

Opportunity name	Primary funder name	Closing date	Deadline information	Award type	Award amount max	Award amount min	Award budget total	Summary text	Website
Starter grants for clinical lecturers	Academy of Medical Sciences	04 Mar 16	Applications due by 5pm. This call is repeated 2 times a year.	Directed grants for individual investigators, Equipment and materials	£30,000	-	-	These enable research-active clinical lecturers to gather data in order to strengthen future applications for longer-term fellowships and funding, and to develop and strengthen their research careers. Grants are worth up to £30,000 each over one to two years.	http://srch.co/1ceCu5a
Partnership for research to improve health services	Arthritis Research UK	16 Mar 16		Directed grants to institutions, research groups etc, Directed grants for individual investigators	£300,000	£50,000	-	Funding supports research which aims to improve the quality of healthcare provided to people with arthritis, by producing evidence on the quality, accessibility and organisation. Grants are worth between £50,000 and £300,000 each. This recognises essays linked to a debate series focusing on the theme of 'the way we live now'. The prize per debate is worth £250, and the essay will be published in an AHRC publication and website. Each winning essay will also be considered for the overall prize of £500.	http://www.arthritisresearchuk.org/news/press-releases/2015/december/research-partnership-to-improve-health-services.aspx
Anniversary essay competition – the way we live now, debates four to 10	Arts and Humanities Research Council	31 Mar 16		Student awards, Prizes	-	-	-	This aims to encourage research networking proposals which explore the contribution that arts and humanities research can play in debates about international development. Grants are worth up to £30,000 each over two years. An additional £15,000 full economic cost may be provided to cover the costs of any international participants or activities in addition to the scheme limit.	http://www.ahrc.ac.uk/funding/opportunities/current/the-way-we-live-now-the-ahrc-anniversary-essay-competition/
Highlight notice for international development – research networking scheme	Arts and Humanities Research Council	31 May 16	Applications due by 12 midnight. Proposals relevant to this notice will be accepted after the deadline but will not be eligible for supplementary funding or have an increased chance of funding.	Networking/collaboration, Directed grants for individual investigators, Travel to conferences, meetings etc., Directed grants to institutions, research groups etc, Hosting conferences	£45,000	-	-	This aims to encourage applications exploring innovative ways to enhance engagement with, and impacts from, research funded by the AHRC in one or more countries which receive Official Development Assistance or which will contribute more broadly to international development. Grants are worth up to £100,000 over a maximum period of one year. Smaller grants of up to £30,000 may be awarded for shorter or higher risk activities.	http://www.ahrc.ac.uk/funding/opportunities/current/high-light-notice-international-development-in-the-research-networking-scheme/
Follow-on fund for impact and engagement – highlight notice for international development	Arts and Humanities Research Council	31 May 16	Applications due by 12 midnight. Proposals relevant to this notice will be accepted after the deadline but will not be eligible for supplementary funding or have an increased chance of funding.	Networking/collaboration, Publish, edit, translate, disseminate, Directed grants to institutions, research groups etc	£100,000	-	-	This aims to encourage research networking proposals which are relevant to the UN international decade for people of African descent. Grants are worth up to £30,000 each over two years. An additional £15,000 full economic cost may be provided to cover the costs of any international participants or activities in addition to the scheme limit.	http://www.ahrc.ac.uk/funding/opportunities/current/high-light-notice-un-international-decade-for-people-of-african-descent-in-the-research-networking-scheme/
Highlight notice for the UN international decade for people of African descent – research networking scheme	Arts and Humanities Research Council	30 Jun 16	Applications due by 12 midnight. Proposals relevant to this notice will be accepted after the deadline but will not be eligible for supplementary funding or have an increased chance of funding.	Travel to conferences, meetings etc., Networking/collaboration, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Hosting conferences	£45,000	-	-	This supports the translation of fundamental research funded by BBSRC into practical application including commercialisation. Projects should have a total duration of 12 to 18 months, and should cost under £250,000. Grants cover 80 per cent of the full economic costs and are worth up to £200,000.	http://www.bbsrc.ac.uk/business/commercialisation/follow-on.aspx
Standard follow-on funding	Biotechnology and Biological Sciences Research Council	15 Mar 16	Applications are invited between 25 January and 15 March 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Technology innovation/development	£200,000	-	-	This supports the translation of fundamental research funded by BBSRC into practical application, including commercialisation. Projects should have a total duration of 12 to 24 months and be valued between £250,000 and £2 million. Grants cover 80 per cent of the full economic cost and range from £200,000 to £1.6m.	http://www.bbsrc.ac.uk/business/commercialisation/follow-on.aspx
Super follow-on funding	Biotechnology and Biological Sciences Research Council	15 Mar 16	Applications are invited between 25 January and 15 March 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Technology innovation/development	£1,600,000	£200,000	-	These support investigator-led research activities addressing any topic within the council's remit. Grants may be used for research projects, technology development, equipment or use of existing facilities, new facilities or infrastructure provision, research networks and coordination, and summer schools. Grants support periods of up to five years.	http://www.bbsrc.ac.uk/business/commercialisation/follow-on.aspx
Responsive mode research grants	Biotechnology and Biological Sciences Research Council	11 May 16	Applications due by 4pm.	Innovation grants, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Equipment and materials, Access to laboratories, telescopes etc., Networking/collaboration, Technology innovation/development	-	-	-	This assists early-career researchers in securing their first major element of research funding. The scheme is available for up to five years.	http://www.bbsrc.ac.uk/funding/apply/deadlines.aspx
New investigator scheme	Biotechnology and Biological Sciences Research Council	11 May 16	Applications due by 4pm.	Directed grants for individual investigators	-	-	-	These support science-led research projects that address any topic within the council's remit, and where industrial partners contribute in cash funding. Industrial partners must contribute in cash at least 10 per cent of the full economic costs of projects. Awards are tenable for up to five years.	http://www.bbsrc.ac.uk/funding/grants/new-investigator.aspx
Industrial partnership awards	Biotechnology and Biological Sciences Research Council	11 May 16	Applications due by 4pm.	Research calls for business, Academic-Industry links, Networking/collaboration, Directed grants to institutions, research groups etc	-	-	-	This supports applications that cut across national boundaries and involve international collaborative teams. Proposals may be submitted in any area of science within the remit of both supporting organisations. Funding is available for up to five years.	http://www.bbsrc.ac.uk/business/collaborative-research/industrial-partnership-awards.aspx
BBSRC-State of São Paulo Research Foundation joint research funding	Biotechnology and Biological Sciences Research Council	11 May 16	Applications due by 4pm.	Networking/collaboration, Directed grants to institutions, research groups etc	-	-	-	This supports pre-competitive research projects that address any topic within the council's remit, and where industry contributes funding. Industry partners must contribute in cash at least 50 per cent of the full economic cost of projects. Funding is available for up to five years.	http://www.bbsrc.ac.uk/funding/internationalfunding/flap-sp-joint-funding-research/
Stand-alone LINK	Biotechnology and Biological Sciences Research Council	11 May 16	Applications due by 4pm.	Directed grants to institutions, research groups etc, Research calls for business, Academic-Industry links, Networking/collaboration	-	-	-	These support applications that cut across national boundaries and involve international collaborative teams led by researchers from the UK and the Republic of Ireland.	http://www.bbsrc.ac.uk/innovation/collaboration/stand-alone-link/
BBSRC-Science Foundation Ireland joint research funding	Biotechnology and Biological Sciences Research Council	11 May 16	Applications due by 4pm.	Networking/collaboration, Directed grants to institutions, research groups etc	-	-	-	These support primary research in the humanities and social sciences. Grants are tenable for up to two years and are worth between £500 and £10,000.	http://www.britac.ac.uk/funding/guide/serg.cfm
British Academy/Leverhulme small research grants	British Academy	11 May 16	Applications due by 5pm. Deadlines on: 14 October 2015, 11 May 2016.	Travel for research purposes, Directed grants for individual investigators, Networking/collaboration, Hosting visits, Travel to conferences, meetings etc.	£10,000	£500	-	The funder will conduct a single research project on supporting a culture of openness in the NHS, on creating a culture of prioritising care, improving openness, detecting poor care and ensuring clear accountability. The total budget is worth £475,000 over a period of 30 months.	http://www.britac.ac.uk/funding/guide/serg.cfm
Supporting a culture of openness in the NHS – a policy evaluation	Department of Health including NIHR	01 Mar 16	Tenders due by 1pm.	Tenders	-	-	£475,000	The funder will conduct research to inform decisions about the future policy direction for dementia friendly communities, following the implementation of the Prime Minister's challenge on dementia 2020. The total budget is worth £450k over a period of 3 years.	http://www.prp-cdf.org.uk/
Creating dementia friendly communities – a policy evaluation	Department of Health including NIHR	01 Mar 16	Tenders due by 1pm.	Tenders	-	-	£450,000		http://www.prp-cdf.org.uk/

Programme development grants for applied research	Department of Health including NIHR	08 Mar 16	Competition 15 applications due between 15 December 2015 and 1pm, 8 March 2016; competition 16 applications due between 25 May and 1pm, 22 July 2016.	Directed grants to institutions, research groups etc, Networking/collaboration	£100,000	-	-	-	These support the completion of necessary preparatory work to submit a competitive stage two full programme grant application. Each grant is worth up to £100,000 over six to 18 months.	http://www.nihr.ac.uk/funding/pgd-calls-and-competitions.htm
Efficacy and mechanism evaluation programme – researcher-led workstream	Department of Health including NIHR	15 Mar 16	Applications due by 1pm. This call is repeated 3 times a year.	Technology innovation/development, Directed grants for individual investigators, Clinical trials, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	-	This supports research into interventions based in or used by the NHS and its partners, including clinical trials and evaluative studies of novel and repurposed interventions. There is no fixed limit on project duration. All funding should be clearly justified, but there is no upper limit.	http://www.nets.nihr.ac.uk/funding/eme-researcher-led
Efficacy and mechanism evaluation programme: commissioned call 15/149	Department of Health including NIHR	15 Mar 16	Applications due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Clinical trials	-	-	-	-	The remit of this call is to explore mechanisms underlying the effects of the intervention or the aetiology of the bipolar disorder itself.	http://www.nets.nihr.ac.uk/funding/eme-commissioned
Efficacy and mechanism evaluation programme – commissioned calls 15/176, 15/177, 15/178, 15/179	Department of Health including NIHR	15 Mar 16	Pre-proposals due by 1pm. This call is repeated 3 times a year.	Directed grants for individual investigators, Networking/collaboration, Directed grants to institutions, research groups etc	-	-	-	-	Proposals are sought for the following areas: delirium, graft versus host disease, use of cell therapies and mechanisms of action of health interventions. There are no fixed limits on the duration of projects. All funding requests should be justified, but there is no upper limit.	http://www.nets.nihr.ac.uk/funding/eme-commissioned
Efficacy and mechanism evaluation – researcher-led funding	Department of Health including NIHR	15 Mar 16	Pre-proposals due by 1pm. This call is repeated 3 times a year.	Networking/collaboration, Directed grants to institutions, research groups etc, Directed grants for individual investigators	-	-	-	-	This supports research into interventions based in or used by the NHS and its partners, including clinical trials and evaluative studies of novel and repurposed interventions. There is no fixed limit on project duration. All funding should be clearly justified, but there is no upper limit.	http://www.nets.nihr.ac.uk/funding/eme-researcher-led
Research for patient benefit programme – including obesity themed call	Department of Health including NIHR	23 Mar 16	Stage one applications due by 1pm, 23 March 2016; invited stage two applications may be submitted between mid June and late July 2016. This call is repeated 3 times a year.	Directed grants to institutions, research groups etc, Directed grants for individual investigators, Networking/collaboration	£350,000	-	-	-	Funding supports research that directly benefits users of the NHS in England, as well as the themed call on the prevention and treatment of obesity. Grants are worth up to £350,000 each for a maximum of three years.	http://www.nihr.ac.uk/funding/research-for-patient-benefit.htm
New media competition	Department of Health including NIHR	31 Mar 16	Entries due by 12 midnight. This call is repeated once a year.	Prizes, Publish, edit, translate, disseminate	£250	-	-	-	Funding enables candidates to communicate the research they are involved in and enthuse audiences about that research. Research may be clinical or applied health research, including social care, and may also relate to medical education. The prize winner receives a £250 book token. Runner up prizes are available.	http://www.nihr.ac.uk/our-faculty/new-media-competition.htm
Dental academic clinical fellowships	Department of Health including NIHR	31 Mar 16		Predoctoral training fellowships, Postdoctoral training fellowships, Early-Career fellowships	-	-	-	-	These provide a clinical and academic training environment for a dentist in the early stages of specialty training to prepare an application for a training fellowship leading to a PhD, or equivalent, or if applicable a postdoctoral fellowship. Fellowships are tenable for up to three years, or up to four years for general dental practitioners.	http://www.nihr.ac.uk/career-development-opportunities/nihr-acts-(dental)-2015--recruitment-is-now-open/2460
Academic clinical fellowships – dental	Department of Health including NIHR	31 Mar 16		Travel for research purposes, Travel to conferences, meetings etc., Directed grants for individual investigators, Postdoctoral training fellowships, Predoctoral training fellowships	-	-	-	-	These enable candidates to undertake specialist dental training as well as research or educationalist training. The NIHR provides £1,000 per financial year per trainee to the host dental school. The maximum duration of a fellowship is three years or four years for GPs.	http://www.nihr.ac.uk/funding/academic-clinical-fellowships.htm
Public health research programme – researcher-led call for proposals: 15/182, 15/183	Department of Health including NIHR	04 Apr 16	Proposals due by 1pm.	Equipment and materials, Directed grants for individual investigators, Networking/collaboration, Travel to conferences, meetings etc., Travel for research purposes, Directed grants to institutions, research groups etc	-	-	-	-	This supports research that evaluates public health interventions, specifically to provide new knowledge on the benefits, costs, acceptability and wider impacts of non-NHS interventions intended to improve the health of the public and reduce inequalities in health. There are no fixed limits on the duration of projects or funding and proposals should be tailored to fully address the problem.	http://www.nets.nihr.ac.uk/funding/phr-researcher-led
COMING SOON: Programme grants for applied research	Department of Health including NIHR	06 Apr 16	Applications due by 1pm.	Directed grants to institutions, research groups etc, Networking/collaboration, Innovation grants	-	-	-	-	The Department of Health's National Institute for Health Research will shortly be inviting applications for its programme grants for applied research. Applications for this call will open on 10 February 2016 and close on 6 April 2016. The following information is subject to change. This call aims to provide evidence to improve health outcomes in England through promotion of health, prevention of ill health, and optimal disease management, with particular emphasis on conditions causing significant disease burden.	http://www.nihr.ac.uk/funding/pgfar-guidance.htm
Efficacy and mechanism evaluation programme: commissioned call 15/185	Department of Health including NIHR	06 Apr 16	Applications due by 1pm.	Directed grants for individual investigators, Clinical trials, Networking/collaboration, Directed grants to institutions, research groups etc	-	-	-	-	The aim of this call is to explore mechanisms underlying the development of insulin resistance in obesity and interventions that may prevent or modify its development, though applications across the whole field of obesity are welcome. All funding requested should be clearly justified, but there is no upper limit.	http://www.nets.nihr.ac.uk/funding/eme-themed
Public health research programme – prevention and treatment of obesity	Department of Health including NIHR	06 Apr 16	Outline proposals due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	-	This aims to research issues such as prevention from type 2 diabetes and increasing levels of physical activity. There are no fixed limits on the duration or funding of projects.	http://www.nets.nihr.ac.uk/funding/phr-themed
Health services and delivery research programme – prevention and treatment of obesity	Department of Health including NIHR	06 Apr 16	Outline proposals due by 1pm.	Directed grants to institutions, research groups etc, Clinical trials, Directed grants for individual investigators, Networking/collaboration	-	-	-	-	This supports research into the quality, accessibility and organisation of health services, and in particular mixed method studies that focus on weight management services including bariatric surgery that address prevention and treatment of obesity in adults and children.	http://www.nets.nihr.ac.uk/funding/hshr-themed
Health technology assessment programme – prevention and treatment of obesity	Department of Health including NIHR	06 Apr 16	Outline proposals due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	-	This supports primary research or evidence synthesis on affordable interventions that are practicable to be delivered within the NHS and aims to research methods of prevention, treatment and management of obesity and overweight people with Type 2 diabetes.	http://www.nets.nihr.ac.uk/funding/hta-themed
Programme grants for applied research – obesity themed call	Department of Health including NIHR	06 Apr 16	Proposals due by 1pm.	Directed grants to institutions, research groups etc, Networking/collaboration	£2,500,000	-	-	-	This supports research into the evaluation of interventions or services for the prevention and treatment of obesity in adults and children. Grants have no fixed upper limit but it is unlikely that projects should receive more than £2.5 million. Feasibility studies and pilot trials are expected to be worth up to £500,000, or up to £1m for complex interventions.	http://www.nihr.ac.uk/funding-opportunities/programme-grants-for-applied-research-programme-obesity-themed-call/3181
Invention for innovation (I4) programme – obesity themed call	Department of Health including NIHR	06 Apr 16	Stage one applications due by 1pm, 6 April; stage two applications are invited between 20 July and 1pm, 14 September 2016.	Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration, Directed grants for individual investigators	-	-	-	-	Funding supports research-based evidence to underpin the prevention and management of overweight and obesity in adults and children. Issues of particular importance for this call include the prevention of type 2 diabetes and increasing levels of physical activity.	http://www.nihr.ac.uk/funding/i4-calls-and-competitions.htm

Health technology assessment programme: researcher-led workstream – 15/188	Department of Health including NIHR	08 Apr 16	Expressions of interest to full proposal due by 1pm.	Directed grants to institutions, research groups etc, Clinical trials, Directed grants for individual investigators, Networking/collaboration	-	-	-	This programme supports research that is immediately useful to patients, clinical practice, and policy and decision makers, assessing the effectiveness of technologies within the NHS.	http://www.nets.nihr.ac.uk/funding/hta-researcher-led
Health services and delivery research programme – researcher-led workstream	Department of Health including NIHR	14 Apr 16	Standard outlines and evidence synthesis proposals both due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	This supports research into the quality, effectiveness and accessibility of health services, including evaluations of how the NHS might improve delivery of services. NIHR will fund HEIs at a maximum of 80 per cent of full economic cost, and non-HEIs at 100 per cent of full economic cost.	http://www.nets.nihr.ac.uk/funding/hsdr-researcher-led
Public health research programme – commissioned calls for proposals: 15/129, 15/189, 15/193	Department of Health including NIHR	26 Apr 16	Proposals due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	This supports research on local interventions to reduce intake and harm from alcohol, interventions to build resilience in children and young people or preventing the uptake of smoking by children and young people.	http://www.nets.nihr.ac.uk/funding/phr-commissioned
Health technology assessment programme: researcher-led workstream – evidence synthesis – 15/187	Department of Health including NIHR	05 May 16	Applications due by 1pm.	Networking/collaboration, Clinical trials, Directed grants to institutions, research groups etc, Directed grants for individual investigators	-	-	-	This programme supports research that is immediately useful to patients, clinical practice, and policy and decision makers, assessing the effectiveness of technologies within the NHS.	http://www.nets.nihr.ac.uk/funding/hta-researcher-led
Health technology assessment programme: commissioned call 15/33	Department of Health including NIHR	19 May 16	Proposals due by 1pm.	Directed grants to institutions, research groups etc, Clinical trials	-	-	-	The HIA programme aims to ensure that high quality research information on the effectiveness, costs and broader impact of health technology is produced in the most efficient way for those who use, manage, provide care in or develop policies in the NHS. Proposals are sought for projects on promising pharmacological therapy for patients with treatment resistant bipolar depression.	http://www.nets.nihr.ac.uk/funding/hta-commissioned
Competition to select clinical research facilities for experimental medicine	Department of Health including NIHR	22 Jun 16	Applications are invited between early February and 1pm, 22 June 2016.	Institutional development, Travel for research purposes, Equipment and materials, Research centres, Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	£112,500,000	Funding aims to meet the necessary recurrent NHS infrastructure costs and NHS support costs of funded, world-class, early translational research that needs to be undertaken in dedicated, purpose-built, CRFs in England. The total budget is worth £112.5 million over five years.	http://www.nihr.ac.uk/funding-opportunities/competition-to-select-nihr-clinical-research-facilities/3234
UK in a changing Europe – commissioning fund	Economic and Social Research Council	03 Mar 16	This call is repeated 3 times a year.	Directed grants to institutions, research groups etc, Hosting conferences, Publish, edit, translate, disseminate, Directed grants for individual investigators, Networking/collaboration	-	-	-	This aims to promote high quality social scientific research into the nature of the relationship between the UK and EU, with a particular emphasis on making the findings of this research easily available to non-academic stakeholders. Grants are worth up to £9,999 each. Grants are worth up to £9,999 each, and three to four projects are expected to be funded.	http://www.esrc.ac.uk/funding/funding-opportunities/uk-in-a-changing-europe-commissioning-fund/
ESRC Future Cities Catapult partnership mid-career fellowship	Economic and Social Research Council	19 Mar 16	Expressions of interest due midnight.	Mid-Career fellowships, Directed grants for individual investigators	£108,000	-	-	This offers the fellows an opportunity to work as part of the Future Cities Catapult on projects relating to new business models, innovation and governance of urban infrastructure investment. The maximum amount available for the fellowship is £135,000 over 12 to 18 months.	http://www.esrc.ac.uk/funding/funding-opportunities/esrc-future-cities-catapult-partnership-mid-career-fellowship/
Transnational organised crime – cross-disciplinary innovation awards	Economic and Social Research Council	30 Mar 16	Applications are invited between 13 January and 4pm, 30 March 2016.	Directed grants for individual investigators, Networking/collaboration, Innovation grants, Directed grants to institutions, research groups etc	£100,000	-	-	This funds innovative research and networking activities which address transnational organised crime, from a range of cross-disciplinary approaches and research perspectives. Awards are worth £100,000 each, at full economic cost, for a duration of 18 months. The council expects to fund approximately 10 projects.	http://www.esrc.ac.uk/funding/funding-opportunities/paccs-transnational-organised-crime-call/
Research seminars and strategic network competition	Economic and Social Research Council	08 Apr 16	Proposals due by 4pm. This call is repeated once a year.	Hosting conferences, Academic-Industry links, Directed grants to institutions, research groups etc, Networking/collaboration, Directed grants for individual investigators	-	-	-	This supports the hosting of research seminars and strategic networks for groups of academic researchers, postgraduate students and non-academics users from different organisations. A total of 20 seminar series grants, worth up to £30,000 each, are available over two to three years. A total of four strategic network grants, worth up to £100,000 each at 100 per cent economic cost, are available for up to one year.	http://www.esrc.ac.uk/funding/funding-opportunities/research-seminars-competition/
Experiments and methodological innovation for longitudinal studies	Economic and Social Research Council	13 Apr 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Proposals are invited between 16 February and 13 April 2015. This call is repeated once a year.	Access to libraries	-	-	-	This call invites proposals for studies to be incorporated in the Understanding Society panel of data collection from wave nine onwards, with priority given to experiments related to: education; employment; family and household; health, health behaviours, wellbeing; income, housing, wealth, expenditure and deprivation.	https://www.understandingsociety.ac.uk/research/get-involved/innovation-panel-competition
Transnational call in maritime technologies	ERA-Net MARTEC II	29 Apr 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Proposals due by 5pm CET. This call is repeated once a year.	Directed grants to institutions, research groups etc, Networking/collaboration, Innovation grants, Technology innovation/development, Academic-Industry links	-	-	-	This supports collaborative research projects aiming at developing new knowledge, new technology and products, in order to improve European competitiveness and to address major societal needs. Funding is available for projects lasting a maximum of 36 months. Each country funds his participants and the form of reimbursement can vary from country to country.	https://www.martec-era.net/index.php?index=60
Transnational call on photovoltaics (PV4)	ERA-NET SOLAR-ERA.NET	11 Apr 16	Pre-proposals due by 5pm CET, 11 April; full proposals due by 5pm CET, 5 September 2016. All project partners must contact their funding contact point prior to submitting a pre-proposal.	Innovation grants, Directed grants to institutions, research groups etc, Academic-Industry links, Technology innovation/development, Research calls for business, Networking/collaboration	-	-	-	This aims to fund industrially relevant transnational research technology development and innovation projects in the field of solar electricity technologies. The project duration is limited to a maximum of 36 months.	http://www.solar-era.net/joint-calls/
Surface engineering and coating technologies for high-value manufacturing	Innovate UK	09 Mar 16	Registrations are invited between 11 January and 12 noon, 9 March; full applications due by 12 noon, 16 March 2016.	Innovation grants, Technology innovation/development, Networking/collaboration, Directed grants for individual investigators, Research calls for business, Academic-Industry links	-	-	£2,000,000	Funding supports technical feasibility studies that stimulate innovative new concepts and applications in surface engineering and coatings, including the creation and evaluation of innovative and accessible real-time process control technology; process informatics; surface or coating characterisation techniques; and integration of surface engineering and coating manufacturing technology with digital techniques, technology and design. The total budget is worth up to £2 million. Each project may receive between £50,000 and £150,000 for a period of six to 12 months.	https://interact.innovateuk.org/competition-display-page/?asset_publisher/RqE2AKmEBH/content/surface-engineering-and-coating-technologies-for-high-value-manufacturing
Driving UK capability through low carbon propulsion technologies	Innovate UK	23 Mar 16	Registrations are invited between 11 January and 12 noon, 23 March; full applications due by 12 noon, 30 March 2016.	Technology innovation/development, Directed grants to institutions, research groups etc, Innovation grants, Research calls for business, Networking/collaboration	-	-	£35,000,000	This supports collaborative R&D projects that deliver significant reductions in vehicle CO2 emissions, or other emissions compared to current best-in-class technologies, align with the Automotive Council Technology Group Roadmaps in terms of advanced propulsion solutions, and aim to develop the UK's supply chain in the field in order to develop on-vehicle technologies for either on-road or off-road vehicles. The total budget is worth up to £35 million. Projects may range in size from £5m to £40m and should last between 18 and 42 months.	https://interact.innovateuk.org/funding-competitions

UK-China research and innovation bridges competition	Innovate UK	23 Mar 16	Registrations are invited between 16 November 2015 and 12 noon UK time, 23 March 2016; full applications due by 12 noon UK time, 30 March 2016.	Networking/collaboration, Technology innovation/development, Academic-Industry links, Research calls for business, Directed grants to institutions, research groups etc, Innovation grants	-	-	£16,000,000	Funding supports collaborative R&D projects that propose new commercial solutions to critical challenges impacting the socio-economic growth and development of China in relation to energy, healthcare, urbanisation and agri-food. The total budget is worth up to £16 million. The total UK project cost is expected to range in size from £800,000 to £1m; however larger costs may be considered. Projects should last for up to two years.	https://interact.innovateuk.org/funding-competitions/-/competitions/view/china-uk-research-and-innovation-bridges-competition?p_auth=Xh9QM7wM
UK-India clean-tech, affordable healthcare and ICT – collaborative R&D	Innovate UK	13 Apr 16	Registrations are invited between 9 November 2015 and 12 noon UK time, 13 April 2016; full applications due by 12 noon UK time, 20 April 2016.	Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration, Technology innovation/development, Academic-Industry links, Research calls for business	-	-	£2,500,000	Funding supports industrial, collaborative R&D projects that demonstrate new solutions to challenges impacting the socio-economic growth and development of India, in relation to its clean-tech, healthcare and ICT sectors. The total budget is worth up to £2.5 million. Each project may receive between £350,000 and £450,000 over a maximum period of two years.	https://interact.innovateuk.org/funding-competitions?p_p_id=tsbcompitionssearchportal_WAR_tsbcompitionssearchportal&p_p_lifecycle=0&p_p_state=normal&p_p_mode=view&p_p_col_id=column-1&p_p_col_pos=2&p_p_col_count=4&tsbcompitionssearchportal_WAR_tsbcompitionssearchportal_tabName=frtbcmin
Energy game changer competition	Innovate UK	04 May 16	Registrations are invited between 28 March and 12 noon, 4 May; video submissions due by 12 noon, 11 May; invited full applications due by 12 noon 7 July 2016.	Technology innovation/development, Academic-Industry links, Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration, Research calls for business	-	-	£2,000,000	Funding supports technical feasibility studies which encourage new entrants into the energy sector and stimulate the adoption of disruptive technologies that address challenges faced by the energy sector. The total budget is worth up to £2 million. Each project may receive between £25,000 and £100,000 for a period of six to 12 months, although larger projects may be considered.	https://interact.innovateuk.org/competition-display-page/asset_publisher/RqE2AKmEBH/content/energy-game-changer
Third joint call on transmission dynamics	Joint Programming Initiative on Antimicrobial Resistance	21 Mar 16	Pre-proposals due by 5pm CET, 21 March; full proposals due by 5pm CET, 4 July 2016.	Directed grants to institutions, research groups etc, Networking/collaboration, Academic-Industry links	-	-	€30,000,000	This aims to combine the resources, infrastructures and research strengths of multiple countries in order to address transmission of antibiotic resistance following a one health approach. Projects may last up to three years. The overall budget for this call is €30 million.	http://www.piamr.eu/activities/piamr-3rd-joint-call-pji-ac-amr-era-net-cofund-call-on-transmission-dynamics/
ERA-NET Cofund smart urban futures	JPI Urban Europe	15 Mar 16	Pre-proposals due by 12 noon CET, 15 March; invited full proposals due by 12 noon CET, 20 September 2016.	Academic-Industry links, Institutional development, Networking/collaboration, Directed grants to institutions, research groups etc, Innovation grants	-	-	€23,500,000	This aims to create sustainable and economically viable urban areas. Projects may last up to three years. The overall budget for this call is €23.5 million. There are no fixed minimum or maximum limits for a project size.	http://jpi-urbaneurope.eu/ensuf-call/
Early-career fellowships	Leverhulme Trust	10 Mar 16	Applications are invited between 1 January and 4pm, 10 March 2016. This call is repeated once a year.	Directed grants for individual investigators, Early-Career fellowships	£90,000	-	-	These enable early-career researchers to undertake a significant piece of publishable work and to advance to a more permanent academic position. Each fellowship provides up to £24,000 per year to cover 50 per cent of the fellow's total salary costs and may include research expenses of up to £6,000 per year. Fellowships are tenable for three years full time, but the trust may consider part time requests.	http://www.leverhulme.ac.uk/funding/ECF/ECF.cfm
Major research fellowships in the humanities and social sciences	Leverhulme Trust	05 May 16	Applications are invited between 3 February and 4pm, 5 May 2016.	Directed grants for individual investigators, Senior fellowships, Mid-Career fellowships, Early-Career fellowships	-	-	-	These enable well-established researchers in the disciplines of the humanities and social sciences to devote themselves to a single research project. Fellowships are awarded for two to three years and cover salary costs for an individual to undertake the normal duties of the fellow, as well as research expenses worth up to £6,000 per year.	http://www.leverhulme.ac.uk/funding/MRF/MRF.cfm
Research leadership awards	Leverhulme Trust	10 May 16	Applications due by 4pm.	Grants - undirected, Travel for research purposes, Networking/collaboration	£1,000,000	£800,000	-	These awards support researchers with established university careers who wish to build a research team to address a distinct research problem. Awards are worth up to £1 million over a duration of four to five years.	http://www.leverhulme.ac.uk/funding/RLA/RLA.cfm
Visiting professorships	Leverhulme Trust	12 May 16	Applications due by 4pm. This call is repeated 2 times a year.	Institutional development, Hosting visits, Networking/collaboration, Equipment and materials, Grants - undirected	-	-	-	These enable UK institutions to host eminent researchers from overseas, primarily to enhance the skills of academic staff or students at the host institution. Funding covers maintenance, travel expenses and research costs and supports visits that last between three and 12 months. Travel within the UK, laboratory consumables and essential technical assistance may also be covered.	http://www.leverhulme.ac.uk/funding/VP/VP.cfm
Philip Leverhulme prizes	Leverhulme Trust	16 May 16	Nominations are invited between 4 January and 16 May 2016. This call is repeated once a year.	Prizes	£100,000	-	£3,000,000	These recognise the achievement of outstanding researchers whose work has attracted international recognition and whose future career is promising. Up to 30 awards are available, each worth £100,000 over two to three years.	http://www.leverhulme.ac.uk/funding/PLP/PLP.cfm
ESRC/PIC master's studentship scheme in population studies	London School of Economics and Political Science	30 Jun 16	This call is repeated once a year.	Directed grants for individual investigators, Studentship allocations, Financial aid for postgraduate students	£15,000	-	-	This aids the recruitment and initial development of students in demography by contributing to student fees and maintenance costs. Seven studentships are available, each worth up to £15,000.	http://www.lse.ac.uk/socialPolicy/researchcentresandgroups/PIC/ScholarshipScheme.aspx
COMING SOON: Biomedical catalyst – regenerative medicine research committee	Medical Research Council	17 Mar 16	Proposals are invited between 4 February 2016 and 4pm 17 March 2016. Deadlines on: 17 March 2016, 7 July 2016, 18 November 2016.	Networking/collaboration, Directed grants to institutions, research groups etc, Clinical trials, Innovation grants	-	-	-	*** The Medical Research Council will soon be inviting proposals for its call on regenerative medicine research committee under the biomedical catalyst programme. The opening of the call is scheduled for 4 February 2016. The following details are taken from the previous call and are subject to change. This supports the translation of fundamental discoveries that aim to develop regenerative medicine therapies in order to improve human health. ***	http://www.mrc.ac.uk/funding/browse/biomedical-catalyst-regenerative-medicine-research-committee/
Biomedical catalyst – developmental pathway funding scheme	Medical Research Council	29 Mar 16	Outline proposals due by 4pm on deadline dates. Full proposals by invitation only. Deadlines on: 25 March 2015, 28 July 2015, 2 December 2015, 29 March 2016, 27 July 2016, 1 December 2016, 29 March 2017.	Technology innovation/development, Innovation grants, Directed grants to institutions, research groups etc, Directed grants for individual investigators, Academic-Industry links, Networking/collaboration	-	-	-	This supports projects aiming to improve prevention, diagnosis, prognosis or treatment of significant health needs, or projects that focus on research tools which increase the efficiency of developing interventions.	http://www.mrc.ac.uk/funding/browse/developmental-pathway-funding-scheme/
Senior clinical fellowships	Medical Research Council	06 Apr 16	Applications are accepted between 24 February and 6 April 2016.	Senior fellowships, Directed grants for individual investigators, Equipment and materials, Travel for research purposes, Academic-Industry links, Networking/collaboration	-	-	-	These support medically and other clinically qualified professionals, with an effective track record of internationally competitive independent research, to make the transition to research leadership. Fellowships are tenable for five years and cover salary costs, support for research staff, consumable expenses, travel costs and capital equipment appropriate for the research project. There is no limit for funding.	http://www.mrc.ac.uk/skills-careers/fellowships/clinical-fellowships/senior-clinical-fellowship-scl/
Clinician scientist fellowships	Medical Research Council	06 Apr 16	Applications are accepted between 24 February and 6 April 2016.	Early-Career fellowships, Equipment and materials, Travel for research purposes, Directed grants for individual investigators, Networking/collaboration, Postdoctoral training fellowships, Academic-Industry links	-	-	-	These support medically and other clinically qualified professionals who have gained a higher research degree to lead their own research plans and establish their own research team to make the transition to independent investigator. Fellowships are tenable for four years and cover salary costs, support for research staff, consumable expenses, travel costs and capital equipment appropriate for the research project. There is no limit for funding.	http://www.mrc.ac.uk/skills-careers/fellowships/clinical-fellowships/clinician-scientist-fellowship-csf/

Senior non-clinical fellowship	Medical Research Council	27 Apr 16	Applications are accepted between 16 March and 4pm, 27 April; and between 12 August and 4pm, 22 September 2016.	Senior fellowships, Directed grants for individual investigators, Networking/collaboration, Travel for research purposes, Equipment and materials	-	-	-	-	This provides non-clinical researchers with a track record or excellence in their scientific field the opportunity to develop themselves into research leaders. The fellowship comprises salary costs, support for research staff, consumables expenses, capital equipment for the research project and travel costs under full economic costs. The fellowship may be awarded for up to seven years.	http://www.mrc.ac.uk/skills-careers/fellowships/non-clinical-fellowships/senior-non-clinical-fellowship-snc/
Career development award	Medical Research Council	27 Apr 16	Applications are accepted between 16 March and 4pm, 27 April 2016; and between 12 August and 4pm, 22 September 2016. Deadlines on: 24 September 2015, 27 April 2016, 22 September 2016.	Early-Career fellowships, Directed grants for individual investigators, Travel for research purposes, Networking/collaboration, Equipment and materials	-	-	-	-	This supports postdoctoral researchers who are not clinically active to consolidate their research skills and make the transition from postdoctoral researcher to independent investigator. The maximum duration of an award is five years. Applications are sought from researchers wishing to occupy laboratory space in research complex at Harwell and utilise its facilities. These awards are suitable for those wishing to establish their independent research career at the complex. The MRC will provide 80 per cent of full economic cost to the applicant's institution.	http://www.mrc.ac.uk/skills-careers/fellowships/non-clinical-fellowships/career-development-award-cda/
Opportunities to work in the new research complex at Harwell – career development awards	Medical Research Council	27 Apr 16	Applications are invited between 13 August and 24 September 2015, between 16 March and 27 April 2016, and between 12 August and 22 September 2016. Deadlines on: 24 September 2015, 27 April 2016, 22 September 2016.	Directed grants for individual investigators, Access to laboratories, telescopes etc., Travel for research purposes	-	-	-	-	These awards are suitable for those wishing to establish their independent research career at the complex. The MRC will provide 80 per cent of full economic cost to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/work-in-harwell/
Opportunities to work in the new research complex at Harwell – senior fellowships	Medical Research Council	27 Apr 16	Applications are invited between 16 March and 4pm, 27 April, and between 12 August and 4pm, 22 September 2016. Deadlines on: 24 September 2015, 27 April 2016, 22 September 2016.	Senior fellowships, Access to laboratories, telescopes etc., Travel for research purposes	-	-	-	-	These fellowships are suitable for exceptional researchers who wish to work in the new research complex at Harwell. The MRC will usually fund on the basis of 80 per cent of full economic costs.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/work-in-harwell/
Research grants – molecular and cellular medicine	Medical Research Council	04 May 16	Applications may be submitted between 29 July and 4pm, 9 September 2015; between 20 November 2015 and 4pm, 6 January 2016; and between 23 March and 4pm, 4 May 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Institutional development, Equipment and materials, Travel for research purposes	£1,000,000	-	-	-	These are suitable for focused research projects that may be short- or long-term in nature. In addition, they can be used to support method development and continuation of research facilities and may involve more than one research group or institution. Grants do not typically exceed £1 million. Funding is usually given on the basis of 80 per cent of full economic costs of the research to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/research-grant/
New investigator research grants – molecular and cellular medicine	Medical Research Council	04 May 16	Proposals may be submitted between 29 July and 4pm, 9 September 2015; between 20 November 2015 and 4pm, 6 January 2016; and between 23 March and 4pm, 4 May 2016.	Directed grants for individual investigators, Travel for research purposes, Publish, edit, translate, disseminate, Equipment and materials	-	-	-	-	These provide support for clinical and non-clinical researchers while they are establishing themselves as independent principal investigators. Grants are tenable for three or more years, and MRC usually funds on the basis of 80 per cent of full economic cost to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/new-investigator-research-grant/
Programme grants – molecular and cellular medicine	Medical Research Council	04 May 16	New applicants must contact the programme manager at least six weeks before the deadline. Proposals may be submitted between 29 July and 4pm, 9 September 2015; between 20 November 2015 and 4pm, 6 January 2016; and between 23 March and 4pm, 4 May 2016.	Equipment and materials, Travel for research purposes, Publish, edit, translate, disseminate, Directed grants to institutions, research groups etc	-	-	-	-	These provide large and long-term renewable funding. Funding is given on the basis of 80 per cent of full economic costs of research, for a maximum period of five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/programme-grant/
Opportunities to work in the new research complex at Harwell – research grants	Medical Research Council	04 May 16	Proposals may be submitted between 25 March and 4pm, 6 May 2015; between 29 July and 4pm, 9 September 2015; between 20 November 2015 and 4pm, 6 January 2016; and between 23 March and 4pm, 4 May 2016.	Directed grants to institutions, research groups etc, Directed grants for individual investigators, Access to laboratories, telescopes etc.	-	-	-	-	These enable researchers to occupy laboratory space in the Harwell research complex and utilise its facilities. Grants are awarded for any period of up to five years, and are funded on 80 per cent of full economic cost to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/work-in-harwell/
Partnership grant – molecular and cellular medicine	Medical Research Council	04 May 16	Applicants must contact the programme manager at least six weeks before the deadline. Applications may be submitted between 29 July and 4pm, 9 September 2015; between 20 November 2015 and 4pm, 6 January 2016; and between 23 March and 4pm, 4 May 2016.	Research centres, Equipment and materials, Studentship allocations, Networking/collaboration, Directed grants to institutions, research groups etc, Institutional development	-	-	-	-	This provides core funds to support partnerships between diverse groupings of researchers, and can be used for infrastructure support, platform activities and for bringing together managed consortia or multidisciplinary collaborations. Grants are funded on the basis of 80 per cent of full economic cost of research to the institution. Support can be requested for between one and five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/partnership-grant/
Research grants – infections and immunity	Medical Research Council	18 May 16	Proposals may be submitted between 20 November 2015 and 4pm, 13 January 2016; and between 23 March and 4pm, 18 May 2016.	Directed grants to institutions, research groups etc, Directed grants for individual investigators, Equipment and materials, Travel for research purposes, Publish, edit, translate, disseminate, Institutional development	£1,000,000	-	-	-	These are suitable for focussed research projects that may be short- or long-term in nature. In addition, they can be used to support method development and continuation of research facilities and may involve more than one research group or institution. Grants do not typically exceed £1 million. Funding is usually given on the basis of 80 per cent of full economic costs of the research to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/research-grant/
New investigator research grants – infections and immunity	Medical Research Council	18 May 16	Proposals may be submitted between 20 November 2015 and 4pm, 13 January 2016; and between 23 March and 4pm, 18 May 2016.	Directed grants for individual investigators, Travel for research purposes, Publish, edit, translate, disseminate, Equipment and materials	-	-	-	-	These provide support for clinical and non-clinical researchers while they are establishing themselves as independent principal investigators. Grants are tenable for three or more years, and MRC usually funds on the basis of 80 per cent of full economic cost to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/new-investigator-research-grant/
Partnership grant – infections and immunity	Medical Research Council	18 May 16	Applicants must contact the programme manager at least six weeks before the deadline. Proposals may be submitted between 29 July and 4pm, 23 September 2015; between 20 November 2015 and 4pm, 13 January 2016; and between 23 March and 4pm, 18 May 2016.	Studentship allocations, Research centres, Equipment and materials, Networking/collaboration, Directed grants to institutions, research groups etc, Institutional development	-	-	-	-	This provides core funds to support partnerships between diverse groupings of researchers, and can be used for infrastructure support, platform activities and for bringing together managed consortia or multidisciplinary collaborations. Grants are funded on the basis of 80 per cent of full economic cost of research to the institution. Support can be requested for between one and five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/partnership-grant/
Programme grants – infections and immunity	Medical Research Council	18 May 16	New applicants must contact the programme manager at least six weeks before the deadline. Proposals may be submitted between 29 July and 4pm, 23 September 2015; between 20 November 2015 and 4pm, 13 January 2016; and between 23 March and 4pm, 18 May 2016.	Travel for research purposes, Publish, edit, translate, disseminate, Equipment and materials, Directed grants to institutions, research groups etc	-	-	-	-	These provide large and long-term renewable funding. Funding is given on the basis of 80 per cent of full economic costs of research, for a maximum period of five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/programme-grant/
Research grants - population and systems medicine	Medical Research Council	25 May 16	Applications may be submitted between 29 July and 4pm, 30 September 2015; between 20 November 2015 and 4pm, 20 January 2016; and between 23 March and 4pm, 25 May 2016. Deadlines on: 27 May 2015, 30 September 2015, 20 January 2016, 20 January 2016, 25 May 2016, 25 May 2016, 29 September 2016, 19 January 2017.	Directed grants to institutions, research groups etc, Directed grants for individual investigators, Equipment and materials, Travel for research purposes, Institutional development, Publish, edit, translate, disseminate	£1,000,000	-	-	-	These are suitable for focussed research projects that may be short- or long-term in nature. In addition, they can be used to support method development and continuation of research facilities and may involve more than one research group or institution. Grants do not typically exceed £1 million. Funding is usually given on the basis of 80 per cent of full economic costs of the research to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/research-grant/
New investigator research grants – population and systems medicine	Medical Research Council	25 May 16	Applications may be submitted between 29 July and 4pm, 30 September 2015; between 20 November 2015 and 4pm, 20 January 2016; and between 23 March and 4pm, 25 May 2016. Deadlines on: 27 May 2015, 30 September 2015, 20 January 2016, 20 January 2016, 25 May 2016, 25 May 2016, 29 September 2016, 19 January 2017.	Directed grants for individual investigators, Publish, edit, translate, disseminate, Travel for research purposes, Equipment and materials	-	-	-	-	These provide support for clinical and non-clinical researchers while they are establishing themselves as independent principal investigators. Grants are tenable for three or more years, and MRC usually funds on the basis of 80 per cent of full economic cost to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/new-investigator-research-grant/

Partnership grant – population and systems medicine	Medical Research Council	25 May 16	Applicants must contact the programme manager at least six weeks before the deadline. Applications may be submitted between 29 July and 4pm, 30 September 2015; between 20 November 2015 and 4pm, 20 January 2016; and between 23 March and 4pm, 25 May 2016. Deadlines on: 27 May 2015, 30 September 2015, 20 January 2016, 20 January 2016, 25 May 2016, 25 May 2016, 29 September 2016, 19 January 2017.	Research centres, Equipment and materials, Studentship allocations, Networking/collaboration, Directed grants to institutions, research groups etc, Institutional development	-	-	-	-	This provides core funds to support partnerships between diverse groupings of researchers, and can be used for infrastructure support, platform activities and for bringing together managed consortia or multidisciplinary collaborations. Grants are funded on the basis of 80 per cent of full economic cost of research to the institution. Support can be requested for between one and five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/partnership-grant/
Programme grants – population and systems medicine	Medical Research Council	25 May 16	New applicants must contact the programme manager at least six weeks before the deadline. Applications may be submitted between 29 July and 4pm, 30 September 2015; between 20 November 2015 and 4pm, 20 January 2016; and between 23 March and 4pm, 25 May 2016. Deadlines on: 27 May 2015, 30 September 2015, 20 January 2016, 20 January 2016, 25 May 2016, 25 May 2016, 29 September 2016, 19 January 2017.	Travel for research purposes, Publish, edit, translate, disseminate, Equipment and materials, Directed grants to institutions, research groups etc	-	-	-	-	These provide large and long-term renewable funding. Funding is given on the basis of 80 per cent of full economic costs of research, for a maximum period of five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/programme-grant/
Skills development fellowships – quantitative expertise	Medical Research Council	16 Jun 16	Applications are invited between 5 May and 16 June 2016. This call is repeated once a year.	Postdoctoral training fellowships, Early-Career fellowships, Directed grants for individual investigators, Equipment and materials, Travel for research purposes	-	-	-	-	These support training for very early career researchers in, or individuals changing disciplines to, areas covering mathematics, statistics, computation and informatics applicable to any biomedical or health-related data sources. Fellowships are available for three years and they cover salary and costs for consumables, travel and capital equipment.	http://www.mrc.ac.uk/skills-careers/fellowships/skills-development-fellowships/
Skills development fellowships – expertise at the social science interface	Medical Research Council	16 Jun 16	Applications are invited between 5 May and 16 June 2016. This call is repeated once a year.	Early-Career fellowships, Postdoctoral training fellowships, Directed grants for individual investigators, Equipment and materials, Travel for research purposes	-	-	-	-	These support training for very early career researchers in, or individuals changing disciplines to, the areas of health economics and mixed methods research. Fellowships are available for three years and they cover salary as well as costs for consumables, travel and capital equipment appropriate for the research project.	http://www.mrc.ac.uk/skills-careers/fellowships/skills-development-fellowships/
Methodology research programme	Medical Research Council	21 Jun 16	Applications are invited between 10 May and 4pm, 21 June 2016.	Academic-Industry links, Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	-	This supports research on methods development to underpin the biomedical and health sciences as well as methods in research for developing methods and their implementation in research standards. Grants may be awarded for up to five years, but those of two years or less are for proof-of-principle or pilot work only.	http://www.mrc.ac.uk/funding/browse/methodology-research-programme/
Improved measurement methods for population science research	Medical Research Council	21 Jun 16	Proposals due by 4pm. Deadlines on: 17 June 2015, 19 November 2015, 21 June 2016.	Academic-Industry links, Technology innovation/development, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration, Innovation grants	-	-	-	-	This supports the development of novel and innovative tools for the measurement of participant characteristics in population studies.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/improved-measurement-population-science/
Missing data and the use of propensity scores	Medical Research Council	21 Jun 16	Proposals due by 4pm. Deadlines on: 17 June 2015, 19 November 2015, 21 June 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	-	This supports research aimed at further understanding the robustness of propensity scores and the results of the analysis adjusting for them. MRC is likely to fund one or two proposals in this area.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/missing-data-propensity-scores/
Multiple testing and subgroup analyses – deriving minimally biased estimates	Medical Research Council	21 Jun 16	Proposals due by 4pm. Deadlines on: 17 June 2015, 19 November 2015, 21 June 2016.	Directed grants to institutions, research groups etc, Directed grants for individual investigators	-	-	-	-	This supports methods development research aimed at better understanding the effect of bias in randomised controlled trials, particularly in multiple testing and subgroup analysis. MRC is likely to fund one or two proposals in this area.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/multiple-testing-subgroup-analyses/
Methods research for assessing quality of life in carers	Medical Research Council	21 Jun 16	Proposals due by 4pm. Deadlines on: 17 June 2015, 19 November 2015, 21 June 2016, 18 November 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	-	This supports high quality methods development research aimed at assessing quality of life of carers of people with cognitive impairment in the domestic environment. Projects may last for a maximum of three years.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/methods-research-quality-life-carers/
Methods research to support the use of observational data in clinical decision making	Medical Research Council	21 Jun 16	Proposals due by 4pm. Deadlines on: 17 June 2015, 19 November 2015, 21 June 2016, 18 November 2016.	Directed grants to institutions, research groups etc, Directed grants for individual investigators	-	-	-	-	This supports the development of innovative methods for identifying, synthesising, interpreting and presenting observational data for use in guidance development and clinical decision making.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/methods-research-observational-data/
Methodology for stratified medicine	Medical Research Council	21 Jun 16	Proposals due by 4pm. Deadlines on: 17 June 2015, 19 November 2015, 21 June 2016, 18 November 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	-	This supports high quality, investigator-led, methodological research into the challenges raised by stratifying patient groups.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/methodology-for-stratified-medicine/
Improving cross-sector comparisons – beyond QALY	Medical Research Council	21 Jun 16	Applications due by 4pm. Deadlines on: 19 November 2015, 21 June 2016, 18 November 2016.	Directed grants to institutions, research groups etc, Directed grants for individual investigators	-	-	-	-	This supports research into the possibility of creating a measure of quality of life or wellbeing, which would have utility across health and social care.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/improving-cross-sector-comparisons-beyond-qaly/
Methodology for eliciting expert opinion	Medical Research Council	21 Jun 16	Applications due between 8 October and 4pm, 19 November 2015; and between 10 May and 4pm, 21 June 2016. Deadlines on: 17 June 2015, 19 November 2015, 21 June 2016, 18 November 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	-	Proposals are particularly sought on the comparison of available expert elicitation protocols and software, the investigation of whether the mode of expert opinion elicitation affects results, methodology to identify and understand the range of opinions that are being obtained from an elicitation exercise and methods for synthesis of elicited expert opinion with other strands of evidence.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/methodology-for-eliciting-expert-opinion/
CRACK IT challenges	National Centre for the Replacement, Refinement and Reduction of Animals in Research	01 Mar 16	This call is repeated once a year.	Research calls for business, Directed grants for individual investigators, Academic-Industry links, Innovation grants, Directed grants to institutions, research groups etc, Technology innovation/development, Prototypes and demonstrations, Networking/collaboration	-	-	-	-	This competition aims to fund collaborations between industry sponsors, academics and the NC3Rs to support the development of marketable products or improved business processes. The budget available for the CRACK IT challenges scheme is worth between £50,000 and £1 million for up to three years, whereas for the CRACK IT single phase challenges it is worth up to £100,000 for up to one year.	https://interact.innovateuk.org/competition-display-page/asset_publisher/RqE12AKnEBhl/content/crack-it-2015
Community resource for wheat transformation	National Institute of Agricultural Botany	31 May 16		Directed grants to institutions, research groups etc, Directed grants for individual investigators	-	-	-	-	Funding provides capacity for genes to be transformed into wheat free of charge, with half of the resource reserved for researchers working on model crops to encourage early testing of novel genes in wheat, and the remaining half reserved for researchers working on cereal crops, wheat and barley.	http://www.niab.com/transgenic
Environmental science impact programme	Natural Environment Research Council	03 Mar 16	Outline proposals due by 4pm, 3 March; full proposals due by 4pm, 7 July 2016.	Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	£5,000,000	These enable research organisations to collaborate with business, policy bodies and other actors that contribute to the economic development specific to their location, in order to deliver significant regional impact from NERC environmental science. The total budget is worth between £2.5 million and £5m over a period of five years.	http://www.nerc.ac.uk/funding/available/schemes/aosp/

Large grants	Natural Environment Research Council	15 Mar 16	Outline proposals due by 15 March; full proposals due by 8 November 2016.	Networking/collaboration, Directed grants for individual investigators, Directed grants to institutions, research groups etc	£3,700,000	£1,200,000	-	These support adventurous, large-scale and complex research tackling big science questions that cannot be addressed through other funding opportunities from the Natural Environment Research Council. Grants range between £1.2 million and £3.7m at 100 per cent full economic cost, with a duration of up to five years.	http://www.nerc.ac.uk/funding/available/researchgrants/arge/
Knowledge exchange fellowship in marine renewable energy	Natural Environment Research Council	17 Mar 16	Applications are invited between 4 February and 4pm, 17 March 2016.	Travel for research purposes, Travel to conferences, meetings etc., Senior fellowships, Mid-Career fellowships, Directed grants to institutions, research groups etc, Academic-Industry links, Directed grants for individual investigators, Networking/collaboration, Early-Career fellowships	£40,000	-	-	This supports links between the academics and businesses within the UK marine renewable energy community, as well as with relevant regulators and policy makers. Funding up to £40,000 for a maximum period of three years may be requested, and the fellowship will be paid pro-rata at 80 per cent full economic costing in the same way as NERC research fellowships.	http://www.nerc.ac.uk/funding/available/schemes/kefellow/dkefellowcall/marinerecall/
Knowledge exchange fellowship – aquaculture	Natural Environment Research Council	17 Mar 16	Applications are accepted between 4 February and 4pm, 17 March 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Academic-Industry links, Networking/collaboration, Travel for research purposes, Hosting conferences	-	-	-	This supports links between the academics and businesses within the UK aquaculture community and provide expert input and advice to the UK aquaculture network. Fellowships are worth up to £100,000 per year and will be paid pro-rata at 80 per cent full economic cost. Fellowships are tenable for three years.	http://www.nerc.ac.uk/funding/available/schemes/kefellow/dkefellowcall/aquaculture/
Environmental risks to infrastructure – knowledge exchange fellowship call	Natural Environment Research Council	17 Mar 16	Applications are invited between 4 February and 4pm, 17 March 2016; full proposals due in June 2016.	Early-Career fellowships, Senior fellowships, Mid-Career fellowships, Travel for research purposes	£40,000	-	-	This aims to support infrastructure owners, operators, regulators and policy-makers to enable them to access and use environmental science to identify, quantify and manage environmental risks to infrastructure. The award is worth up to £40,000.	http://www.nerc.ac.uk/funding/available/schemes/kefellow/dkefellowcall/environmental/
Marine management organisation knowledge exchange fellowship – advancing the uptake of scientific research in marine management	Natural Environment Research Council	17 Mar 16	Applications due by 4pm.	Mid-Career fellowships, Senior fellowships, Early-Career fellowships, Directed grants for individual investigators, Networking/collaboration, Travel to conferences, meetings etc., Travel for research purposes	-	-	-	This aims to review current and recently completed scientific research and consider how this could be used within a governance framework, working with the Marine Management Organisation and other organisations with a stake in ensuring effective management of the marine environment, to advance the uptake of fundamental science into marine management in England. The fellowships will cover salary including superannuation, National Insurance and specific allowances for between one to three years. Additionally up to £40,000 is available for travel, subsistence and events attendance.	http://www.nerc.ac.uk/funding/available/schemes/kefellow/dkefellowcall/marine-management/
Arctic research station	Natural Environment Research Council	31 Mar 16	Late applications will be given consideration if there is space available. This call is repeated once a year.	Access to laboratories, telescopes etc., Networking/collaboration	-	-	-	This allows researchers from the UK and their international collaborators to carry out environmental research relevant to the NERC remit at the Ny-Ålesund station on the Svalbard archipelago.	http://www.arctic.ac.uk/infrastructure/research-station/access-to-the-station/
Longitude prize	Nesta	31 May 16	Deadlines for judging are every four months. The prize will remain open until it is won, or if there is no winner, until 31 December 2019. Deadlines on: 31 January 2016, 31 May 2016, 30 September 2016, 31 January 2017, 31 May 2017, 30 September 2017, 31 January 2018, 31 May 2018, 30 September 2018, 31 January 2019, 31 May 2019, 30 September 2019. !! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications are accepted between 27 February and 29 May 2015. This call is repeated once a year.	Prizes, Innovation grants	£8,000,000	-	£10,000,000	This rewards the development of a transformative point-of care diagnostic test to revolutionise the delivery of global healthcare and conserve antibiotics for future generations. The winner is awarded £8 million. £2m is awarded to support promising entries along the way.	http://www.longitudeprize.org/
Mary Seacole awards	NHS Employers	29 May 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications are accepted between 27 February and 29 May 2015. This call is repeated once a year.	Directed grants for individual investigators, Personal development	£12,500	-	-	These support specific healthcare projects or other educational or developmental activities that aim to improve the health outcomes of people from black and minority ethnic communities. Awards are worth up to £12,500 each. These aim to explore research questions on society, integrity and cyber-security through approaches from a variety of perspectives and social science disciplines, and to enable and encourage multidisciplinary research. The total budget is worth £4.2 million, which may fund up to five projects. Each project may receive between €750,000 and €1.25m for a period between three and four years.	http://www.nhsemployers.org/your-workforce/plan/building-a-diverse-workforce/get-involved/the-mary-seacole-awards
Collaborative research projects on society, integrity and cyber-security	Nordforsk	15 Mar 16	Applications due by 1pm CET.	Directed grants to institutions, research groups etc, Networking/collaboration	€1,250,000	€750,000	€4,200,000	These enable academic scientists to work on collaborative projects with industry, or individuals employed in industry to work on collaborative projects with university departments or non-profit research organisations. Fellowships support a period of up to two years and cover fellows' basic salary during the secondment as well as research expenses of up to £2,000 per year.	http://www.nordforsk.org/en/news/new-call-for-proposals-in-the-field-of-societal-security
Industry fellowships	Royal Society	24 Mar 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated 2 times a year.	Innovation grants, Mid-Career fellowships, Early-Career fellowships, Senior fellowships, Academic-Industry links, Networking/collaboration, Directed grants for individual investigators	-	-	-	The Royal Society of Edinburgh, in collaboration with the Biotechnology and Biological Sciences Research Council, will shortly be inviting applications for the BBSRC enterprise fellowships. The next deadline will be 4 May 2016, and more information is expected to be released shortly. The following call details are from the previous round, and are subject to change. These fellowships enable an individual to advance the commercialisation of existing research and outcomes or technological developments, whilst also receiving formal training in relevant business skills, with the objective to increase exploitation of ideas with commercial potential from BBSRC-funded research.	https://royalsociety.org/grants-schemes-awards/grants/industry-fellowship/
COMING SOON: BBSRC enterprise fellowships	Royal Society of Edinburgh	04 May 16	Applications due by 4pm.	Predoctoral training fellowships, Postdoctoral training fellowships, Travel for research purposes, Directed grants for individual investigators, Equipment and materials, Senior fellowships, Early-Career fellowships, Mid-Career fellowships	-	-	-	The Royal Society of Edinburgh, in collaboration with the Biotechnology and Biological Sciences Research Council, will shortly be inviting applications for the BBSRC enterprise fellowships. The next deadline will be 4 May 2016, and more information is expected to be released shortly. The following call details are from the previous round, and are subject to change. These fellowships enable an individual to advance the commercialisation of existing research and outcomes or technological developments, whilst also receiving formal training in relevant business skills, with the objective to increase exploitation of ideas with commercial potential from BBSRC-funded research.	http://www.royalsoced.org.uk/638_BBSRCEnterpriseFellowships.html
COMING SOON: STFC enterprise fellowships	Royal Society of Edinburgh	04 May 16	This call is repeated once a year.	Predoctoral fellowships, Academic-Industry links, Early-Career fellowships, Technology innovation/development, Directed grants for individual investigators, Innovation grants, Senior fellowships, Mid-Career fellowships	-	-	-	The Science and Technology Facilities Council, will shortly be inviting applications for the STFC enterprise fellowships. The next deadline will be 4 May 2016. More information is expected to be released shortly. The following call details are from the previous round, and are subject to change. These fellowships enable an individual to advance the commercialisation of existing research and outcomes or technological developments, whilst also receiving formal training in relevant business skills, with the objective to increase exploitation of ideas with commercial potential from STFC-funded research.	http://www.royalsoced.org.uk/637_STFCEnterpriseFellowships.html
Telescope time grants	Science and Technology Facilities Council	15 Mar 16	Deadlines on: 15 March 2016, 15 September 2016, and repeated annually.	Access to laboratories, telescopes etc., Travel for research purposes	-	-	-	These enable UK investigators to access a range of astronomy facilities. Grants support travel and subsistence costs, and facilities are free at the point of access.	http://www.stfc.ac.uk/1506

Innovations technology access centre challenge competition	Science and Technology Facilities Council	18 Mar 16	Applications due by 5pm.	Directed grants to institutions, research groups etc, Access to laboratories, telescopes etc.	-	-	-	This provides six months free access to the innovation technology access centre's laboratory space, facilities and expertise. The highest scoring entry will be awarded six months access to a self-contained laboratory and the third highest scoring entry will receive one month of access to the multi-user laboratory and associated equipment.	http://www.stfc.ac.uk/innovation/business-support/innovations-technology-access-centre/f-tac-challenge-competition/
PATT linked travel and subsistence grants	Science and Technology Facilities Council	01 Apr 16	Deadlines on: 1 April 2016, 1 October 2016.	Travel for research purposes, Access to laboratories, telescopes etc.	-	-	-	These provide travel and subsistence support for telescope time at STFC's astronomy facilities.	http://www.stfc.ac.uk/funding/research-grants/funding-opportunities/applying-for-time-on-stfc-astronomy-facilities
Beam time access – ISIS	Science and Technology Facilities Council	16 Apr 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated 2 times a year.	Access to laboratories, telescopes etc.	-	-	-	Academic and industry researchers may apply for free access to neutron and muon instruments, provided by the ISIS Centre for Research in the Physical and Life Sciences, in order to investigate the properties of materials on the atomic scale. The instruments are free to use, provided results from experiments are published in the public domain.	http://www.isis.stfc.ac.uk/apply-for-beamtime/apply-for-beamtime2117.html
Public engagement small awards scheme	Science and Technology Facilities Council	28 Apr 16	Proposals are invited between 17 February and 4pm, 28 April 2016. This call is repeated 2 times a year.	Travel for research purposes, Directed grants to institutions, research groups etc, Directed grants for individual investigators, Equipment and materials, Travel to conferences, meetings etc.	£10,000	£500	-	This supports small, local or pilot projects promoting science and technology. Awards range in size from £500 to £10,000 and may cover expenses for materials, salaries, travel and subsistence.	http://www.stfc.ac.uk/news/public-engagement-small-awards-scheme
Innovations partnership scheme	Science and Technology Facilities Council	04 May 16	Deadlines on: 4 May 2016, 7 September 2016, 27 January 2017, and repeated annually.	Academic-Industry links, Technology innovation/development, Directed grants to institutions, research groups etc, Networking/collaboration, Innovation grants	£360,000	-	-	This aims to transfer technology and expertise developed through STFC funding to the marketplace in partnership with industry and other academic disciplines. A maximum of £120,000 is available for mini IPS projects, and a maximum of £360,000 is available for standard IPS projects, which correspond to 80 per cent of full economic costs.	http://www.stfc.ac.uk/funding/working-with-industry/innovations-partnership-scheme/
COMING SOON: Mini-IPS awards	Science and Technology Facilities Council	04 May 16	Applications due between 1 December 2015 and 27 January 2016, between 1 April and 4 May 2016, and between 1 August and 7 September 2016.	Networking/collaboration, Technology innovation/development, Academic-Industry links, Research calls for business	£150,000	-	-	The Science and Technology Facilities Council, under its innovation partnerships scheme, has issued a new deadline for its mini-IPS awards. Proposals are due between 1 December 2015 and 27 January 2016, between 1 April and 4 May 2016, and between 1 August and 7 September 2016. Particulars for the 2016 call are yet to be announced. The following information relates to the 2015 announcement. This scheme enables the applicant to transfer technology and expertise developed through STFC funding to the marketplace in partnership with industry and other academic disciplines. Funding is worth up to £150,000 at 80 per cent of full economic costs.	http://www.stfc.ac.uk/search-results/?Keywords=+mini-ips+awards&display=search&newSearch=true&noCache=1
COMING SOON: Follow-on funding	Science and Technology Facilities Council	04 May 16	Applications due between 1 December 2015 and 27 January 2016, between 1 April and 4 May 2016, and between 1 August and 7 September 2016.	Directed grants to institutions, research groups etc, Academic-Industry links, Technology innovation/development, Directed grants for individual investigators	-	-	-	The Science and Technology Facilities Council, under its innovation partnerships scheme, has issued a new deadline for its follow-on funding. Proposals are due between 1 December 2015 and 27 January 2016, between 1 April and 4 May 2016, and between 1 August and 7 September 2016. Particulars for the 2016 call are yet to be announced. The following information relates to the 2015 announcement. Funding provides financial support at the very early or pre-seed stage of turning research outputs into a commercial proposition. ***	http://www.stfc.ac.uk/funding/working-with-industry/commercialisation/follow-on-funding/
COMING SOON: Innovation partnership scheme awards	Science and Technology Facilities Council	04 May 16	Applications due between 1 December 2015 and 27 January 2016, between 1 April and 4 May 2016, and between 1 August and 7 September 2016.	Directed grants to institutions, research groups etc, Networking/collaboration, Academic-Industry links, Innovation grants	£450,000	-	-	*** The Science and Technology Facilities Council, under its innovation partnerships scheme, has issued a new deadline for its innovation partnership scheme awards. Proposals are due between 1 December 2015 and 27 January 2016. Particulars for the 2016 call are yet to be announced. The following information relates to the 2015 announcement. The scheme supports the collaborative development of technology by UK universities and laboratories, CERN, the European Southern Observatory, UK industry and research sector organisations, and its transfer to the marketplace in partnership with industry and other academic disciplines. Awards are worth up to £150,000 per year for a maximum of three years. ***	http://www.stfc.ac.uk/index.cfm
End-user driven demonstration activities	University of Birmingham	30 Apr 16	Deadlines on: 31 January 2016, 30 April 2016, 31 July 2016, 31 October 2016, 31 January 2017.	Research calls for business, Networking/collaboration, Prototypes and demonstrations, Directed grants to institutions, research groups etc, Innovation grants, Academic-Industry links, Technology innovation/development	-	-	£5,200,000	Funding supports activities that target the translation of quantum science and technology to solution prototypes and demonstrators. Activities include feasibility studies, research and innovation projects, and coordination and support actions. Grants are worth up to £500,000 each depending on the activity.	http://www.birmingham.ac.uk/generic/quantum/funding/151125-Call-for-Proposals.aspx
New academic collaborations	University of Birmingham	30 Apr 16	Deadlines on: 31 January 2016, 30 April 2016, 31 July 2016, 31 October 2016, 31 January 2017.	Prototypes and demonstrations, Networking/collaboration, Directed grants to institutions, research groups etc, Academic-Industry links	-	-	£5,200,000	Funding supports engagement and collaboration with new academic groups whose research aligns with and complements the activities and capabilities of the existing hub partners. There are no restrictions of project size. Projects are funded at 80 per cent academic direct costs only. Capital items are not eligible costs.	http://www.birmingham.ac.uk/generic/quantum/funding/151125-Call-for-Proposals.aspx
Mitochondrial medicine – developing new treatments for mitochondrial disease conference bursaries	Wellcome Trust	02 Mar 16		Travel to conferences, meetings etc., Directed grants for individual investigators	-	-	-	The conference, to be held from 4 to 6 May 2016 at the campus, will bring together world leaders in the field of translational mitochondrial medicine in an interactive programme designed to engage and a new generation of mitochondrial researchers. Each bursary funds up to 50 per cent of registration costs for a PhD student.	https://registration.hinxton.wellcome.ac.uk/events/item.aspx?e=572
Arts awards – small to medium-sized projects	Wellcome Trust	04 Mar 16	Applications due by 5pm. Deadlines on: 7 August 2015, 27 November 2015, 4 March 2016, 3 June 2016.	Travel to conferences, meetings etc., Publish, edit, translate, disseminate, Equipment and materials, Directed grants to institutions, research groups etc, Networking/collaboration, Directed grants for individual investigators, Travel for research purposes	£40,000	-	-	These support creative collaborations that stimulate interest, excitement and debate about biomedical science through the arts, examine the social, cultural and ethical impact of biomedical science, and support formal and informal learning. Awards are worth up to £40,000 each for a maximum period of three years.	http://www.wellcome.ac.uk/Funding/Public-engagement/Funding-schemes/Arts-Awards/index.htm
Society awards	Wellcome Trust	11 Mar 16	Applications due by 5pm. This call is repeated 2 times a year.	Directed grants to institutions, research groups etc, Directed grants for individual investigators, Networking/collaboration, Publish, edit, translate, disseminate	-	£40,000	-	These support projects that enable the public to explore biomedical science, its impact on society and culture, its historical roots and the ethical questions that it raises. Grants value starts from £40,000 for up to three years.	http://www.wellcome.ac.uk/Funding/Public-engagement/Funding-schemes/People-Awards-and-Society-Awards/index.htm

Molecular biology of hearing and deafness conference bursaries	Wellcome Trust	22 Mar 16		Directed grants for individual investigators, Travel to conferences, meetings etc.	-	-	-	-	The conference, to be held from 17 to 20 May 2016 at the campus, highlight and discuss recent discoveries in the field: new genes involved in deafness and new pathways that underlie the development, function, repair and regeneration of the auditory system. Each bursary covers registration costs for a PhD student or junior postdoctoral researcher. These enable individuals to undertake a humanities or social science doctoral degree in any area of human and animal health, at a university in the UK, Republic of Ireland or low-to-middle income country. Studentships are available for up to three years and cover the student's stipend, university and college fees, as well as travel, equipment and research expenses. Fees at the overseas rate will only be considered for applicants who are from low- or middle-income countries.	https://registration.hinxton.wellcome.ac.uk/events/item.aspx?e=577
Humanities and social science doctoral studentships	Wellcome Trust	30 Mar 16		Financial aid for postgraduate students, Travel for research purposes, Travel to conferences, meetings etc., Directed grants for individual investigators	-	-	-	-	These support small and medium-scale research projects based on library or archive collections supported by the trust. Bursaries are usually worth between £5,000 and £25,000, depending on the duration of research.	http://www.wellcome.ac.uk/Funding/Humanities-and-social-science/Funding-schemes/Doctoral-Studentships/index.htm
Medical humanities research bursaries	Wellcome Trust	01 Apr 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Deadlines on: 1 April 2016, 1 October 2016, and repeated annually.	Access to libraries, Travel for research purposes, Publish, edit, translate, disseminate	£25,000	£5,000	-	-	These support medical, dental, veterinary or clinical psychology graduates who wish to develop a long-term career in academic medicine. Fellowships normally provide a salary and research expenses for a period of two to three years, however in exceptional cases the funding period may be extended to four years.	http://www.wellcome.ac.uk/Funding/Medical-humanities/Funding-schemes/Research-resources-awards/Research-bursaries/index.htm
Research training fellowships	Wellcome Trust	04 Apr 16	Applications due by 5pm on deadline dates. The last full application deadline is 4 April 2016. Deadlines on: 4 December 2015, 4 April 2016.	Directed grants for individual investigators, Travel for research purposes, Travel to conferences, meetings etc., Predoctoral training fellowships, Equipment and materials, Financial aid for postgraduate students	-	-	-	-	These enable postdoctoral scientists to become independent research scientists and undertake research at an institution in the Republic of Ireland. Fellowships are tenable for five years and provide a basic salary, research expenses, overseas allowances, travel and subsistence costs and provision for public engagement costs.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Clinical-fellowships/WTD004435.htm
Research career development fellowships in basic biomedical science	Wellcome Trust	12 Apr 16	Preliminary applications due by 5pm, 12 April; invited full applications due by 5pm, 21 June 2016.	Publish, edit, translate, disseminate, Equipment and materials, Travel for research purposes, Directed grants for individual investigators, Early-Career fellowships	-	-	-	-	These support postdoctoral scientists who wish to build their own UK-based independent research career to address an important biomedical question. Fellowships are tenable for five years in the first instance, with the potential to apply for competitive renewal for an additional three years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTD004431.htm
Sir Henry Dale fellowships	Wellcome Trust	12 Apr 16	Preliminary applications due by 5pm, 12 April; invited full applications due by 5pm, 21 June 2016. This call is repeated 3 times a year.	Networking/collaboration, Travel for research purposes, Early-Career fellowships, Mid-Career fellowships, Directed grants for individual investigators	-	-	-	-	These enable newly qualified postdoctoral researchers to make an early start in developing their independent research careers, working in the best laboratories in the UK and overseas. Fellowships provide £250,000 over four years, covering salary and research expenses.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTDV031823.htm
Virus genomics and evolution conference bursaries	Wellcome Trust	12 Apr 16		Directed grants for individual investigators, Travel to conferences, meetings etc.	-	-	-	-	The conference, to be held from 8 to 10 June 2016 at the campus, will provide a multidisciplinary forum for scientists interested in the genomics and evolutionary analysis of viruses and will address the fundamental questions of viral origins, transmission and pathogenesis. Each bursary, funded by Action on Hearing Loss, covers up to 50 per cent of registration costs for a PhD student or junior postdoctoral researcher.	https://registration.hinxton.wellcome.ac.uk/events/item.aspx?e=587
Translation fund	Wellcome Trust	15 Apr 16	Concept notes due by 5pm GMT, 15 April; invited preliminary applications due by 5pm GMT, 13 June 2016. This call is repeated 2 times a year.	Directed grants to institutions, research groups etc, Technology innovation/development, Innovation grants, Networking/collaboration, Publish, edit, translate, disseminate, Travel for research purposes, Equipment and materials, Academic-Industry links	-	-	-	-	Awards support the development of innovative and ground breaking technologies that address an unmet healthcare need in the biomedical area. Funding covers direct costs of the project, including modest equipment purchase and maintenance costs.	http://www.wellcome.ac.uk/Funding/Technology-transfer/Awards/Translation-Fund/index.htm
Career re-entry fellowships in biomedical science	Wellcome Trust	02 May 16	Preliminary applications due by 5pm, 2 May; full applications due by 5pm, 4 July 2016.	Publish, edit, translate, disseminate, Equipment and materials, Senior fellowships, Postdoctoral training fellowships, Mid-Career fellowships, Travel to conferences, meetings etc., Travel for research purposes	-	-	-	-	These support postdoctoral scientists who have recently decided to recommence a scientific research career after a break of at least two years. Fellowships are tenable for two to four years and cover a salary, research expenses and public engagement costs, as well as modest requests for equipment and funding for re-training.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTD004380.htm
Sir Henry Wellcome postdoctoral fellowships	Wellcome Trust	02 May 16	Preliminary applications due by 5pm, 2 May; invited full applications due by 5pm, 4 July 2016.	Early-Career fellowships, Equipment and materials, Travel for research purposes, Travel to conferences, meetings etc., Directed grants for individual investigators	£250,000	-	-	-	These support individuals to undertake any humanities or social science master's course which has a predominant focus on human or animal health. Awards include a stipend, as well as UK home student level fees, for one year. Applicants must not have already received postgraduate study support from another funding body.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTX033549.htm
Master's awards in humanities and social science	Wellcome Trust	02 May 16	This call is repeated once a year.	Directed grants for individual investigators, Financial aid for postgraduate students	-	-	-	-	Funding is available to facilitate early-stage small molecule drug discovery that will be the springboard for further research and development by the biotechnology and pharmaceutical industry in areas of unmet medical need. Projects are supported for up to four years, depending on the stage of development.	http://www.wellcome.ac.uk/Funding/Humanities-and-social-science/Funding-schemes/Masters-awards/index.htm
Seeding drug discovery	Wellcome Trust	04 May 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications due by 5pm GMT.	Technology innovation/development, Directed grants to institutions, research groups etc, Innovation grants	-	-	-	-	This scheme provides capital funding for large-scale projects that support public engagement or medical history. Awards are normally worth over £200,000.	http://www.wellcome.ac.uk/Funding/Innovations/Awards/Seeding-Drug-Discovery/index.htm
Capital funding for public engagement and medical history	Wellcome Trust	13 May 16	This call is repeated once a year.	Buildings (renovation/refurbishment), Equipment and materials, Directed grants to institutions, research groups etc, General operating support	-	£200,000	-	-	These enable medical, dental, veterinary or clinical psychology graduates to continue their research interests at a postdoctoral level in an appropriate unit or clinical research facility. Fellowships provide research expenses and a salary for up to four or five years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Clinical-fellowships/WTD004402.htm
Intermediate clinical fellowships	Wellcome Trust	18 May 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 5pm, 18 May and 5pm, 30 October 2015; invited full applications due by 5pm, 13 July 2015 and 5pm, 11 January 2016.	Publish, edit, translate, disseminate, Travel to conferences, meetings etc., Early-Career fellowships, Equipment and materials, Travel for research purposes, Postdoctoral training fellowships, Directed grants for individual investigators	-	-	-	-	These support groups of independent researchers pursuing problems across the areas of science, medical humanities, society and ethics, and innovation. Awards are normally worth up to £4 million over a period of up to five years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Science-collaborative-awards/index.htm
Collaborative awards in science	Wellcome Trust	23 May 16	Preliminary applications due by 23 May; full applications due by 12 September 2016.	Networking/collaboration, Directed grants to institutions, research groups etc, Equipment and materials, Travel for research purposes	£4,000,000	-	-	-	These support outstanding postdoctoral scientists based in academic institutions in the UK and the Republic of Ireland. Fellowships are tenable for five years in the first instance, and provide a basic salary, normally of up to £65,000 per year, with an additional trust supplement of £12,500 per year, research programme costs, including equipment and collaborative travel, inflation allowance and public engagement costs.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WTD004442.htm
Senior research fellowships in basic biomedical science	Wellcome Trust	24 May 16	Preliminary applications due by 5pm, 24 May; full applications due by 5pm, 27 July 2016. This call is repeated 3 times a year.	Senior fellowships, Equipment and materials, Networking/collaboration, Travel for research purposes, Travel to conferences, meetings etc., Publish, edit, translate, disseminate, Mid-Career fellowships	-	-	-	-		

Senior research fellowships in clinical science	Wellcome Trust	24 May 16	Preliminary applications due by 5pm, 24 May; full applications due by 5pm, 27 July 2016. This call is repeated 3 times a year.	Senior fellowships, Equipment and materials, Networking/collaboration, Travel for research purposes, Travel to conferences, meetings etc., Publish, edit, translate, disseminate, Directed grants for individual investigators	-	-	-	These enable clinical investigators to further develop their research potential and to establish themselves as leading investigators in clinical academic medicine. Fellowships are tenable for five years and cover basic salary, research expenses, including equipment and collaborative travel, inflation allowance and public engagement costs. Additional funding is available to enable institutions to recruit exceptional scientists to the UK from overseas.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Clinical-fellowships/WTD004445.htm
Pathfinder awards	Wellcome Trust	20 Jun 16	Deadlines on: 23 November 2015, 20 June 2016.	Networking/collaboration, Research calls for business, Technology innovation/development, Academic-Industry links, Directed grants to institutions, research groups etc. Innovation grants	£350,000	-	-	These support innovative early-stage applied R&D projects in areas of unmet medical need. Awards are usually capped at £100,000 each over a maximum period of 18 months. Awards worth up to £350,000 may be considered in exceptional cases.	http://www.wellcome.ac.uk/Funding/Technology-transfer/Awards/Pathfinder-Awards/index.htm
