of-concept projects that improve the speed, efficiency and effectiveness of recovering and automatically analysing data from the seized digital devices of suspects under investigation. The total budget is worth up to £300,000. Each project may receive up to £40,000.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/digital-forensics
Antimicrobial resistance in the real world – research grants	Innovate UK	07 Oct 15	Registrations due by 12 noon, 7 October; expressions of interest due by 12 noon, 14 October 2015; stage 2 submissions due by 12 noon, 20 January 2016.	Technology innovation/development, Directed grants to institutions, research groups etc, Prototypes and demonstrations, Networking/collaboration, Innovation grants, Research calls for business, Academic-Industry links	-	-	-	These support business-led collaborative projects that develop any relevant innovative solutions from across all sectors of agri-tech or other industrial sectors, and that advance the sustainable intensification of global agriculture, including aquaculture, by developing innovative solutions. Projects are expected to last for up to three years, and be worth up to £3 million each.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/agri-tech-catalyst-industrial-research-awards-round-1
Agri-tech catalyst industrial research awards	Innovate UK	07 Oct 15	Registrations due by 12 noon, 7 October; full applications due by 12 noon, 14 October 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£6,000,000	This supports collaborative research and development projects that stimulate innovation across the agroindustry, energy, and health sectors which underpin future Mexican socio-economic growth. The total budget for UK partners is worth up to £3 million, with CONACYT allocating equivalent matched funding to support Mexican participants. Projects are expected to range in size between £450,000 and £850,000 and last from one to two years. Larger projects may be considered.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/mexico-uk-collaborative-industrial-r-d-competition

Mexico-UK collaborative industrial research and development call	Innovate UK	07 Oct 15	Registrations are invited between 24 August and 12 noon, 7 October; full applications due by 12 noon, 14 October 2015.	Prototypes and demonstrations, Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£20,000,000	This supports collaborative research and development projects that accelerate the manufacturing of advanced lightweight materials, as well as system and sub-system redesign and innovation, to make significant advances in road vehicle reduction and to reduce CO2 and other emissions. Projects should range in size between £2m and £5m and last from 18 to 36 months. The total budget is worth up to £20 million.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/developing-advanced-lightweight-vehicles
Beam time access – ISIS	Innovate UK	16 Oct 15	Proposals due by 12 noon.	Technology innovation/development, Research calls for business, Innovation grants	£25,000	-	£125,000	This supports the development of an innovative commercial prototype service or application across five categories focusing on different areas of the games industry. Five companies may receive up to £25,000 each. The total budget is £125,000.	https://ictomorrow.innovateuk.org/web/digital-innovation-contest-games/
Digital innovation contest – games	Innovate UK	20 Oct 15	Applications due by 12 noon. This call is repeated 4 times a year.	Technology innovation/development, Research calls for business, Innovation grants, Academic-Industry links, Networking/collaboration	£5,000	-	-	These enable businesses to collaborate with an external expert in order to gain the knowledge to grow and innovate. Vouchers are worth up to £5,000 each.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/innovating-vouchers-round-13
Innovation vouchers	Innovate UK	20 Oct 15	Applications due by 12 noon.	Technology innovation/development, Research calls for business, Innovation grants, Academic-Industry links, Networking/collaboration	£5,000	-	-	These enable businesses to collaborate with an external expert in order to gain advice in protecting their business from cyber crime. Vouchers are worth up to £5,000 each.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/cyber-security-innovation-vouchers-round-13
David Phillips fellowships	Innovate UK	21 Oct 15	Registrations are invited between 7 September and 12 noon, 21 October; full applications due by 12 noon, 28 October 2015.	Technology innovation/development, Research calls for business, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	-	This supports technical feasibility studies that aim to encourage disruptive technology, with truly innovative and inventive thinking applied to real-world problems, in order to reduce carbon emissions from vehicles. Feasibility studies should be worth up to £250,000 each and last between 12 and 24 months. The total budget is worth up to £20 million.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/integrated-delivery-programme-12-seeding-tomorrow-s-vehicle-technologies-today
Integrated delivery programme 12: seeding tomorrow's vehicle technologies today – technical feasibility studies	Innovate UK	21 Oct 15	Registrations are invited between 7 September and 12 noon, 21 October; expressions of interest due by 12 noon, 28 October; full invited applications due by 12 noon, 16 December 2015.	Prototypes and demonstrations, Technology innovation/development, Research calls for business, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	-	This supports collaborative research and development projects that drive technology developments forward, with a clear demonstration of the route to eventual volume production and use on road-going vehicles, in order to reduce carbon emissions from vehicles. Projects should range in size between £500,000 and £3 million and last from 18 to 36 months.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/integrated-delivery-programme-12-seeding-tomorrow-s-vehicle-technologies-today
COMING SOON: Healthcare technologies programme grants	Innovate UK	28 Oct 15	Registrations are invited between 7 September and 12 noon, 28 October; full applications due by 12 noon, 4 November 2015.	Clinical trials, Technology innovation/development, Research calls for business, Innovation grants	-	-	-	This competition aims to accelerate or increase the development and adoption of innovative diagnostic tools in order to offer better targeted treatment to patients within the UK healthcare system. Phase one projects may receive between £80,000 and £150,000 over nine months. The total budget is worth £2 million.	https://sbri.innovateuk.org/competition-display-page/-/asset_publisher/E809e7R25ZTz/content/stratified-medicine-connecting-the-uk-infrastructure/1524978
Stratified medicine – connecting the UK infrastructure	Innovate UK	28 Oct 15	Registrations are invited between 21 September and 12 noon, 28 October; full applications due by 12 noon, 4 November 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£2,500,000	Funding supports technical feasibility studies that aim to stimulate the exploitation of graphene, as well as related carbon-based 2D materials that have emerged from the research base, and evaluate the feasibility and potential use of graphene in a specific application, with relevant data to support its performance against current market specifications. The total budget is worth up to £2.5 million. Each project may receive between £100,000 and £250,000 over a period of six to 12 months.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/advancing-the-commercial-applications-of-graphene
CRACK IT challenges 2015	Innovate UK	05 Nov 15	Registrations are invited between 29 June and 12 noon, 5 November; full applications due by 12 noon, 12 November 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£10,000,000	This supports feasibility studies that accelerate the commercialisation of highly innovative technologies for civil aerospace. Feasibility studies are worth up to £100,000 and should last for up to 18 months.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/game-changing-technologies-for-aerospace
Public engagement large awards scheme	Innovate UK	11 Nov 15	Registrations due by 12 noon, 11 November 2015; expressions of interest due by 12 noon, 18 November 2015; invited full applications due by 12 noon, 21 January 2016.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£10,000,000	Funding supports collaborative research and development projects that catalyse innovation, and improve the efficiency and experience of end-to-end journey for people and freight. The total budget is worth up to £10 million. Projects are expected to range in size between £250,000 and £3m and last from one to three years.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/enhancing-the-end-to-end-journey

British Academy/Leverhulme Trust senior research fellowships	Innovate UK	18 Nov 15	Registrations are invited between 30 April and 12 noon, 18 November; full applications due by 12 noon, 25 November 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	-	These support projects that explore and evaluate the technical potential of an early-stage idea or concept through technical feasibility studies in the energy sector with the aim to establish if a pre-industrial concept is ready for further technology development. Projects may receive between £50,000 and £300,000 for up to one year. The total budget of the programme is £10 million.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/energy-catalyst-early-stage-award-technical-feasibility-round-3
Health technology assessment programme – efficient study designs	Innovate UK	18 Nov 15	Registrations are invited between 12 October and 12 noon, 18 November; full applications due by 12 noon, 25 November 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£2,000,000	Funding supports technical feasibility studies that explore the enhancement of performance of advanced materials in demanding, extreme or aggressive environments. The total budget is worth up to £2 million. Each project may receive between £100,000 and £150,000 over a period of six to 12 months.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/materials-for-demanding-environments
Materials for demanding environments	Innovate UK	18 Nov 15	Applications are invited between 5 October and 12 noon, 18 November 2015.	Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£10,000,000	*** Innovate UK will shortly be inviting applications for its optimising food composition – fat, sugar, salt and fibre competition. The call opens on 5 October and will close on 18 November 2015. Further information will be announced in early September 2015. The Knowledge Transfer Network will organise consortia-building events on 15 and 17 September 2015 for potential applicants. The following call details are subject to change. This call supports research and development projects that reduce levels of salt, sugar or fat in food, or that increase dietary fibre or any combination thereof. The total budget is worth up to £10 million. ***	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/optimising-food-composition-fat-sugar-salt-and-fibre
Wellcome Trust/Parliamentary Office of Science and Technology fellowship in medical humanities	Innovate UK	25 Nov 15	Registrations due by 12 noon, 25 November; full applications due by 12 noon, 2 December 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£34,000,000	This competition supports early-stage feasibility studies that explore or evaluate the commercial potential of an early-stage innovative idea. The total budget is worth up to £34 million. Feasibility studies may receive up to £225,000 each and should last up to one year.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/industrial-biotechnology-catalyst-early-stage-technical-feasibility-studies-round-4
Industrial biotechnology catalyst – early-stage technical feasibility studies – round 4	Innovate UK	25 Nov 15	Registrations due by 12 noon, 25 November; full applications due by 12 noon, 2 December 2015.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	£34,000,000	This competition supports late-stage technical feasibility studies that demonstrate the performance and reliability of a new or modified process to the point where it could be implemented commercially. Technical feasibility studies may receive up to £1 million each and should last up to one year. The total budget is worth up to £34m.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/industrial-biotechnology-catalyst-late-stage-technical-feasibility-studies-round-4
Anniversary essay competition – the way we live now, debates five to eight	Innovate UK	24 Dec 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Registrations due by 12 noon, 24 June; full applications due by 12 noon, 1 July 2015. This call is repeated 2 times a year.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration	-	-	£60,000,000	This supports collaborative research and development projects that deliver significant reductions in vehicle CO2 or other emissions compared to current best-in-class technologies, align with the Automotive Council Technology Group Roadmaps in terms of advanced propulsion solutions, and aim to develop the UK's supply chain in the field in order to develop on-vehicle technologies for either on-road or off-road vehicles. Projects may range in size from £5 million to £40m and should last between 18 and 42 months. The total budget is £60m.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/apc4-driving-uk-capability-and-economic-impact-through-low-carbon-propulsion-technologies
Invention for innovation (i4i) challenge awards	Innovate UK	13 Jan 16	Registrations due by 12 noon, 13 January; proposals due by 12 noon, 20 January 2015.	Prototypes and demonstrations, Technology innovation/development, Research calls for business, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	-	These support experimental development projects that test and validate innovative concepts in a commercial environment to demonstrate their economic and technical feasibility ahead of large-scale deployment. Projects are expected to last for up to one year, and typically be worth up to £1 million each.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/agri-tech-catalyst-early-and-late-stage-awards-round-5
Agri-tech catalyst late-stage awards	Innovate UK	13 Jan 16	Registrations due by 12 noon, 13 January; proposals due by 12 noon, 20 January 2016.	Technology innovation/development, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	-	These support pre-industrial research feasibility studies that explore the commercial potential of an early-stage innovative idea, through review of research evidence and application potential in agri-food production, assessment of business opportunity or scoping for further development. Projects are expected to last for up to 18 months, with typical project costs ranging in size between £150,000 and £500,000.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBhi/content/agri-tech-catalyst-early-and-late-stage-awards-round-5
COMING SOON: HEE/NIHR integrated clinical academic programme – clinical lecturership	Innovate UK	Unknown		Technology innovation/development, Directed grants to institutions, research groups etc, Innovation grants	-	-	-	*** Innovate UK and the Knowledge Transfer Network will shortly be inviting applications for their integrated energy challenge. The competition is currently in its final stage of development and consultation, and is expected to be launched in January 2015, when further information will be released. The following call details are subject to change. This competition supports innovations in systems integration inclusive of heat, combustible gases and electricity. ***	https://www.eventbrite.co.uk/e/integrated-energy-challenge-brokerage-event-tickets-14527134049

Research for health in humanitarian crises	Institute for Small Business and Entrepreneurship	25 Jul 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Proposals due by 5pm GMT. This call is repeated once a year.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Academic-Industry links	£12,000	-	-	These encourage and support new research activities from academics, third sector organisations, consultants and practitioners with the ambition of drawing together and generating an entrepreneurial community of practice to facilitate knowledge exchange and transfer. The theme for this year's call is the assessment of the value of innovation and invention in small firms. Bids of up to £12,000 will be considered.	http://www.isbe.org.uk/RAKE-2014-Call-for-Applications
Preserving Egypt's cultural heritage – mitigating threats for a sustainable future	Leverhulme Trust	10 Sep 15	Applications are invited between 10 April and 4pm, 10 September 2015.	Institutional development, Hosting visits, Travel for research purposes, Equipment and materials, Networking/collaboration	£15,000	-	-	These enable UK universities and museums to foster a new creative collaboration with an artist working in a discipline outside the institution's usual curriculum. Grants are worth up to £15,000 each and typically support a 10-month period, during which the artists are present at the institution for two days per week.	http://www.leverhulme.ac.uk/funding/AIR/AIR.cfm
Developing advanced lightweight vehicles	Leverhulme Trust	08 Oct 15	Applications due by 4pm. This call is repeated 2 times a year.	Institutional development, Hosting visits, Equipment and materials, Grants - undirected, Networking/collaboration	-	-	-	These enable UK institutions to host eminent researchers from overseas, primarily to enhance the skills of academic staff or students at the host institution. Funding covers maintenance, travel expenses and research costs and supports visits that last between three and 12 months. Travel within the UK, laboratory consumables and essential technical assistance may also be covered.	http://www.leverhulme.ac.uk/funding/NP/VP.cfm
Enhancing the end-to-end journey	Leverhulme Trust	12 Nov 15	Applications are invited between 1 September and 4pm, 12 November 2015. This call is repeated once a year.	Senior fellowships, Directed grants for individual investigators, Mid-Career fellowships	£50,000	-	-	These enable experienced researchers to conduct a programme of research in any discipline. Fellowships are worth up to £50,000 each for a period between three and 24 months. Funding covers research expenses, and a contribution towards replacement costs or loss of earnings.	http://www.leverhulme.ac.uk/funding/RF/RF.cfm
Research fellowships	Leverhulme Trust	12 Nov 15	Applications are invited between 1 September and 4pm, 12 November 2015. This call is repeated once a year.	Senior fellowships, Travel for research purposes, Directed grants for individual investigators, Networking/collaboration, Mid-Career fellowships	£40,000	-	-	These enable established researchers to spend a period of time in one or more research centres outside the UK in order to develop new knowledge, skills and ideas. Fellowships are worth up to £40,000 each for a period of between three and 12 months.	http://www.leverhulme.ac.uk/funding/IAF/IAF.cfm
Research fellowships for health professionals	Leverhulme Trust	11 Jan 16	Applications are invited between 1 September 2015 and 4pm, 11 January 2016. This call is repeated once a year.	Student awards, Financial aid for postgraduate students, Travel for research purposes, Directed grants for individual investigators	-	-	-	These support an extended period of advanced study or research at a centre of learning overseas, excluding the US. Studentships comprise £18,000 per year for basic maintenance costs, a dependent partner allowance of £6,000, return airfare and baggage allowance. They support periods between 12 and 24 months.	http://www.leverhulme.ac.uk/funding/SAS/SAS.cfm
Investigator awards in humanities and social sciences	Leverhulme Trust	04 Feb 16	Applications are invited between 1 September 2015 and 4pm, 4 February 2016. This call is repeated once a year.	Senior fellowships, Travel for research purposes, Publish, edit, translate, disseminate, Equipment and materials	£22,000	-	-	These enable retired senior researchers to complete a research project and to prepare the results for publication. Each fellowship is worth up to £22,000 for a period between three and 24 months.	http://www.leverhulme.ac.uk/funding/EM/EM.cfm
Collaborative gearing scheme	Leverhulme Trust	10 Mar 16	Applications are invited between 1 January and 4pm, 10 March 2016. This call is repeated once a year.	Early-Career fellowships, Directed grants for individual investigators	£90,000	-	-	These enable early-career researchers to undertake a significant piece of publishable work and to advance to a more permanent academic position. Each fellowship provides up to £24,000 per year to cover 50 per cent of the fellow's total salary costs and may include research expenses of up to £6,000 per year. Fellowships are tenable for three years full time, but the trust may consider part time requests.	http://www.leverhulme.ac.uk/funding/ECF/ECF.cfm
Four-year PhD programmes	Leverhulme Trust	---	Outline applications are accepted at any time; invited full applications 4pm, 21 March, 1 September, 1 December annually.	Studentship allocations, Travel to conferences, meetings etc., Travel for research purposes, Directed grants to institutions, research groups etc, Equipment and materials, Innovation grants	£500,000	-	-	These support innovative and original research projects where the choice of research theme and design lies entirely with the applicant. Grants may be held for up to five years for a maximum sum of £500,000.	http://www.leverhulme.ac.uk/funding/RPG/RPG.cfm
Fellowships	Leverhulme Trust	Unknown		Travel to conferences, meetings etc., Travel for research purposes, Directed grants to institutions, research groups etc, Networking/collaboration	£1,750,000	£500,000	-	*** The Leverhulme Trust's research programme grants are temporarily closed for applications. These enable research teams to explore research themes specified by the trust. Grants range between £500,000 and £1.75 million for work extending over a maximum period of five years. Information on future rounds will be available in 2016. ***	http://www.leverhulme.ac.uk/funding/RR/RR.cfm
Programme grants	Leverhulme Trust	---	Outline applications may be submitted at any time; invited detailed applications due by 4pm, 21 March, 1 September and 1 December annually.	Institutional development, Hosting conferences, Travel for research purposes, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	These enable a principal investigator to lead a research project where its successful completion depends on the participation of relevant overseas institutions. Network awards are normally worth up to £125,000 each for a maximum period of three years.	http://www.leverhulme.ac.uk/funding/IN/IN.cfm
International scientific interchange scheme	Leverhulme Trust	Unknown		Directed grants to institutions, research groups etc, Networking/collaboration	£1,000,000	£800,000	-	*** The Leverhulme Trust's research leadership awards are temporarily closed for applications. The next scheme is expected to run in 2016. The following information is from the previous call around, and is subject to change. These awards support researchers with established university careers who wish to build a research team to address a distinct research problem. Awards are worth up to £1 million over a maximum period of five years. ***	http://www.leverhulme.ac.uk/funding/RLA/RLA.cfm

Partnership awards	Leverhulme Trust	Unknown		Institutional development, Studentship allocations, Directed grants to institutions, research groups etc	£1,000,000	-	£10,000,000	*** The Leverhulme Trust's doctoral fellowships are temporary closed for applications. The next round of applications is expected to open in spring 2017. The following information is subject to change. These scholarships enable UK universities to award full-time doctoral scholarships in any subject area that has been identified as a research priority. The scheme offers 10 grants of £1 million each. ***	http://leverhulme.ac.uk/funding/LDS.cfm
Skills development fellowships – expertise at the social science interface	London School of Economics and Political Science	30 Jun 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Financial aid for postgraduate students, Studentship allocations, Directed grants for individual investigators	£15,000	-	-	This aids the recruitment and initial development of talented students in demography by contributing to student fees and maintenance costs in order to actively increase the research capacity within demography in the UK. A minimum of eight studentships are available, worth up to £15,000 each.	http://www.lse.ac.uk/socialPolicy/researchcentresandgroups/PIC/Scholarshipscheme.aspx
Healthcare technologies grand challenges – NetworksPlus	Medical Research Council	09 Sep 15	Applications accepted between 29 July and 9 September 2015, 13 November 2015 and 13 January 2016, and 29 July 2016 and 8 September 2016.	Predocctoral fellowships, Predocctoral training fellowships, Postdoctoral training fellowships, Directed grants for individual investigators	-	-	-	These UK fellowships are provided through collaborations with Royal Colleges and charities and enable support for completing a fellowship, reporting a project, presenting work or for professional networking. Any jointly funded fellowships will be offered under standard MRC terms and conditions and at the same funding level as standard clinical research training fellowships.	http://www.mrc.ac.uk/skills-careers/fellowships/clinical-fellowships/jointly-funded-clinical-research-training-fellowship/
Jointly funded clinical research training fellowships	Medical Research Council	09 Sep 15	Applications may be submitted between 29 July and 4pm, 9 September 2015; between 20 November 2015 and 4pm, 6 January 2016; and between 23 March and 4pm, 4 May 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Institutional development, Equipment and materials, Travel for research purposes	£1,000,000	-	-	These are suitable for focused research projects that may be short- or long-term in nature. In addition, they can be used to support method development and continuation of research facilities and may involve more than one research group or institution. Grants do not typically exceed £1 million. Funding is usually given on the basis of 80 per cent of full economic costs of the research to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/research-grant/
Research grants – molecular and cellular medicine	Medical Research Council	09 Sep 15	Proposals may be submitted between 29 July and 4pm, 9 September 2015; between 20 November 2015 and 4pm, 6 January 2016; and between 23 March and 4pm, 4 May 2016.	Travel for research purposes, Directed grants for individual investigators, Publish, edit, translate, disseminate, Equipment and materials	-	-	-	These provide support for clinical and non-clinical researchers while they are establishing themselves as independent principal investigators. Grants are tenable for three or more years, and MRC usually funds on the basis of 80 per cent of full economic cost to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/new-investigator-research-grant/
Follow-on funding	Medical Research Council	09 Sep 15	New applicants must contact the programme manager at least six weeks before the deadline. Proposals may be submitted between 29 July and 4pm, 9 September 2015; between 20 November 2015 and 4pm, 6 January 2016; and between 23 March and 4pm, 4 May 2016.	Travel for research purposes, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Equipment and materials	-	-	-	These provide large and long-term renewable funding. Funding is given on the basis of 80 per cent of full economic costs of research, for a maximum period of five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/programme-grant/
Programme grants – molecular and cellular medicine	Medical Research Council	09 Sep 15	Proposals may be submitted between 25 March and 4pm, 6 May 2015; between 29 July and 4pm, 9 September 2015; between 20 November 2015 and 4pm, 6 January 2016; and between 23 March and 4pm, 4 May 2016.	Access to laboratories, telescopes etc., Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	These enable researchers to occupy laboratory space in the Harwell research complex and utilise its facilities. Grants are awarded for any period of up to five years, and are funded on 80 per cent of full economic cost to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notice/work-in-harwell/
Opportunities to work in the new research complex at Harwell – research grants	Medical Research Council	09 Sep 15	Applications accepted between 15 November 2014 and 14 January 2015, 29 July and 9 September 2015, 13 November 2015 and 13 January 2016 and 29 July 2016 and 8 September 2016. Deadlines on: 14 January 2015, 9 September 2015, 13 January 2016, 8 September 2016.	Predocctoral fellowships, Predocctoral training fellowships, Postdoctoral training fellowships, Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators, Equipment and materials	-	-	-	These provide support for clinically qualified, active professionals to undertake specialised or further research training in the biomedical sciences within the UK. At the pre-doctoral level, the fellowship provides salary up to but not including NHS consultant level, and a research training support grant of up to £20,000 per year. At the postdoctoral level, the fellowship covers salary up to but not including NHS consultant level, research expenses and travel costs under full economic costs.	http://www.mrc.ac.uk/skills-careers/fellowships/clinical-fellowships/clinical-research-training-fellowship-crtf/

Clinical research training fellowship	Medical Research Council	09 Sep 15	Applicants must contact the programme manager at least six weeks before the deadline. Applications may be submitted between 29 July and 4pm, 9 September 2015; between 20 November 2015 and 4pm, 6 January 2016; and between 23 March and 4pm, 4 May 2016.	Institutional development, Studentship allocations, Research centres, Directed grants to institutions, research groups etc, Equipment and materials, Networking/collaboration	-	-	-	This provides core funds to support partnerships between diverse groupings of researchers, and can be used for infrastructure support, platform activities and for bringing together managed consortia or multidisciplinary collaborations. Grants are funded on the basis of 80 per cent of full economic cost of research to the institution. Support can be requested for between one and five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/partnership-grant/
Artists in residence grants	Medical Research Council	10 Sep 15	Proposals due by 4pm BST. This call is repeated once a year.	Clinical trials, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	£20,000,000	This funds global health trials to generate new knowledge about interventions that will contribute to the improvement of health in low- and middle-income countries. A total of £20 million is available. This amount is expected to fund several awards. Around £1.5m is expected to fund trial development grants.	http://www.mrc.ac.uk/funding/browse/joint-global-health-trials-scheme-launch-of-sixth-call-for-proposals/
COMING SOON: Biotechnology young entrepreneurs scheme	Medical Research Council	15 Sep 15	Applications due by 4pm.	Directed grants to institutions, research groups etc, Networking/collaboration	-	-	£2,000,000	This aims to generate new knowledge on interventions and their implementation for the prevention and management of chronic lung diseases in low- and middle-income countries. The total available budget of £2 million is expected to fund several projects.	http://www.mrc.ac.uk/funding/browse/global-alliance-for-chronic-diseases-gacd-prevention-and-management-of-chronic-lung-diseases/
Responsive mode research grants	Medical Research Council	23 Sep 15	Proposals may be submitted between 29 July and 4pm, 23 September 2015; between 20 November 2015 and 4pm, 13 January 2016; and between 23 March and 4pm, 18 May 2016.	Institutional development, Travel for research purposes, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Equipment and materials	£1,000,000	-	-	These are suitable for focused research projects that may be short- or long-term in nature. In addition, they can be used to support method development and continuation of research facilities and may involve more than one research group or institution. Grants do not typically exceed £1 million. Funding is usually given on the basis of 80 per cent of full economic costs of the research to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/research-grant/
Research grants – infections and immunity	Medical Research Council	23 Sep 15	Proposals may be submitted between 29 July and 4pm, 23 September 2015; between 20 November 2015 and 4pm, 13 January 2016; and between 23 March and 4pm, 18 May 2016.	Travel for research purposes, Directed grants for individual investigators, Publish, edit, translate, disseminate, Equipment and materials	-	-	-	These provide support for clinical and non-clinical researchers while they are establishing themselves as independent principal investigators. Grants are tenable for three or more years, and MRC usually funds on the basis of 80 per cent of full economic cost to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/new-investigator-research-grant/
Industrial partnership awards	Medical Research Council	23 Sep 15	Applicants must contact the programme manager at least six weeks before the deadline. Proposals may be submitted between 29 July and 4pm, 23 September 2015; between 20 November 2015 and 4pm, 13 January 2016; and between 23 March and 4pm, 18 May 2016.	Institutional development, Studentship allocations, Research centres, Directed grants to institutions, research groups etc, Equipment and materials, Networking/collaboration	-	-	-	This provides core funds to support partnerships between diverse groupings of researchers, and can be used for infrastructure support, platform activities and for bringing together managed consortia or multidisciplinary collaborations. Grants are funded on the basis of 80 per cent of full economic cost of research to the institution. Support can be requested for between one and five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/partnership-grant/
Partnership grant – infections and immunity	Medical Research Council	23 Sep 15	New applicants must contact the programme manager at least six weeks before the deadline. Proposals may be submitted between 29 July and 4pm, 23 September 2015; between 20 November 2015 and 4pm, 13 January 2016; and between 23 March and 4pm, 18 May 2016.	Travel for research purposes, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Equipment and materials	-	-	-	These provide large and long-term renewable funding. Funding is given on the basis of 80 per cent of full economic costs of research, for a maximum period of five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/programme-grant/

Industry fellowships	Medical Research Council	24 Sep 15	Applications in 2015 will be accepted between 17 March and 4pm, 28 April, and between 13 August and 4pm, 24 September 2015; applications in 2016 will be accepted between 16 March and 4pm, 27 April, and between 12 August and 4pm, 22 September 2016.	Senior fellowships, Travel for research purposes, Directed grants for individual investigators, Equipment and materials, Networking/collaboration	-	-	-	This provides non-clinical researchers with a track record of excellence in their scientific field the opportunity to develop themselves into research leaders. The fellowship comprises salary costs, support for research staff, consumables expenses, capital equipment for the research project and travel costs under full economic costs. The fellowship may be awarded for up to seven years.	http://www.mrc.ac.uk/skills-careers/fellowships/non-clinical-fellowships/senior-non-clinical-fellowship-sncf/
Senior non-clinical fellowship	Medical Research Council	24 Sep 15	Applications accepted between 17 March and 4pm, 28 April and between 13 August and 4pm, 24 September 2015; applications in 2016 will be accepted between 16 March and 4pm, 27 April and between 12 August and 4pm, 22 September 2016. Deadlines on: 24 September 2015, 27 April 2016, 22 September 2016.	Early-Career fellowships, Travel for research purposes, Directed grants for individual investigators, Equipment and materials, Networking/collaboration	-	-	-	This supports postdoctoral researchers who are not clinically active to consolidate their research skills and make the transition from postdoctoral researcher to independent investigator. The maximum duration of an award is five years.	http://www.mrc.ac.uk/skills-careers/fellowships/non-clinical-fellowships/career-development-award-cda/
Career development award	Medical Research Council	24 Sep 15	Applications are invited between 13 August and 24 September 2015, between 16 March and 27 April 2016 and between 12 August and 22 September 2016. Deadlines on: 24 September 2015, 27 April 2016, 22 September 2016.	Access to laboratories, telescopes etc., Travel for research purposes, Directed grants for individual investigators	-	-	-	Applications are sought from researchers wishing to occupy laboratory space in research complex at Harwell and utilise its facilities. These awards are suitable for those wishing to establish their independent research career at the complex. The MRC will provide 80 per cent of full economic cost to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notice/work-in-harwell/
International opportunities fund – pump priming and pump priming plus awards	Medical Research Council	24 Sep 15	Applications are invited between 13 August and 24 September 2015, between 16 March and 27 April 2016 and between 12 August and 22 September 2016. Deadlines on: 24 September 2015, 27 April 2016, 22 September 2016.	Senior fellowships, Access to laboratories, telescopes etc., Travel for research purposes	-	-	-	Applications are sought from researchers wishing to occupy laboratory space in research complex at Harwell and utilise its facilities. These fellowships are suitable for exceptional researchers who wish to work in the new research complex at Harwell. The MRC will usually fund on the basis of 80 per cent of full economic costs.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notice/work-in-harwell/
Future research leaders	Medical Research Council	30 Sep 15	Applications may be submitted between 29 July and 4pm, 30 September 2015; between 20 November 2015 and 4pm, 20 January 2016; and between 23 March and 4pm, 25 May 2016. Deadlines on: 27 May 2015, 30 September 2015, 20 January 2016, 25 May 2016.	Institutional development, Travel for research purposes, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Equipment and materials	£1,000,000	-	-	These are suitable for focused research projects that may be short- or long-term in nature. In addition, they can be used to support method development and continuation of research facilities and may involve more than one research group or institution. Grants do not typically exceed £1 million. Funding is usually given on the basis of 80 per cent of full economic costs of the research to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/research-grant/
Research grants - population and systems medicine	Medical Research Council	30 Sep 15	Applications may be submitted between 29 July and 4pm, 30 September 2015; between 20 November 2015 and 4pm, 20 January 2016; and between 23 March and 4pm, 25 May 2016. Deadlines on: 27 May 2015, 30 September 2015, 20 January 2016, 25 May 2016.	Travel for research purposes, Directed grants for individual investigators, Publish, edit, translate, disseminate, Equipment and materials	-	-	-	These provide support for clinical and non-clinical researchers while they are establishing themselves as independent principal investigators. Grants are tenable for three or more years, and MRC usually funds on the basis of 80 per cent of full economic cost to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/new-investigator-research-grant/

New investigator research grants – population and systems medicine	Medical Research Council	30 Sep 15	Applicants must contact the programme manager at least six weeks before the deadline. Applications may be submitted between 29 July and 4pm, 30 September 2015; between 20 November 2015 and 4pm, 20 January 2016; and between 23 March and 4pm, 25 May 2016. Deadlines on: 27 May 2015, 30 September 2015, 20 January 2016, 25 May 2016.	Institutional development, Studentship allocations, Research centres, Directed grants to institutions, research groups etc, Equipment and materials, Networking/collaboration	-	-	-	-	This provides core funds to support partnerships between diverse groupings of researchers, and can be used for infrastructure support, platform activities and for bringing together managed consortia or multidisciplinary collaborations. Grants are funded on the basis of 80 per cent of full economic cost of research to the institution. Support can be requested for between one and five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/partnership-grant/
Partnership grant – population and systems medicine	Medical Research Council	30 Sep 15	New applicants must contact the programme manager at least six weeks before the deadline. Applications may be submitted between 29 July and 4pm, 30 September 2015; between 20 November 2015 and 4pm, 20 January 2016; and between 23 March and 4pm, 25 May 2016. Deadlines on: 27 May 2015, 30 September 2015, 20 January 2016, 25 May 2016.	Travel for research purposes, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Equipment and materials	-	-	-	-	These provide large and long-term renewable funding. Funding is given on the basis of 80 per cent of full economic costs of research, for a maximum period of five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/programme-grant/
Research project grant (parent R01)	Medical Research Council	05 Oct 15	Applications due by 4pm.	Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration	-	-	-	£4,000,000	This call supports innovative research projects that underpin new approaches to therapeutic intervention. Projects may include studies to illuminate the understanding of neurodegenerative mechanisms, or create technological advances to support novel diagnostic or therapeutic approaches. The total funding available is £4 million. For UK-based activity, this will be provided by the MRC through the Neurosciences and Mental Health Board which has £1m available to support successful UK groups.	http://www.mrc.ac.uk/funding/browse/network-of-centres-of-excellence-in-neurodegeneration-coen-call-for-pathfinder-research-projects/
Network of centres of excellence in neurodegeneration (COEN) – call for pathfinder research projects	Medical Research Council	06 Oct 15	Proposals may be submitted between 29 July and 4pm, 6 October 2015; between 20 November 2015 and 4pm, 3 February 2016; and between 23 March and 4pm, 1 June 2016.	Institutional development, Travel for research purposes, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Equipment and materials, Networking/collaboration	£1,000,000	-	-	-	These are suitable for focused research projects that may be short- or long-term in nature. In addition, they can be used to support method development and continuation of research facilities and may involve more than one research group or institution. Grants do not typically exceed £1 million. Funding is usually given on the basis of 80 per cent of full economic costs of the research to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/research-grant/
Research grants – neurosciences and mental health	Medical Research Council	06 Oct 15	Proposals may be submitted between 29 July and 4pm, 6 October 2015; between 20 November 2015 and 4pm, 3 February 2016; and between 23 March and 4pm, 1 June 2016.	Travel for research purposes, Directed grants for individual investigators, Publish, edit, translate, disseminate, Equipment and materials	-	-	-	-	These provide support for clinical and non-clinical researchers while they are establishing themselves as independent principal investigators. Grants are tenable for three or more years, and MRC usually funds on the basis of 80 per cent of full economic cost to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/new-investigator-research-grant/
Programme grants for applied research	Medical Research Council	06 Oct 15	Applicants must contact the programme manager at least six weeks before the deadline. Proposals may be submitted between 29 July and 4pm, 6 October 2015; between 20 November 2015 and 4pm, 3 February 2016; and between 23 March and 4pm, 1 June 2016.	Studentship allocations, Research centres, Equipment and materials, Networking/collaboration, Directed grants to institutions, research groups etc, Institutional development	-	-	-	-	This provides core funds to support partnerships between diverse groupings of researchers, and can be used for infrastructure support, platform activities and for bringing together managed consortia or multidisciplinary collaborations. Grants are funded on the basis of 80 per cent of full economic cost of research to the institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/partnership-grant/

Partnership grant – neurosciences and mental health	Medical Research Council	06 Oct 15	New applicants must contact the programme manager at least six weeks before the deadline. Proposals may be submitted between 29 July and 4pm, 6 October 2015; between 20 November 2015 and 4pm, 3 February 2016; and between 23 March and 4pm, 1 June 2016. Deadlines on: 3 June 2015, 6 October 2015, 3 February 2016, 1 June 2016.	Travel for research purposes, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Equipment and materials	-	-	-	These provide large and long-term renewable funding. Funding is given on the basis of 80 per cent of full economic costs of research, for a maximum period of five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/programme-grant/
Research resources in medical humanities	Medical Research Council	15 Oct 15	Applications due by 4pm. This call is repeated once a year.	Technology innovation/development, Directed grants to institutions, research groups etc, Academic-Industry links, Networking/collaboration	£1,200,000	£250,000	-	This enables institutions to support the earliest stages of multiple translational research projects. Institutional awards are worth between £250,000 and £1.2 million over a maximum period of 24 months. Individual projects funded from an institution's award are expected to be of the order of £50,000 to £100,000 and approximately six to 12 months in length.	http://www.mrc.ac.uk/funding/browse/confidence-in-concept-scheme/
Flexible interchange programme	Medical Research Council	15 Oct 15	Applications due by 4pm.	Hosting visits, Directed grants to institutions, research groups etc, Academic-Industry links, Networking/collaboration	£250,000	-	£15,000,000	This enables a small number of research organisations to use creative approaches to building relationships with industry partners. The total available budget is £15 million, with individual applications not expected to be in excess of £250,000. Funding should be spent within 18 months.	http://www.mrc.ac.uk/funding/browse/proximity-to-discovery-industry-engagement-fund/
Advancing the commercial applications of graphene	Medical Research Council	30 Oct 15	Applicants must contact the centre before submitting an application. This call is repeated once a year.	Access to laboratories, telescopes etc.	-	-	-	*** The Medical Research Council's biomedical nuclear magnetic resonance centre will shortly be inviting applications for access to its facilities. The closing date is 30 October 2015 and further call details will be announced in September. The following information is subject to change. This call enables scientists to access the centre's facilities for liquid-state NMR studies of biological macromolecules. ***	http://www.nmrcentre.mrc.ac.uk/howtoapply.htm
Wellcome Trust/National Institutes of Health four-year PhD studentships	Medical Research Council	03 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications due by 5pm. This call is repeated once a year.	Personal development, Financial aid for postgraduate students, Networking/collaboration	-	-	-	This gives MRC-funded PhD students the opportunity to undertake a three-month policy internship at the Academy of Medical Science offices in central London. Students will be supported by a three-month extension to their MRC PhD stipend while they are based at the academy.	http://www.mrc.ac.uk/skills-careers/studentships/for-current-mrc-students/policy-internship-scheme/
COMING SOON: Optimising food composition – fat, sugar, salt and fibre	Medical Research Council	19 Nov 15	Applications are invited between 6 May and 4pm, 17 June 2015. Deadlines on: 19 November 2014, 17 June 2015, 19 November 2015, 21 June 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	This supports research on methods development to underpin the biomedical and health sciences as well as methods in research for developing methods and their implementation in research standards. Grants may be awarded for up to five years, but those of two years or less are for proof-of-principle or pilot work only.	http://www.mrc.ac.uk/funding/browse/methodology-research-programme/
Methodology research programme – investigator-led research	Medical Research Council	19 Nov 15	Proposals due by 4pm. Deadlines on: 17 June 2015, 19 November 2015, 21 June 2016.	Technology innovation/development, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	-	This supports the development of novel and innovative tools for the measurement of participant characteristics in population studies.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/improved-measurement-population-science/
Improved measurement methods for population science research	Medical Research Council	19 Nov 15	Proposals due by 4pm. Deadlines on: 17 June 2015, 19 November 2015, 21 June 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	This supports research aimed at further understanding the robustness of propensity scores and the results of the analysis adjusting for them. MRC is likely to fund one or two proposals in this area.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/missing-data-propensity-scores/
Missing data and the use of propensity scores	Medical Research Council	19 Nov 15	Proposals due by 4pm. Deadlines on: 17 June 2015, 19 November 2015, 21 June 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	This supports methods development research aimed at better understanding the effect of bias in randomised controlled trials, particularly in multiple testing and subgroup analysis. MRC is likely to fund one or two proposals in this area.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/multiple-testing-subgroup-analyses/
Multiple testing and subgroup analyses – deriving minimally biased estimates	Medical Research Council	19 Nov 15	Proposals due by 4pm. Deadlines on: 17 June 2015, 19 November 2015, 21 June 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	This supports high quality methods development research aimed at assessing quality of life of carers of people with cognitive impairment in the domestic environment. Projects may last for a maximum of three years.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/methods-research-quality-life-carers/
Methods research for assessing quality of life in carers	Medical Research Council	19 Nov 15	Proposals due by 4pm. Deadlines on: 17 June 2015, 19 November 2015, 21 June 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	This supports the development of innovative methods for identifying, synthesising, interpreting and presenting observational data for use in guidance development and clinical decision making.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/methods-research-observational-data/

Methods research to support the use of observational data in clinical decision making	Medical Research Council	19 Nov 15	Proposals due by 4pm. Deadlines on: 28 May 2015, 19 November 2015.	Travel for research purposes, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Equipment and materials, Innovation grants	£150,000	-	-	-	This supports the early stages of development of public health interventions. Studies should address an important UK or global public health issue and offer an innovative approach to intervention development or applying an existing intervention in a new setting. Awards are worth up to £150,000 for a maximum of 18 months.	http://www.mrc.ac.uk/funding/browse/public-health-intervention-development-scheme-phind/
Public health intervention development scheme	Medical Research Council	19 Nov 15	Proposals due by 4pm. Deadlines on: 17 June 2015, 19 November 2015, 21 June 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	-	This supports high quality, investigator-led, methodological research into the challenges raised by stratifying patient groups.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notice/methodology-for-stratified-medicine/
Methodology for stratified medicine	Medical Research Council	19 Nov 15	Applications due by 4pm. Deadlines on: 19 November 2015, 21 June 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	-	This supports research into the possibility of creating a measure of quality of life or wellbeing, which would have utility across health and social care.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notice/improving-cross-sector-comparisons-beyond-qaly/
Improving cross-sector comparisons – beyond QALY	Medical Research Council	19 Nov 15	Applications due between 8 October and 4pm, 19 November 2015; and between 10 May and 4pm, 21 June 2016. Deadlines on: 17 June 2015, 19 November 2015, 21 June 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	-	Proposals are particularly sought on the comparison of available expert elicitation protocols and software, the investigation of whether the mode of expert opinion elicitation affects results, methodology to identify and understand the range of opinions that are being obtained from an elicitation exercise and methods for synthesis of elicited expert opinion with other strands of evidence.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notice/methodology-for-eliciting-expert-opinion/
Arts awards – small to medium-sized projects	Medical Research Council	30 Nov 15		Thesis/Dissertation funding, Studentship allocations, Academic-Industry links, Networking/collaboration	-	-	-	-	This seeks to build expertise in toxicology and related disciplines that is required to ensure the safe and effective development of drugs, chemicals and consumer products, and to provide better assessment of risk deriving from environmental exposure. These four-year studentships will start in October 2016.	http://www.mrc.ac.uk/skills-careers/studentships/how-we-fund-studentships/integrative-toxicology-training-partnership-ittp-phd-studentship-scheme/
COMING SOON: Research for patient benefit programme – including multimorbidities in older people themed call	Medical Research Council	02 Dec 15	Outline proposals due by 4pm on deadline dates. Full proposals by invitation only. Deadlines on: 25 March 2015, 28 July 2015, 2 December 2015, 29 March 2016, 27 July 2016.	Technology innovation/development, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	-	-	This supports projects aiming to improve prevention, diagnosis, prognosis or treatment of significant health needs, or projects that focus on research tools which increase the efficiency of developing interventions.	http://www.mrc.ac.uk/funding/browse/developmental-pathway-funding-scheme/
Astronomy research grants	Medical Research Council	15 Feb 16 (Forecast)	II Call has not yet been announced by funder, but this is the approximate deadline we expect. EOIs for the workshop are due by 4pm, 6 September 2015. The call is expected to launch in early December 2015 with a deadline for applications in mid-February 2016.	Travel to conferences, meetings etc., Networking/collaboration	-	-	-	-	*** The Medical Research Council, the Economic and Social Research Council, the Biotechnology and Biological Sciences Research Council and the National Natural Science Foundation of China will soon be inviting proposals for their UK-China antimicrobial resistance initiative. The closing date will be in mid-February 2016 and further call details will be announced in early December 2015. The objective of this Newton Fund call will be to deliver significant two- to three-year research funding for internationally competitive and innovative collaborative projects between researchers from China and the UK on the topic of antibacterial resistance. A joint workshop in order to scope and refine the call topic will take place on 24 to 26 November 2015 in Shanghai, China. ***	http://www.mrc.ac.uk/funding/browse/uk-china-antimicrobial-resistance-initiative/
Doctoral studentships in medical humanities	Medical Research Council	06 Apr 16	Applications are accepted between 24 February and 6 April 2016.	Senior fellowships, Travel for research purposes, Directed grants for individual investigators, Equipment and materials, Academic-Industry links, Networking/collaboration	-	-	-	-	These support medically and other clinically qualified professionals, with an effective track record of internationally competitive independent research, to make the transition to research leadership. Fellowships are tenable for five years and cover salary costs, support for research staff, consumable expenses, travel costs and capital equipment appropriate for the research project. There is no limit for funding.	http://www.mndassociation.org/research/for-researchers/research-grants/
Senior clinical fellowships	Medical Research Council	06 Apr 16	Applications are accepted between 24 February and 6 April 2016.	Early-Career fellowships, Postdoctoral training fellowships, Travel for research purposes, Directed grants for individual investigators, Equipment and materials, Academic-Industry links, Networking/collaboration	-	-	-	-	These support medically and other clinically qualified professionals who have gained a higher research degree to lead their own research plans and establish their own research team to make the transition to independent investigator. Fellowships are tenable for four years and cover salary costs, support for research staff, consumable expenses, travel costs and capital equipment appropriate for the research project. There is no limit for funding.	http://www.mndassociation.org/research/for-researchers/research-grants/
Mary Seacole awards	Medical Research Council	16 Jun 16	Applications are invited between 5 May and 16 June 2016. This call is repeated once a year.	Early-Career fellowships, Postdoctoral training fellowships, Travel for research purposes, Directed grants for individual investigators, Equipment and materials	-	-	-	-	These support training for very early career researchers in, or individuals changing disciplines to, areas covering mathematics, statistics, computation and informatics applicable to any biomedical or health-related data sources. Fellowships are available for three years and they cover salary and costs for consumables, travel and capital equipment.	http://www.mrc.ac.uk/skills-careers/fellowships/skills-development-fellowships/

Skills development fellowships – quantitative expertise	Medical Research Council	16 Jun 16	Applications are invited between 5 May and 16 June 2016. This call is repeated once a year.	Early-Career fellowships, Postdoctoral training fellowships, Travel for research purposes, Directed grants for individual investigators, Equipment and materials	-	-	-	These support training for very early career researchers in, or individuals changing disciplines to, the areas of health economics and mixed methods research. Fellowships are available for three years and they cover salary as well as costs for consumables, travel and capital equipment appropriate for the research project.	http://www.mrc.ac.uk/skills-careers/fellowships/skills-development-fellowships/
Industrial CASE studentships	Medical Research Council	08 Jul 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Proposals due by 4pm. This call is repeated once a year.	Postdoctoral training fellowships, Studentship allocations, Academic-Industry links, Networking/collaboration	-	-	-	These aim to provide doctoral students with research training experience by facilitating collaborations with academic and partner organisations in the private, public and civil society sectors. Between 30 and 35 studentships, each lasting three to four years, may be funded.	http://www.mrc.ac.uk/skills-careers/studentships/how-we-fund-studentships/industrial-case-studentships/
First grant scheme	Medical Research Council	---	Proposals should be submitted through the appropriate MRC research board based on the scientific or clinical area.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	Proposals should address the mechanisms underlying chronic changes related to CFS/ME in immune dysregulation, pain, neuropathology, mechanisms of CFS/ME in children and improved sub-phenotyping and stratification of CFS/ME.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/cfsm-highlight-notice/
Small grants	Medical Research Council	---	Applications should be submitted by the Molecular and Cellular Medicine Board or the Populations and Systems Medicine Board deadlines, or through the experimental medicine challenge grants scheme.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	This supports research that enhances the knowledge base relating to the environmental impact on chronic disease, and that capitalises on advanced research approaches in environmental epidemiology, molecular genetics and novel measurement technologies.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/environmental-exposure-chronic-disease/
Professional internships for PhD students	Medical Research Council	---		Directed grants for individual investigators, Academic-Industry links, Networking/collaboration	-	-	-	These aim to stimulate collaborative, mutually beneficial research and partnership between industry and academia and to enhance MRC fellows' development as research leaders.	http://www.mrc.ac.uk/funding/guidance/how-to-apply-detailed-instructions/how-to-apply-partnership-awards/
Prevention and management of chronic lung diseases	Medical Research Council	---	Proposals should be submitted through the appropriate MRC research board based on the scientific or clinical area.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	Proposals may cover the spectrum of research from studies that explore important cellular and molecular mechanisms, through to more translational medical research that would underpin the development of new health interventions.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/radiation-oncology-biology/
Radiation oncology and biology	Medical Research Council	---	Proposals should be submitted through the appropriate MRC research board based on the scientific or clinical area.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	Proposals are sought on the following broad topics: early trauma; wound care and microbiological responses; repair and reconstruction.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/research-into-acute-trauma/
Health services and delivery research – commissioned calls: 15/56	Ministry of Defence	10 Sep 15	Proposals due by 5pm.	Technology innovation/development, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Innovation grants	-	-	£650,000	This supports research projects that aim to develop novel techniques which remotely provide information about the layout and situation inside a building, or underground facility from a range of at least 100 metres. The budget for phase one of this competition is worth £650,000. There is no cap on proposals, however MOD is more likely to fund phase one projects worth between £50,000 and £100,000.	https://www.gov.uk/government/publications/cde-themed-competiton-whats-inside-that-building
BBSRC enterprise fellowships	National Centre for the Replacement, Refinement and Reduction of Animals in Research	04 Nov 15	Proposals may be submitted between 14 September and 12 noon GMT, 11 November 2015. Required registration closes at 12 noon GMT, 4 November 2015. This call is repeated once a year.	Technology innovation/development, Research calls for business, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	-	-	-	This competition aims to fund collaborations between industry, academics and SMEs, minimise the use of animals in research, and support the development of marketable products or improved business processes. For both challenges, three awards of up to £100,000 are available in phase one, for projects lasting six months. Funding for phase two which may run over a period of up to three years is worth up to £0.8 million.	https://interact.innovateuk.org/competition-display-page/-/asset_publisher/RqEt2AKmEBh/content/crack-it-2015
Thank-Offering to Britain fellowship	National Science Foundation	18 Nov 15	Proposals due by 5pm proposer's local time, third Wednesday in November, annually.	Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	The programme supports research on the ecological, evolutionary, and socio-ecological principles and processes that influence the transmission dynamics of infectious diseases. The budget for this call is US\$11 million and up to eight grants, each worth up to US\$2.5m over five years, may be funded. The BBSRC will contribute up to £2m.	http://www.nsf.gov/funding/pgm_summ.jsp?pins_id=5269&org=NSF&sel_org=NSF&from=fund
Challenge-led applied systems programme – security	Natural Environment Research Council	01 Sep 15	Applications due by 4pm UK local time.	Directed grants to institutions, research groups etc, Networking/collaboration	£2,000,000	-	£8,000,000	These aim to support improved disaster resilience and humanitarian response by advancing monitoring, assessment and prediction of natural hazards and risks across Sub-Saharan Africa and South Asia in order to reduce the impacts of disasters. Grants are worth up to £2 million per consortium for a duration of four years. The total budget is £8m.	http://www.nerc.ac.uk/research/funded/programmes/shear/news/ao-outline/

Energy catalyst – late-stage awards – pre-commercial technology validation	Natural Environment Research Council	02 Sep 15	Proposals due by 4pm BST.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	This aims to improve the understanding of the role of biodiversity in the functioning of ecosystems, the drivers and impact of change, and management and restorations options in Brazil. NERC will provide up to £2 million at 80 per cent full economic cost for UK-based researchers with FAPESP providing matched equivalent effort to Brazilian researchers	http://www.nerc.ac.uk/research/funded/programmes/brazilianbiome/news/ao-brazil/
Health services and delivery programme – commissioned call 15/77	Natural Environment Research Council	03 Sep 15	Applications are invited between 6 July and 4pm, 3 September 2015.	Personal development, Directed grants for individual investigators	-	-	£170,000	These aim to promote collaborations between academics, policy or civil society partners and generate evidence and case studies of how businesses and other organisations have used, or could use NERC funded research. The total budget for this call is £170,000. NERC will cover direct salary costs, travel and subsistence costs.	http://www.nerc.ac.uk/funding/available/schemes/internships/ao-internships/
EXTENDED DEADLINE: ARCHER leadership projects	Natural Environment Research Council	07 Sep 15	Notifications of intent due by 4pm BST, 7 September; full proposals due by 8 October 2015.	Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration	-	-	£3,000,000	This aims to develop a robust and reliable information system and decision support tools for users that will enable informed decision-making and support the sustainable development of India's water resources and hence long-term economic growth and social welfare. Up to £3 million is available for this call at 80 per cent full economic costing. Grants will be funded for up to three years and must start no later than 1 April 2016.	http://www.nerc.ac.uk/research/funded/programmes/water-resources/news/ao/
Space for smarter government	Natural Environment Research Council	09 Sep 15	Applications due by 4pm.	Travel to conferences, meetings etc., Networking/collaboration	-	-	-	This aims to bring together US and UK researchers to discuss the key science challenges related to potential environmental impacts associated with shale oil gas exploration and extraction, and associated industry and policy or regulatory challenges related to this, in Washington DC between 5 November and 6 November 2015. NERC will cover all reasonable travel and accommodation expenses for UK participants attending the workshop in line with NERC policy on recovering travel and subsistence.	http://www.nerc.ac.uk/funding/application/currentopportunities/us-ukworkshop/
Collaborative awards in science	Natural Environment Research Council	21 Sep 15	Notifications of intent due by 4pm, 21 September; full proposals due by 4pm, 8 October 2015.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	£4,000,000	-	£16,000,000	This supports strategic research on defined topics that help understand and predict how the planet works and manage the environment responsibly. A maximum of £4 million is available per highlight topic. The total programme budget is worth £16m. Projects must start no later than 1 May 2016.	http://www.nerc.ac.uk/research/funded/programmes/highlight-topics/news/ao-round2/
Wellcome Trust centres	Natural Environment Research Council	22 Sep 15	Applications due by 4pm BST.	Directed grants to institutions, research groups etc, Networking/collaboration	-	-	£3,960,000	This provides an opportunity for natural and social scientists, and arts and humanities researchers to form interdisciplinary research collaborations, with relevant reference to health sciences, and to increase understanding of the role and value of biodiversity and ecosystem processes in relation to human health and well being. A total budget of up to £3.96 million will be available from NERC, AHRC and ESRC to support three to six projects with a maximum duration of three years.	http://www.nerc.ac.uk/research/funded/programmes/valuingnature/news/ao-wellbeing/
Opportunities to work in the new research complex at Harwell - career development awards	Natural Environment Research Council	24 Sep 15	Applications due by 4pm BST.	Travel for research purposes, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	£320,000	-	£800,000	This scheme provides resources to Natural Environment Research Council supported researchers to forge long-term partnerships with overseas scientists that add value to current NERC-funded science. Grants are worth up to £320,000 at 80 per cent full economic cost over a maximum of three years.	http://www.nerc.ac.uk/research/partnerships/international/iot/news/ao-sept2015/
Digital forensics	Natural Environment Research Council	01 Oct 15	Applications due by 4pm. This call is repeated once a year.	Early-Career fellowships, Directed grants for individual investigators	-	-	-	These aim to develop scientific leadership among early-career environmental scientists, by giving them five years' support for developing their research programmes and to establish international recognition. There are no funding limits, but the fellowship applicant must be the only named researcher on the proposal and no equipment costing more than £10,000, including VAT, may be requested.	http://www.nerc.ac.uk/funding/available/fellowships/irf/
Programme grants – neurosciences and mental health	Natural Environment Research Council	06 Oct 15	Research grant outlines due by 4pm, 6 October; full proposals due by 3 December 2015.	Directed grants to institutions, research groups etc, Networking/collaboration	£1,500,000	-	-	These support projects that contribute to the understanding of the role of the outdoor environment and host microbiome in influencing the evolution, acquisition and spread of antibacterial resistance, and acting as a reservoir for resistance. Each research grant may provide up to £1.5million at 100 per cent full economic costing and may be held over a period of up to four years.	http://www.nerc.ac.uk/research/funded/programmes/amr/news/ao-outline/
Integrated delivery programme 12: seeding tomorrow's vehicle technologies today – CR&D projects	Natural Environment Research Council	22 Oct 15	Applications are invited between 14 July and 5pm, 22 October 2015.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Academic-Industry links, Networking/collaboration	£100,000	-	-	These support translational and knowledge exchange activity which delivers direct demonstrable benefits to end users, particularly businesses. Each project may receive up to £125,000 at 80 per cent full economic cost over a maximum period of two years.	http://www.nerc.ac.uk/funding/available/schemes/innovation-projects/
Innovation projects	Natural Environment Research Council	22 Oct 15	Proposals are invited between 14 July and 22 October 2015. This call is repeated once a year.	Prototypes and demonstrations, Technology innovation/development, Directed grants for individual investigators, Directed grants to institutions, research groups etc	£100,000	-	-	This supports the commercialisation of ideas arising from research funded by council and enables those research outputs to be further developed so their commercial potential can be realised. Each proposal may receive up to £100,000 at 80 per cent full economic cost.	http://www.nerc.ac.uk/funding/available/schemes/followon/
Interdisciplinary innovation awards	Natural Environment Research Council	22 Oct 15	Applications are invited between 21 August 2015 and 4pm, 22 October 2015.	Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Innovation grants, Academic-Industry links, Networking/collaboration	£100,000	-	-	This aims to increase and accelerate the impact of research output by supporting translational and knowledge exchange activity which delivers direct tangible and demonstrable benefits to end users, particularly local policymakers and businesses such as planners, landscape architects and other consultancies to support the development of green infrastructures. Up to £125,000, or £100,000 at 80% full economic costs, may be requested over a maximum of two years.	http://www.nerc.ac.uk/innovation/activities/infrastucture/green-iip-call/

Collaborative awards in medical humanities	Natural Environment Research Council	21 Jan 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications due by 4pm. This call is repeated 2 times a year.	Directed grants to institutions, research groups etc, Equipment and materials, Networking/collaboration	£800,000	£65,000	-	This is an open competition for curiosity-motivated basic, strategic or applied research. Grants are worth between £65,000 and £800,000 at 100 per cent full economic cost.	http://www.nerc.ac.uk/funding/available/research/grants/standard/
COMING SOON: UK-China antimicrobial resistance initiative	Natural Environment Research Council	29 Feb 16	Proposals due by 4pm.	Travel for research purposes, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	This facilitates collaborative fieldwork opportunities between NERC's British Antarctic Survey research teams and higher education institutes or other research council institutes or approved independent research organisations where no additional funding is required for salaries, grants or direct science costs. Proposals submitted to this programme will require support only for certain marginal costs, such as intercontinental travel, field clothing, prescribed training requirements and medical fitness examination.	http://www.antarctica.ac.uk/apfp/cgs/index.php
Early-career fellowships	Natural Environment Research Council	10 Mar 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Outline proposals due by 10 March; full proposals due around mid-November 2015.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	£3,700,000	£1,200,000	-	These support adventurous, large-scale and complex research projects tackling big science questions that cannot be addressed through other funding opportunities. Grants are worth between £1.2 million and £3.7m each, for a duration of up to five years.	http://www.nerc.ac.uk/funding/available/research/grants/large/
Large grants	Natural Environment Research Council	31 Mar 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Access to laboratories, telescopes etc.	-	-	-	Researchers from the UK and their international collaborators may carry out environmental research relevant to the NERC remit at the Ny-Ålesund station on the Svalbard archipelago.	http://www.arctic.ac.uk/infrastructure/research-station/access-to-the-station/
Collaborative doctoral awards	Natural Environment Research Council	08 Jul 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications are due by 4pm. This call is repeated once a year.	Studentship allocations, Academic-Industry links, Networking/collaboration	-	-	-	This promotes collaboration between the research community and the end users of research. The CASE partner is expected to supplement the student's maintenance grant by paying at least £1,000 per year directly to the student, during the duration of their studentship, and will meet the extra expenses incurred by students visiting and working in their establishments. They are also expected to contribute in cash or in kind towards necessary materials.	http://www.nerc.ac.uk/funding/available/postgrad/focused/industrial-case/
PATT standard travel and subsistence grants	Natural Environment Research Council	---	Applicants must contact the appropriate science programme officer before submitting a proposal.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	£52,000	-	-	These allow scientists to respond rapidly to unexpected and transient events affecting the environment. The maximum total project funding is £65,000, and NERC will fund up to 80 per cent of full economic costs. Projects may last for up to 12 months.	http://www.nerc.ac.uk/funding/available/research/grants/urgency/
Clinical PhD programmes	Natural Environment Research Council	---		Technology innovation/development, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Academic-Industry links	£20,000	-	-	These help researchers undertake the preliminary work required to apply for a follow-on grant. Grants are usually between £7,000 and £10,000 at 100 per cent full economic costing but may be worth up to £20,000.	http://www.nerc.ac.uk/funding/available/schemes/followon/pathfinder/
POSTPONED: Research leadership awards	Natural Environment Research Council	---		Personal development, Travel to conferences, meetings etc.	-	-	-	These enable NERC-funded students and researchers to develop science communication and public engagement skills. Courses are free and include overnight accommodation and evening meals between days one and two. Participants are expected to arrange their own travel.	http://www.nerc.ac.uk/skills/mediatraining/publicengagement/
Holmes Hines memorial fund	Natural Environment Research Council	---		Hosting conferences, Travel to conferences, meetings etc.	£8,000	-	-	These are for hosting workshops in any area of the biodiversity and ecosystems service sustainability. Grants are worth up to £8,000.	http://www.nerc-bess.net/index.php/component/content/category/35-working-groups-and-workshops
COMING SOON: Science Learning+ phase two grants	Natural Environment Research Council	Unknown		Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	*** The Natural Environment Research Council and the São Paulo Research Foundation will shortly be inviting proposals for their sustainable gas futures programme. The call will open in March 2015 and close in early June 2015. A scoping workshop will be held between 25 and 27 February 2015. The following call details are subject to change. This programme supports projects related to sustainable gas futures. NERC may commit £1.05 million over four years through the Newton Fund, with matched funding from the São Paulo Research Foundation. ***	http://www.nerc.ac.uk/research/funded/programmes/gasfutures/news/preannouncement/
Programme grants – population and systems medicine	Nesta	30 Sep 15	Deadlines for judging are every four months. The prize will remain open until it is won, or if there is no winner, until 31 December 2019. This call is repeated 3 times a year.	Prizes	£8,000,000	-	£10,000,000	This rewards the development of a transformative point-of care diagnostic test to revolutionise the delivery of global healthcare and conserve antibiotics for future generations. The winner is awarded £8 million. £2m is awarded to support promising entries along the way.	http://www.longitudeprize.org/

Capital funding for public engagement and medical history	NHS Employers	29 May 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications are accepted between 27 February and 29 May 2015. This call is repeated once a year.	Personal development, Directed grants for individual investigators	£12,500	-	-	-	These support specific healthcare projects or other educational or developmental activities that aim to improve the health outcomes of people from black and minority ethnic communities. Awards are worth up to £12,500 each.	http://www.nhsemployers.org/your-workforce/plan/building-a-diverse-workforce/get-involved/the-mary-seacole-awards
Medical humanities research bursaries	NIH: National Institutes of Health	05 Oct 15	Applications due by 5pm proposer's local time, every 5 February, 5 June and 5 October until 8 September 2016.	Directed grants to institutions, research groups etc	-	-	-	-	The research project grant (R01) is an award made to an institution/organization to support a discrete, specified, circumscribed project to be performed by the named investigators in areas representing the specific interests and competencies of the investigators. A project duration of up to five years may be requested.	http://grants.nih.gov/grants/guide/pa-files/PA-13-302.html
Sustaining excellence awards	Obstetric Anaesthetists' Association	28 Sep 15	Applications due by 12 noon.	Directed grants to institutions, research groups etc, Equipment and materials	£5,000	-	-	£20,000	These enable researchers who seek smaller amounts of funding to undertake projects in obstetric anaesthesia. Four grants, worth up to £5,000 each, are available.	http://www.oaa-anaes.ac.uk/Research-Grants
Highlight notice in novel tools and technologies for vaccinology	Research Councils UK	17 Sep 15	Applications may be submitted from 27 August; intentions to submit are due by 4pm BST, 17 September; proposals due by 4pm BST, 8 October 2015.	Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration	-	-	-	-	This aims to provide funding for internationally competitive and innovative collaborative research projects between UK and Chilean researchers which contribute to the economic development and welfare of Chile and to other developing countries more broadly. RCUK has allocated up to £2.5 million and CONICYT approximately £1.34 million to this call, and around 10 research projects are expected to be funded. The call is expected to offer funding during two to three years.	http://www.rcuk.ac.uk/international/newton/rcuk-conicyt-research-partnerships-call/
Anniversary essay competition – the way we live now, debates one to four	Research Councils UK	31 Oct 15	This call is repeated once a year.	Financial aid for postgraduate students, Directed grants for individual investigators	-	-	-	-	These provide assistance with additional expenditure for postgraduate students as a result of a disability, mental health problem or specific learning difficulty. Allowances may cover the cost of non-medical personal assistance, items of specialist equipment, extra travel costs and general expenses.	http://www.rcuk.ac.uk/researchcareers/Pages/dsa.aspx
Professorial fellowship scheme	Royal Academy of Engineering	26 Oct 15	Applications due by 4pm. This call is repeated once a year.	Senior fellowships, Directed grants for individual investigators	-	-	-	-	These enable engineering academics to concentrate on full-time research in any engineering discipline by relieving them of their administrative and teaching responsibilities. The fellowship covers the cost of a replacement academic to cover all teaching and administrative duties for up to one year. A support fund of up to £2,500 is also available for miscellaneous research costs.	http://www.raeng.org.uk/research/researcher/lev-erhulme/default.htm
Connected and autonomous vehicles	Royal Society	24 Sep 15	This call is repeated 2 times a year.	Innovation grants, Mid-Career fellowships, Early-Career fellowships, Senior fellowships, Academic-Industry links, Networking/collaboration, Directed grants for individual investigators	-	-	-	-	These enable academic scientists to work on collaborative projects with industry, or individuals employed in industry to work on collaborative projects with university departments or non-profit research organisations. Fellowships support a period of up to two years and cover fellows' basic salary during the secondment as well as research expenses of up to £2,000 per year.	http://royalsociety.org/Industry-Fellowships/
Seeding drug discovery	Royal Society of Edinburgh	04 Nov 15	Applications due by 5pm. Deadlines on: 27 April 2015, 4 November 2015.	Early-Career fellowships, Senior fellowships, Predoctoral training fellowships, Postdoctoral training fellowships, Travel for research purposes, Directed grants for individual investigators, Equipment and materials, Mid-Career fellowships	-	-	-	-	These enable an individual to advance the commercialisation of existing research and outcomes or technological developments, whilst also receiving formal training in relevant business skills, with the objective to increase exploitation of ideas with commercial potential from BBSRC-funded research programmes. Fellowships provide the costs of salary, travel, consumables, equipment and business consultancy support.	http://www.royalsoced.org.uk/638_BBSRCEnterpriseFellowships.html
Experiments and methodological innovation for longitudinal studies	Royal Society of Edinburgh	27 Apr 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications due by 5pm. This call is repeated once a year.	Predoctoral fellowships, Early-Career fellowships, Senior fellowships, Technology innovation/development, Directed grants for individual investigators, Innovation grants, Academic-Industry links, Mid-Career fellowships	-	-	-	-	These enable an individual to advance the commercialisation of existing research and outcomes or technological developments, whilst also receiving formal training in relevant business skills, with the objective to increase exploitation of ideas with commercial potential from STFC-funded research programmes. Fellowships provide the costs of salary, travel, consumables, equipment and business consultancy support.	http://www.royalsoced.org.uk/637_STFCEnterpriseFellowships.html
Starter grants for clinical lecturers	Science and Technology Facilities Council	01 Sep 15	Outline proposals due by 1 September; invited full proposals due by 1 December 2015.	Prototypes and demonstrations, Technology innovation/development, Directed grants for individual investigators, Academic-Industry links, Networking/collaboration	-	-	-	£1,500,000	Funding supports the application and commercialisation of the Science and Technology Facilities Council's research in the key area of security. Projects should develop technology demonstrators and industry-ready prototype systems, moving research outputs from technology readiness level three to five approximately. The total budget is in the region of £1.5 million.	http://www.stfc.ac.uk/funding/working-with-industry/challenge-led-applied-systems-programme/
New investigator research grants – molecular and cellular medicine	Science and Technology Facilities Council	09 Sep 15	Deadlines on: 28 January 2015, 6 May 2015, 9 September 2015.	Technology innovation/development, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Networking/collaboration	£360,000	-	-	-	The objective of this scheme is to transfer technology and expertise developed through STFC funding to the marketplace in partnership with industry and other academic disciplines. Full IPS projects provide a maximum of £150,000 per year at 80 per cent of full economic costs and projects may last up to three years. Mini IPS projects provide a maximum of £150,000 at 80 per cent of full economic costs for up to 12 months.	http://www.stfc.ac.uk/funding/working-with-industry/innovations-partnership-scheme/

Innovations partnership scheme	Science and Technology Facilities Council	09 Sep 15	Applications due by 4pm. Deadlines on: 6 May 2015, 9 September 2015.	Technology innovation/development, Innovation grants, Academic-Industry links, Networking/collaboration	£120,000	-	-	The objective is to transfer technology and expertise developed through STFC funding to the marketplace in partnership with industry and other academic disciplines. Funding is worth a maximum of £120,000 at 80 per cent of full economic costs. Projects may last up to one year.	https://www.stfc.ac.uk/712.aspx
Mini-IPS awards	Science and Technology Facilities Council	09 Sep 15	Applications due by 4pm. Deadlines on: 6 May 2015, 9 September 2015.	Early-Career fellowships, Institutional development, Technology innovation/development, Academic-Industry links	-	-	-	These aim to facilitate the transfer of technologies, skills and knowledge, developed through STFC funded research, to industry and other users of research outputs. The fellowships can last up to four years and STFC will fund 50 per cent of the the fellowship at 80 per cent full economic costing.	http://www.stfc.ac.uk/funding/fellowships/innovations-partnership-scheme-fellowships
Innovation partnership scheme fellowships	Science and Technology Facilities Council	09 Sep 15	Applications due by 4pm. Deadlines on: 6 May 2015, 9 September 2015.	Technology innovation/development, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Academic-Industry links	£88,000	-	-	The fund aims to support the commercialisation of research ideas and provides funds to enable those ideas to be brought to a stage where commercial opportunities can be secured. Proposals should not exceed £110,000 of which STFC will provide 80 per cent full economic costs. The duration is up to 12 months.	http://www.stfc.ac.uk/funding/working-with-industry/commercialisation/follow-on-funding/
Trust, identity, privacy and security in the digital economy	Science and Technology Facilities Council	15 Sep 15	Deadlines on: 15 September 2015, 15 March 2016, and repeated annually.	Access to laboratories, telescopes etc., Travel for research purposes	-	-	-	These enable UK investigators to access a range of astronomy facilities. Grants support travel and subsistence costs, and facilities are free at the point of access.	http://www.stfc.ac.uk/1506
Smart grants	Science and Technology Facilities Council	24 Sep 15	Applications due by 4pm. This call is repeated once a year.	Early-Career fellowships, Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators, Equipment and materials	-	-	-	These enable early-career researchers from the UK and overseas to establish an independent research programme in the fields of astronomy, solar and planetary science, particle physics, particle astrophysics, cosmology and nuclear physics. Funding is provided at 80 percent of the full economic costs requested. Fellowships are tenable for five years and provide funds to cover salaries, travel, conference attendance, relocation, and minor equipment and consumables.	http://www.stfc.ac.uk/funding/fellowships/ernest-rutherford-fellowship
Independent research fellowships	Science and Technology Facilities Council	01 Oct 15	This call is repeated 2 times a year.	Travel for research purposes	-	-	-	These support travel and subsistence for observing trips. Travel and subsistence costs will be reimbursed at 100 per cent of costs.	http://www.stfc.ac.uk/funding/research-grants/funding-opportunities/applying-for-time-on-stfc-astronomy-facilities
Visiting professorships	Science and Technology Facilities Council	08 Oct 15	Proposals are invited between 1 August and 4pm, 8 October 2015. This call is repeated 2 times a year.	Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Equipment and materials	£10,000	£500	-	This supports small, local or pilot projects promoting science and technology. Awards range in size from £500 to £10,000 and may cover expenses for materials, salaries, travel and subsistence.	http://www.stfc.ac.uk/news/public-engagement-small-awards-scheme
Translation fund	Science and Technology Facilities Council	16 Oct 15	This call is repeated 2 times a year.	Access to laboratories, telescopes etc.	-	-	-	Academic and industry researchers may apply for free access to neutron and muon instruments, provided by the ISIS Centre for Research in the Physical and Life Sciences, in order to investigate the properties of materials on the atomic scale. The instruments are free to use, provided results from experiments are published in the public domain.	http://www.isis.stfc.ac.uk/apply-for-beamtime/apply-for-beamtime2117.html
Standard follow-on funding	Science and Technology Facilities Council	11 Nov 15	Proposals are invited between 1 August and 4pm, 11 November 2015. This call is repeated once a year.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Networking/collaboration	£100,000	£10,000	-	This supports projects that are expected to have a significant regional or national impact relevant to publicising engagement or teaching about the council's science and technology areas. Awards are worth from £10,000 to £100,000 each.	http://www.stfc.ac.uk/funding/public-engagement-funding/public-engagement-large-awards-scheme
Emeritus fellowships	Science and Technology Facilities Council	12 Feb 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Equipment and materials, Networking/collaboration	-	-	-	These support research in the areas of astronomy, cosmology, solar system science and certain aspects of particle astrophysics. Consolidated and consortium grants are available for up to three years with the possibility of a no-cost one-year extension, and start on the 1 April 2015.	http://www.stfc.ac.uk/research/astronomy-and-space-science/astronomy-research-grants
COMING SOON: Society and ethics doctoral studentships	Science and Technology Facilities Council	---		Access to laboratories, telescopes etc., Travel for research purposes	-	-	-	These support observation trips to recognised telescopes, including the council's telescopes. Applicants may apply for three months standard grant funding.	http://www.stfc.ac.uk/1506.aspx
COMING SOON: Wellcome Trust/Parliamentary Office of Science and Technology fellowship in society and ethics	Science and Technology Facilities Council	Unknown		Hosting visits, Travel to conferences, meetings etc., Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	*** The Science and Technology Facilities Council will shortly be inviting applications for its nuclear physics research grants. Closing date information has not been confirmed by the funder, but the next grant review round is due to take place from 2016 to 2017, with further information to be issued in due course. The following call details are taken from the previous round and are subject to change. These grants support research in the areas of experimental and theoretical nuclear physics. ***	http://www.stfc.ac.uk/info/nuclear-physics-research-grants/

Follow-on funding pathfinder	Science and Technology Facilities Council	---	Expression of interests are open throughout the year; full applications due by 29 August and 11 November 2014.	Access to laboratories, telescopes etc., Technology innovation/development, Research calls for business, Innovation grants, Academic-industry links, Networking/collaboration	-	-	-	This scheme offers support to entrepreneurs aiming to take high energy physics technologies from an initial innovative concept to market. The package includes funding worth £40,000 and a range of additional benefits.	http://www.stfc-cern-bic.org.uk/IncubationProg/44318.aspx
Biodiversity and ecosystem service sustainability workshop grants	Science and Technology Facilities Council	---		Hosting conferences	-	-	-	Funding is available to support the cost of organising conferences and workshops within the nuclear physics grants panel's area of interest.	http://www.stfc.ac.uk/1954.aspx
Nuclear physics conferences and short courses	Science and Technology Facilities Council	---		Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators	£2,500	-	-	These support those seeking to resume an academic research career with developing a proposal suitable for submission to the STFC fellowship scheme. Each bursary is worth up to £2,500.	http://www.stfc.ac.uk/funding/fellowships/return-to-research-support-bursary
POSTPONED: Doctoral scholarships	Science and Technology Facilities Council	---		Directed grants for individual investigators	-	-	-	This aims to provide new staff members with the opportunity to obtain research funding in the areas of experimental and theoretical particle physics and certain aspects of astrophysics between grant reviews.	http://www.stfc.ac.uk/funding/research-grants/funding-opportunities/particle-physics-and-particle-astrophysics-research-grants/
New applicants scheme	Science and Technology Facilities Council	---		Hosting conferences	-	-	-	Applications can be made at any time for contributions to the cost of organising conferences and workshops within the areas of experimental and theoretical particle physics and certain aspects of astrophysics.	http://www.stfc.ac.uk/funding/research-grants/funding-opportunities/particle-physics-and-particle-astrophysics-research-grants/
Leadership fellows scheme – early-career researchers	Science and Technology Facilities Council	---		Access to laboratories, telescopes etc.	-	-	-	Investigators may submit proposals requiring beamtime at both the ISIS pulsed neutron and muon source and the Diamond synchrotron light source, based at the Harwell campus in Oxfordshire, UK.	http://www.isis.stfc.ac.uk/apply-for-beamtime/proposals-requiring-access-to-isis-and-diamond15348.html
Access to ISIS and Diamond	Science and Technology Facilities Council	---		Buildings (renovation/refurbishment), Technology innovation/development, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Equipment and materials, Innovation grants	-	-	-	This supports major new projects that have a significant scientific priority in particle physics, nuclear physics, astronomy or particle astrophysics.	http://www.stfc.ac.uk/funding/research-grants/funding-opportunities/projects-peer-review-panel-large-projects
COMING SOON: Resilience of the UK food systems in a global context	Science and Technology Facilities Council	Unknown		Access to laboratories, telescopes etc.	-	-	-	*** The Science and Technology Facilities Council will shortly be inviting proposals from researchers requiring permanent access to lasers previously available for loan through the Engineering and Physical Sciences Research Council laser loan pool. The call is expected to open in June 2015 when further details will be available. ***	http://www.stfc.ac.uk/info/laser-loan-pool/
Innovation internships	South African Medical Research Council	04 Sep 15	Applications due by 4pm.	Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	This supports projects aimed at accelerating and optimising tuberculosis control in South Africa. The total budget is approximately ZAR70 million over three years. Approximately five to eight projects may be supported.	http://www.mrc.ac.za/funding/NewtonCall2.htm
COMING SOON: Permanent laser access call	South African Medical Research Council	---	Please adhere to co-funding agency's timeline; proposals due by end of September 2015; full applications due by end of February 2015.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	This aims to fund projects that will generate new knowledge on interventions and their implementation for the prevention and management of chronic lung diseases in low- and middle-income countries, as defined by The World Bank.	http://www.mrc.ac.za/innovation/GlobalAlliancePr evention.htm
Tuberculosis control implementation science partnership	Wellcome Trust	05 Sep 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Prizes	£30,000	-	£30,000	This recognises an author, or authors, of a recently published book on the topic of health and medicine. The entered work must have been published in the UK between 1 January and 31 December 2014 and may be a work of fiction or non-fiction. The prize fund is worth £30,000, which may have to be shared between co-authors or the translator.	http://www.wellcomebookprize.org
Wellcome book prize	Wellcome Trust	07 Sep 15	Applications due by 5pm on deadline dates. The application system will be launched in late May 2015. Deadlines on: 7 September 2015, 4 December 2015, 4 April 2016, and repeated annually.	Directed grants for individual investigators, Travel for research purposes, Travel to conferences, meetings etc., Predoctoral training fellowships, Equipment and materials, Financial aid for postgraduate students	-	-	-	These support medical, dental, veterinary or clinical psychology graduates who wish to develop a long-term career in academic medicine. Fellowships normally provide a salary and research expenses for a period of two to three years, however in exceptional cases the funding period may be extended to four years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Clinical-fellowships/WTD004435.htm
Health technology assessment – commissioned call 15/120	Wellcome Trust	11 Sep 15	Preliminary applications due by 5pm, 8 May and 5pm, 11 September; invited main applications due by 5pm, 17 July and 5pm, 6 November 2015. Deadlines on: 8 May 2015, 11 September 2015.	Senior fellowships, Travel to conferences, meetings etc., Travel for research purposes, Equipment and materials, Networking/collaboration, Mid-Career fellowships	-	-	-	These support outstanding postdoctoral scientists based in academic institutions in the UK and the Republic of Ireland. Fellowships are tenable for five years in the first instance, and provide a basic salary, normally of up to £65,000 per year, with an additional trust supplement of £12,500 per year, research programme costs, inflation allowance and public engagement costs.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTD004442.htm

Senior research fellowships in basic biomedical science	Wellcome Trust	11 Sep 15	Preliminary applications due by 5pm, 8 May and 5pm, 11 September; invited main applications due by 5pm, 17 July and 5pm, 6 November 2015. Deadlines on: 8 May 2015, 11 September 2015.	Senior fellowships, Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators, Equipment and materials, Networking/collaboration	-	-	-	These enable clinical investigators to further develop their research potential and to establish themselves as leading investigators in clinical academic medicine. Fellowships are tenable for five years and cover basic salary, research expenses, inflation allowance and public engagement costs.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Clinical-fellowships/WTD004445.htm
Social change through creativity and culture – Brazil call for applications to attend creative lab	Wellcome Trust	18 Sep 15	Applications due by 5pm. Deadlines on: 13 March 2015, 18 September 2015.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Networking/collaboration	-	£30,000	-	These support projects that enable the public to explore biomedical science, its impact on society and culture, its historical roots and the ethical questions that it raises. Awards are worth over £30,000 for up to three years.	http://www.wellcome.ac.uk/Funding/Public-engagement/Funding-schemes/People-Awards-and-Society-Awards/index.htm
Society awards	Wellcome Trust	21 Sep 15	Preliminary applications due by 21 September 2015, full applications due by 12 January 2016.	Travel for research purposes, Directed grants to institutions, research groups etc, Equipment and materials, Networking/collaboration	£4,000,000	-	-	These support groups of independent researchers pursuing problems across the areas of science, medical humanities, society and ethics, and innovation. Awards are normally worth up to £4 million over a period of up to five years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Science-collaborative-awards/index.htm
Highlight topics – second round	Wellcome Trust	21 Sep 15	Letters of interest due by 12pm BST, 21 September 2015; invited preliminary applications due by 7 December 2015; invited full applications due by 14 March 2016.	Equipment and materials, Research centres, Directed grants to institutions, research groups etc, Travel to conferences, meetings etc., Hosting access to facilities, Networking/collaboration, Retreats, Personal development	-	-	-	Funding aims to encourage centres to develop specific innovation and translation strategies, to support effective programmes of public engagement, and to identify the necessary resources. Grants are normally funded for five years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Strategic-awards-and-initiatives/WTP059562.htm
Platform grants	Wellcome Trust	25 Sep 15	Expression of interest due by 25 September 2015; full applications due by 18 December 2015. This call is repeated once a year.	Hosting conferences, Travel to conferences, meetings etc., Travel for research purposes, Publish, edit, translate, disseminate, Equipment and materials, Networking/collaboration	£1,000,000	£90,000	-	These awards support the enhanced delivery of public engagement projects and models of working, alongside longer-term strategic planning and organisational development and resilience related to biomedicine. Awards typically range between £90,000 and £1 million over three to five years.	http://www.wellcome.ac.uk/Funding/Public-engagement/Funding-schemes/Sustaining-Excellence-Awards/index.htm
Longitude prize	Wellcome Trust	30 Sep 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Prizes, Publish, edit, translate, disseminate	-	-	-	These celebrate science imaging talent and techniques by recognising high quality imagery that relates to biomedical science and contemporary healthcare. Finalists and the overall winner will receive a monetary prize. The winning images will also go on display in science centres and public galleries across the UK.	http://www.wellcome.ac.uk/News/2014/WTP057065.htm
PATT linked travel and subsistence grants	Wellcome Trust	01 Oct 15	Deadlines on: 1 October 2015, 1 April 2016, and repeated annually.	Access to libraries, Travel for research purposes, Publish, edit, translate, disseminate	£25,000	£5,000	-	These support small and medium-scale research projects based on library or archive collections supported by the trust. Bursaries are usually worth between £5,000 and £25,000, depending on the duration of research.	http://www.wellcome.ac.uk/Funding/Medical-humanities/Funding-schemes/Research-resources-awards/Research-bursaries/index.htm
Public engagement small awards scheme	Wellcome Trust	09 Oct 15	Preliminary applications due by 5pm, 15 May and 5pm, 9 October; invited full applications due by 5pm, 17 July and 5pm, 18 December 2015.	Senior fellowships, Postdoctoral training fellowships, Travel to conferences, meetings etc., Travel for research purposes, Publish, edit, translate, disseminate, Equipment and materials, Mid-Career fellowships	-	-	-	These support postdoctoral scientists who have recently decided to recommence a scientific research career after a break of at least two years. Fellowships are tenable for two to four years and cover a salary, research expenses and public engagement costs, as well as modest requests for equipment and funding for re-training.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTD004380.htm
Career re-entry fellowships in biomedical science	Wellcome Trust	09 Oct 15	Preliminary applications due by 5pm, 15 May and 5pm, 9 October; invited full applications due by 5pm, 17 July and 5pm, 18 December 2015.	Early-Career fellowships, Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators, Equipment and materials	£250,000	-	-	These enable newly qualified postdoctoral researchers to make an early start in developing their independent research careers, working in the best laboratories in the UK and overseas. Fellowships provide £250,000 over four years, covering salary and research expenses.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTX033549.htm
Modular training partnerships	Wellcome Trust	15 Oct 15		Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Equipment and materials, Networking/collaboration	£150,000	£10,000	-	This scheme supports cataloguing, preservation and digitisation projects that aim to create or improve access to collections of printed books and documents, manuscripts, film and photographic materials with research value for a wide range of researchers in fields associated with the history of medicine, medical humanities and social sciences as they relate to health. Grants cover the costs of project staff and materials and are typically worth between £10,000 and £150,000 each.	http://www.wellcome.ac.uk/Funding/Medical-humanities/Funding-schemes/Research-resources-awards/Support-for-libraries-and-archives/index.htm

Proximity to discovery – industry engagement fund	Wellcome Trust	16 Oct 15	Concept notes due by 5pm GMT, 16 October; invited preliminary applications due by 5pm GMT, 11 December 2015. This call is repeated 2 times a year.	Directed grants to institutions, research groups etc, Technology innovation/development, Innovation grants, Networking/collaboration, Publish, edit, translate, disseminate, Travel for research purposes, Equipment and materials, Academic-Industry links	-	-	-	Awards support the development of innovative and ground breaking technologies that address an unmet healthcare need in the biomedical area. Funding covers direct costs of the project, including modest equipment purchase and maintenance costs.	http://www.wellcome.ac.uk/Funding/Technology-transfer/Awards/Translation-Fund/index.htm
Follow-on fund	Wellcome Trust	22 Oct 15		Networking/collaboration, Travel for research purposes, Directed grants to institutions, research groups etc, Travel to conferences, meetings etc., Directed grants for individual investigators, Equipment and materials, Innovation grants	£100,000	-	-	These enable researchers to develop a novel idea to a position where it may compete for a larger award from the trust or another source. Awards are worth up to £100,000 each over a maximum period of two years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Seed-Awards/index.htm
COMING SOON: Access to MRC's biomedical nuclear magnetic resonance centre	Wellcome Trust	30 Oct 15	Preliminary applications due by 5pm, 18 May and 5pm, 30 October 2015; invited full applications due by 5pm, 13 July 2015 and 5pm, 11 January 2016.	Publish, edit, translate, disseminate, Travel to conferences, meetings etc., Early-Career fellowships, Equipment and materials, Travel for research purposes, Postdoctoral training fellowships, Directed grants for individual investigators	-	-	-	These enable medical, dental, veterinary or clinical psychology graduates to continue their research interests at a postdoctoral level in an appropriate unit or clinical research facility. Fellowships provide research expenses and a salary for up to four or five years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Clinical-fellowships/WTD004402.htm
Intermediate clinical fellowships	Wellcome Trust	30 Oct 15	Preliminary applications due by 5pm, 18 May and 5pm, 30 October 2015; invited full applications due by 5pm, 13 July 2015 and 5pm, 11 January 2016.	Postdoctoral training fellowships, Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators, Publish, edit, translate, disseminate, Equipment and materials	£400,000	£250,000	-	These enable individuals to engage with areas of research that are new to them, and gain high-quality training that will create the foundation for a successful independent research career. Fellowships are tenable for two to four years, with total costs typically ranging between £250,000 and £400,000.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Clinical-fellowships/wtp052588.htm
UK in a changing Europe initiative commissioning fund	Wellcome Trust	03 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Predocctoral fellowships, Predocctoral training fellowships, Financial aid for postgraduate students, Travel for research purposes, Networking/collaboration	-	-	-	These enable postgraduate students to undertake international, collaborative four-year PhD training based in both a UK or Republic of Ireland academic institution and the intramural campus of NIH at Bethesda, Maryland, US. Trust funding will provide support for the student's stipend, PhD fees, college fees and a contribution towards research costs. The NIH award will include a level of financial support and travel costs commensurate with that provided to other graduate students in NIH training programmes. Up to five studentships are available annually.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/PhD-funding-and-undergraduate-opportunities/WTD027399.htm
Policy internship scheme	Wellcome Trust	04 Nov 15	Applications due by 5pm GMT. Deadlines on: 5 June 2015, 4 November 2015, and repeated annually.	Technology innovation/development, Directed grants to institutions, research groups etc, Innovation grants	-	-	-	Funding is available to facilitate early-stage small molecule drug discovery that will be the springboard for further research and development by the biotechnology and pharmaceutical industry in areas of unmet medical need. Projects are supported for up to four years, depending on the stage of development.	http://www.wellcome.ac.uk/Funding/Innovations/Awards/Seeding-Drug-Discovery/index.htm
Game-changing technologies for aerospace – feasibility studies	Wellcome Trust	06 Nov 15	Deadlines on: 20 February 2015, 17 July 2015, 6 November 2015.	Travel for research purposes, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Equipment and materials, Networking/collaboration	£3,000,000	-	-	These enable researchers at any career level to address important research questions relevant to human and animal health and disease. Awards are worth up to £3 million for up to seven years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Grants/Investigator-Awards/WTX059284.htm
Efficacy and mechanism evaluation programme – researcher-led workstream	Wellcome Trust	10 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Travel to conferences, meetings etc., Technology innovation/development, Directed grants for individual investigators, Equipment and materials	£1,500,000	-	-	These grants support researchers wishing to establish a new resource or technology or to refine and maintain an existing resource or technology, including databases and collections, for the benefit of the wider scientific community. Grants are generally worth up to £1.5 million for up to five years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Strategic-awards-and-initiatives/WTDV031727.htm
Biomedical resource and technology development grants	Wellcome Trust	10 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Directed grants to institutions, research groups etc, Equipment and materials	£1,000,000	£75,000	-	These provide support for multi-user items of equipment, including equipment required to create a central resource for a number of disparate scientific programmes. Grants generally range between £75,000 and £1 million over a period of up to five years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Strategic-awards-and-initiatives/WTDV031728.htm

ESRC celebrating impact prize	Wellcome Trust	21 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 5pm on 17 April and 17 July 2015; invited full applications due by 5pm on 19 June and 9 October 2015.	Early-Career fellowships, Travel for research purposes, Directed grants for individual investigators, Publish, edit, translate, disseminate, Equipment and materials, Mid-Career fellowships	-	-	-	-	These enable postdoctoral scientists to become independent research scientists and undertake research at an institution in the Republic of Ireland. Fellowships are tenable for five years and provide a basic salary, research expenses, overseas allowances, travel and subsistence costs and provision for public engagement costs.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTD004431.htm
Research career development fellowships in basic biomedical science	Wellcome Trust	21 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 5pm on 17 April and 17 July 2015; invited full applications due by 5pm on 19 June and 9 October 2015. Deadlines on: 21 November 2015, 17 April 2016, 17 July 2016, and repeated annually.	Early-Career fellowships, Travel for research purposes, Directed grants for individual investigators, Networking/collaboration, Mid-Career fellowships	-	-	-	-	These enable postdoctoral scientists who wish to build their own UK-based independent research career to address an important biomedical question. Fellowships are tenable for five years in the first instance, with the potential to apply for competitive renewal for an additional three years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTDV031823.htm
Sir Henry Dale fellowships	Wellcome Trust	22 Nov 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Predoctoral fellowships, Travel for research purposes	-	-	-	-	This enables a Wellcome Trust-funded PhD student or junior fellow to access the parliamentary and policy-making setting of the Parliamentary Office of Science and Technology. The fellowship provides a fully funded three-month extension to the PhD or fellowship award plus coverage of travel and accommodation costs up to a maximum of £2,000.	http://www.wellcome.ac.uk/Funding/Medical-history-and-humanities/Funding-schemes/Fellowships/WTX063017.htm
Industrial biotechnology catalyst – late-stage technical feasibility studies – round 4	Wellcome Trust	27 Nov 15	Applications due by 5pm. Deadlines on: 7 August 2015, 27 November 2015, 4 March 2016, 3 June 2016.	Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators, research groups etc, Publish, edit, translate, disseminate, Equipment and materials, Networking/collaboration	£40,000	-	-	-	These support creative collaborations that stimulate interest, excitement and debate about biomedical science through the arts, examine the social, cultural and ethical impact of biomedical science, and support formal and informal learning. Awards are worth up to £40,000 each for a maximum period of three years.	http://www.wellcome.ac.uk/Funding/Public-engagement/Funding-schemes/Arts-Awards/index.htm
Telling tales of engagement competition	Wellcome Trust	01 Dec 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated 3 times a year.	Hosting conferences, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Equipment and materials, Networking/collaboration	£50,000	£25,000	-	-	These enable researchers to develop a novel idea to a position where they could compete for a larger award from the trust or another funder. Research may fall under any field of medical humanities that can enrich the understanding of health, medicine and disease. Awards typically range from £25,000 to £50,000 over six to 12 months.	http://www.wellcome.ac.uk/Funding/Medical-humanities/Funding-schemes/Seed-Awards/index.htm
Seed awards in medical humanities	Wellcome Trust	01 Dec 15 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated 3 times a year.	Hosting conferences, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Networking/collaboration	£50,000	£25,000	-	-	These enable researchers to develop a novel idea in the field of society and ethics to a position where they could compete for a larger award from the trust or another funder. Awards typically range from £25,000 to £50,000 over six to 12 months, however proposals outside this time frame may be considered	http://www.wellcome.ac.uk/Funding/Society-and-ethics/funding-schemes/Seed-Awards/index.htm
Driving UK capability and economic impact through low carbon propulsion technologies	Wellcome Trust	10 Jan 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 10 July; full applications due by 25 September 2015 This call is repeated 2 times a year.	Personal development, Travel to conferences, meetings etc., Directed grants for individual investigators	-	-	-	-	These enable clinicians or scientists to conduct up to six months of full-time research at a centre or department with academic expertise in medical humanities to explore the wider determinants and contexts of their own medical and scientific work. Awards provide the salary of a locum or replacement lecturer for up to six months and a set amount for travel to conferences.	http://www.wellcome.ac.uk/Funding/Medical-history-and-humanities/Funding-schemes/Personal-awards/WTD003761.htm
Short-term research leave awards for clinicians and scientists	Wellcome Trust	10 Jan 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 10 July; full applications due by 25 September 2015 This call is repeated 2 times a year.	Early-Career fellowships, Senior fellowships, Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators, Mid-Career fellowships	-	-	-	-	These enable individuals at all stages of their careers, who are not in established academic posts, to undertake a period of research in medical history and humanities. Fellowships are tenable for up to three years.	http://www.wellcome.ac.uk/Funding/Medical-history-and-humanities/Funding-schemes/Fellowships/WTD003793.htm

Research fellowships in medical humanities	Wellcome Trust	10 Jan 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 10 July; full applications due by 25 September 2015. This call is repeated 2 times a year.	Early-Career fellowships, Postdoctoral training fellowships, Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators, Publish, edit, translate, disseminate	£250,000	-	-	These enable individuals who are not yet established in academic posts to undertake a period of postdoctoral research. Fellowships are worth up to £250,000 each and are tenable for up to three years	http://www.wellcome.ac.uk/Funding/Ethics-and-society/funding-schemes/Research-fellowships/index.htm
Research fellowships in society and ethics	Wellcome Trust	10 Jan 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 10 July; full applications due by 25 September 2015. This call is repeated 2 times a year.	Institutional development, Travel to conferences, meetings etc., Directed grants for individual investigators, Publish, edit, translate, disseminate	-	-	-	These enable universities to attract or retain outstanding research staff at an early to mid-stage in their careers by providing support for up to five years, after which time the applicant takes up a guaranteed permanent post in the university. Awards are available for up to five years.	http://www.wellcome.ac.uk/Funding/Humanities-and-social-science/funding-schemes/university-awards/index.htm
University awards in society and ethics	Wellcome Trust	10 Jan 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 10 July; full applications due by 25 September 2015. This call is repeated 2 times a year.	Institutional development, Hosting visits, Travel to conferences, meetings etc., Directed grants to institutions, research groups etc	-	-	-	These enable universities to attract research staff by providing support for up to five years, after which the award holder takes up a guaranteed permanent post in the university. Awards cover salary, travel expenses to meetings and research expenses for part of the five-year award term.	http://www.wellcome.ac.uk/Funding/Humanities-and-social-science/funding-schemes/university-awards/index.htm
University awards	Wellcome Trust	10 Jan 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 10 July; full applications due by 25 September 2015.	Directed grants to institutions, research groups etc, Directed grants for individual investigators, Travel for research purposes, Networking/collaboration, Travel to conferences, meetings etc., Publish, edit, translate, disseminate, Hosting conferences, Innovation grants	£1,000,000	-	-	These enable researchers at any career stage to address important questions about health and disease and their social, political and historical contexts. Awards range from £100,000 to £200,000 per year each over a maximum period of five years.	http://www.wellcome.ac.uk/Funding/Society-and-ethics/funding-schemes/Investigator-awards/index.htm
Investigator awards in society and ethics	Wellcome Trust	10 Jan 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 10 July; full applications due by 25 September 2015. This call is repeated 2 times a year.	Predocctoral fellowships, Early-Career fellowships, Predocctoral training fellowships, Financial aid for postgraduate students, Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators	£250,000	-	-	This scheme is intended for practising health professionals who wish to carry out research in any area within the remit of the society and ethics programme, either full time or part time, while maintaining their work commitments. Fellowships are tenable for up to three years and are usually worth up to £250,000.	http://www.wellcome.ac.uk/Funding/Ethics-and-society/funding-schemes/Research-fellowships-for-health-professionals/index.htm
Agri-tech catalyst early-stage awards	Wellcome Trust	17 Jan 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 17 July, full applications due by 25 September 2015. This call is repeated 2 times a year.	Travel to conferences, meetings etc., Travel for research purposes, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Networking/collaboration	£2,000,000	-	-	These enable teams to tackle major health-related questions in the humanities and social sciences. Awards are normally worth up to £2 million over a period of up to five years, with most in the range of £1m to £1.5m.	http://www.wellcome.ac.uk/Funding/Society-and-ethics/funding-schemes/Collaborative-Awards/index.htm
Collaborative awards in society and ethics	Wellcome Trust	17 Jan 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 17 July, full applications due by 25 September 2015. This call is repeated 2 times a year.	Travel to conferences, meetings etc., Travel for research purposes, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Networking/collaboration	£2,000,000	-	-	These enable teams to tackle major health-related questions in the humanities and social sciences. Awards are normally worth up to £2 million over a period of up to five years, with most in the range of £1m to £1.5m.	http://www.wellcome.ac.uk/Funding/Medical-humanities/Funding-schemes/Collaborative-Awards/index.htm

Standard research grants	Wellcome Trust	22 Jan 16	Preliminary applications due by 22 January; full applications due by 30 March 2016.	Directed grants to institutions, research groups etc, Directed grants for individual investigators, Travel for research purposes, Publish, edit, translate, disseminate, Networking/collaboration, Travel to conferences, meetings etc., Hosting conferences, Innovation grants	£1,000,000	£100,000	-	These aim to provide flexible support at a level and length to enable humanities and social science research to explore any aspect of human and animal health. Awards are in the range of £100,000 to £200,000 per year each over a maximum period of five years.	http://www.wellcome.ac.uk/Funding/Medical-humanities/Funding-schemes/Investigator-Awards/index.htm
Anniversary essay competition – the way we live now, debates nine and 10	Wellcome Trust	02 Apr 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Financial aid for postgraduate students, Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators	-	-	-	These enable scholars to undertake full-time research on a medical humanities topic leading to a doctoral degree at a university in the UK or Republic of Ireland. Awards are for up to three years and include the student's stipend, conference travel, research expenses, overseas fieldwork, and university and college fees at home level.	http://www.wellcome.ac.uk/Funding/Medical-history-and-humanities/Funding-schemes/Personal-awards/WTD003757.htm
In-practice fellowships	Wellcome Trust	01 May 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	Financial aid for postgraduate students, Directed grants for individual investigators	-	-	-	These enable scholars to undertake basic training in research and methods through a one-year master's course in the history of medicine or medical humanities. Awards include a stipend, as well as UK home student level fees, for one year.	http://www.wellcome.ac.uk/Funding/Medical-history-and-humanities/Funding-schemes/Personal-awards/WTD003788.htm
Education and development – raising learning outcomes in education systems programme	Wellcome Trust	29 May 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated once a year.	General operating support, Buildings (renovation/refurbishment), Directed grants to institutions, research groups etc, Equipment and materials	-	£200,000	-	This scheme provides capital funding for large-scale projects that support public engagement or medical history. Awards are normally worth over £200,000.	http://www.wellcome.ac.uk/Funding/Public-engagement/Funding-schemes/Capital-funding/WTD018048.htm
Cochrane programme grant scheme	Wellcome Trust	08 Dec 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated every 2 years.	Studentship allocations, Directed grants to institutions, research groups etc	-	-	-	This scheme supports four-year PhD programmes in the fields of biomedical science and public health in academic institutions in the UK and the Republic of Ireland. Awards are available for a five-year period. Each award supports up to five students per year, providing each of them with a stipend, university or college fees as well as contributions towards research expenses, travel for conferences and meetings, and transferable skills training.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Strategic-awards-and-initiatives/wtx058687.htm
International networks	Wellcome Trust	---	Applications should preferably be made 12 months before the desired award date.	Senior fellowships, Travel for research purposes, Publish, edit, translate, disseminate, Equipment and materials, Mid-Career fellowships	-	-	-	These provide long-term support for researchers of international standing who have an established track record in research at the highest level. The fellowship consists of a personal salary and research programme funding in full for an initial period of seven years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Principal-research-fellowships/index.htm
Overseas travel grants	Wellcome Trust	---	Proposals due at least three months before proposed project starting date.	Hosting conferences, Access to libraries, Travel to conferences, meetings etc., Travel for research purposes, Directed grants to institutions, research groups etc	£10,000	-	-	These support small-scale research projects, scoping exercises or meetings whose subject matter falls within the remit of the ethics and society programme. The normal maximum that can be applied for is £5,000. If funding is intended for international meetings, or to attract international speakers, up to £10,000 may be requested.	http://www.wellcome.ac.uk/Funding/Ethics-and-society/funding-schemes/Small-grants/index.htm
Society and ethics small grants	Wellcome Trust	Unknown		Financial aid for postgraduate students, Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators	-	-	-	*** The Wellcome Trust will shortly be inviting applications for its society and ethics doctoral studentships. The closing date has not yet been confirmed by the trust but is expected to be in spring 2016. The following details are taken from the previous call and are subject to change. These studentships enable scholars to undertake full-time research on a topic related to the society and ethics programme, leading to a doctoral degree at a university in the UK, the Republic of Ireland, or a low- or middle-income country. Studentships are available for up to three years and cover the student's stipend, university and college fees, as well as travel, equipment and research expenses. ***	http://www.wellcome.ac.uk/Funding/Ethics-and-society/funding-schemes/Doctoral-Studentships/index.htm
Urgency applications	Wellcome Trust	---	Students are recruited annually by the individual programmes, beginning in the preceding October.	Predocctoral training fellowships, Financial aid for postgraduate students, Travel for research purposes, Academic-Industry links	-	-	-	These offer an opportunity for translational medicine training in the UK. Four programmes have been established, based in centres of excellence, which can provide research training for clinicians from across the range of specialties. The duration and nature of support provided varies between the schemes, but may include a clinical salary, PhD registration fees at UK or EU rate, research expenses, and costs for travel and training.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/PhD-funding-and-undergraduate-opportunities/WTD027975.htm
Discipline hopping in information and communication technologies	Wellcome Trust	Unknown		Predocctoral fellowships, Travel for research purposes, Directed grants for individual investigators	-	-	-	*** The Wellcome Trust, in collaboration with the Parliamentary Office of Science and Technology, will shortly be inviting applications for its fellowship in society and ethics. Closing date information has not yet been confirmed by the trust, but the call is due to be announced in 2016. The following call details are taken from the previous round and are subject to change. This fellowship enables a Wellcome Trust-funded PhD student or junior fellow to undertake a three-month fellowship at POST. The fellowship provides a fully funded extension to the PhD or fellowship award plus coverage of the fellow's maintenance grant and travel costs up to a maximum of £2,000. ***	http://www.wellcome.ac.uk/Funding/Society-and-ethics/funding-schemes/post-fellowships/index.htm

COMING SOON: Nuclear physics research grants	Wellcome Trust	---	Students are recruited annually by the individual programmes for uptake in October each year. Recruitment begins in the preceding December.	Financial aid for postgraduate students, Access to laboratories, telescopes etc., Travel for research purposes, Directed grants for individual investigators	-	-	-	These enable students to undertake in-depth postgraduate training at centres of excellence throughout the UK in a range of biomedical research areas. Studentships include a stipend, PhD registration fees at UK or EU student rate, laboratory rotation expenses in the first year, research expenses for years two to four, travel, and transferable-skills training.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/PhD-funding-and-undergraduate-opportunities/WTD004384.htm
Four-year PhD studentship programmes	Wellcome Trust	---	Students are recruited annually by the individual programmes, starting in January.	Financial aid for postgraduate students, Travel for research purposes, Directed grants for individual investigators	-	-	-	These enable medically qualified clinicians to pursue rigorous research training across a range of disciplines at UK centres of excellence. Awards provide a clinical salary, PhD registration fees at UK or EU student rate, research expenses, and costs of travel and training.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/PhD-funding-and-undergraduate-opportunities/WTD037337.htm
Follow-on fund pathfinder grants	Wellcome Trust	Unknown		Financial aid for postgraduate students, Directed grants for individual investigators	£2,000	-	-	*** The Wellcome Trust will shortly be inviting applications for its biomedical vacation scholarships. Closing date information has not yet been confirmed by the trust but the call is due to be announced in autumn 2015. The following call details are taken from the previous round and are subject to change. These scholarships provide undergraduates with hands-on experience of research during the summer vacation, with the aim of encouraging them to consider a career in research. Scholarships are available for between six and eight weeks and provide a stipend of £250 per week. ***	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/PhD-funding-and-undergraduate-opportunities/WTD004448.htm
COMING SOON: Joint call for proposals	Wellcome Trust	---		Buildings (renovation/refurbishment), Directed grants for individual investigators, Equipment and materials, Networking/collaboration	-	-	-	These provide flexible forms of support to research groups with outstanding track records in their field. Awards are funded in partnership with the host institution. They are normally for five years and cover equipment, support staff, consumables, training programmes, networking, and biological, clinical or epidemiological research resources, as well as limited capital building or refurbishment.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Strategic-awards-and-initiatives/WTD018098.htm
COMING SOON: Joint call	Wellcome Trust	---	In the first instance applicants should contact the trust to explore whether their proposal meets the criteria.	Buildings (renovation/refurbishment), Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Equipment and materials	-	£200,000	-	This scheme provides funding, normally worth over £200,000, for projects that support the scholarly activities of learned societies within the Wellcome Trust's biomedical science remit.	http://www.wellcome.ac.uk/Funding/Public-engagement/Funding-schemes/Capital-funding/WTD018049.htm
STFC/Cern business incubation centre	Wellcome Trust	---	Applications due three months prior to proposed actions.	Hosting conferences, Access to libraries, Travel to conferences, meetings etc., Travel for research purposes, Directed grants for individual investigators, Publish, edit, translate, disseminate	£10,000	-	-	These support small-scale research projects, scoping exercises or meetings in the medical humanities, including projects in research resources. The normal maximum that can be applied for is £5,000, though applications to fund international meetings, or host international speakers, may request up to £10,000.	http://www.wellcome.ac.uk/Funding/Medical-history-and-humanities/Funding-schemes/Small-grants/index.htm
COMING SOON: Research and development consultancy services on ESRC-DFID strategic partnerships	Wellcome Trust	---		Clinical trials, Research calls for business, Directed grants to institutions, research groups etc	-	-	-	This call aims to support research that can swiftly begin to investigate new approaches for preventing and treating the disease during the current epidemic in West Africa. The focus is on clinical studies that could begin during the current epidemic affecting Liberia, Sierra Leone, Guinea and Nigeria.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Strategic-awards-and-initiatives/wtp057728.htm
COMING SOON: BBSRC/State of São Paulo Research Foundation joint call in advanced biofuels	Wellcome Trust	---	Applications should be made at least two months before the proposed starting date.	Prototypes and demonstrations, Research calls for business, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Networking/collaboration	£10,000	-	-	These awards support the development of television, radio, games or film projects that engage with biomedical science and its impact in our lives in an innovative, entertaining and accessible way. Awards are worth up to £10,000 each over a maximum period of one year.	http://www.wellcome.ac.uk/Funding/Public-engagement/Funding-schemes/Broadcast-games-and-film-awards/Development-Awards/index.htm
Development awards for broadcast, games and film	Wellcome Trust	---	Applicants may submit proposals to the innovation team at any time.	Technology innovation/development, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Equipment and materials, Innovation grants, Networking/collaboration	-	-	-	These fund programmes that require a portfolio of projects to deliver leading edge innovations in healthcare. Requested budgets may include modest equipment purchase and maintenance costs.	http://www.wellcome.ac.uk/Funding/Innovations/Awards/Portfolio-Awards/index.htm
COMING SOON: Integrated energy challenge	Wellcome Trust	Unknown		Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	*** The Wellcome Trust will shortly be inviting applications for phase two partnership grants of its Science Learning+ programme. The closing date is expected to fall in the last quarter of 2015, however application information has not yet been confirmed. The following call details are subject to change. These grants support partnerships involving partners both in the US and in the UK or Republic of Ireland that aim to improve the knowledge base and practice of informal science experiences to better understand, strengthen and coordinate their vital role in science engagement and learning. Funding is worth approximately £1.5 million for up to five years. ***	http://www.wellcome.ac.uk/Funding/Public-engagement/Funding-schemes/Science-Learning/index.htm

COMING SOON: Secondary data analysis initiative
