

Opportunity name	Primary funder name	Closing date	Deadline information	Award type	Award amount max	Award amount min	Award budget total	Summary text	Website
Master's awards in humanities and social science	Wellcome Trust	02 May 16	This call is repeated once a year.	Directed grants for individual investigators, Financial aid for postgraduate students	-	-	-	These support individuals to undertake any humanities or social science master's course which has a predominant focus on human or animal health. Awards include a stipend, as well as UK home student level fees, for one year. Applicants must not have already received postgraduate study support from another funding body.	http://www.wellcome.ac.uk/Funding/Humanities-and-social-science/Funding-schemes/Masters-awards/index.htm
EXTENDED DEADLINE: Career re-entry fellowships in biomedical science	Wellcome Trust	03 May 16	First round preliminary applications due by 5pm, 3 May; full applications due by 5pm, 4 July; second round preliminary applications due by 5pm, 10 October; invited full applications due by 5pm, 13 December 2016.	Publish, edit, translate, disseminate. Equipment and materials, Senior fellowships, Postdoctoral training fellowships, Mid-Career fellowships, Travel to conferences, meetings etc., Travel for research purposes	-	-	-	The Wellcome Trust has extended the deadline for preliminary applications for its career re-entry fellowships in biomedical science from 2 to 3 May 2016. All other call information remains unchanged. Fellowships support postdoctoral scientists who have recently decided to recommence a scientific research career after a break of at least two years. Fellowships are tenable for two to four years and cover a salary, research expenses and public engagement costs, as well as modest requests for equipment and funding for research.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WT004380.htm
EXTENDED DEADLINE: Sir Henry Wellcome postdoctoral fellowships	Wellcome Trust	03 May 16	First round preliminary applications due by 5pm, 3 May; invited full applications due by 5pm, 4 July; second round preliminary applications due by 5pm, 10 October; invited full applications due by 5pm, 13 December 2016.	Early-Career fellowships, Equipment and materials, Travel for research purposes, Travel to conferences, meetings etc., Directed grants for individual investigators	£250,000	-	-	The Wellcome Trust has extended the deadline for preliminary applications for the Sir Henry Wellcome postdoctoral fellowships from 2 to 3 May 2016. All other call information remains unchanged. Fellowships enable newly qualified postdoctoral researchers to make an early start in developing their independent research careers, working in the best laboratories in the UK and overseas. Fellowships provide £250,000 over four years, covering salary and research expenses.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Fellowships/WTX033549.htm
ESRC/NRF Newton call – higher education in Africa	Economic and Social Research Council	03 May 16	Applications due by 4pm UK time and 5pm South Africa time.	Directed grants for individual investigators, Innovation grants, Directed grants to institutions, research groups etc	£630,000	£415,000	£2,500,000	This supports collaborative projects between UK and South African researchers addressing topics relating to higher education in South Africa and wider Africa. Each proposal may request between £415,000 and £630,000 at 100 per cent full economic cost from the ESRC and between ZAR1.67m and ZAR2.5m from NRF over 30 months' duration.	http://www.esrc.ac.uk/funding/funding-opportunities/pre-call-announcement-under-the-newton-fund/
Research grants – molecular and cellular medicine	Medical Research Council	04 May 16	Proposals may be submitted between 23 March and 4pm, 4 May 2016; between 25 July and 4pm, 7 September 2016; between 18 November 2016 and 4pm, 5 January 2017. Deadlines on: 4 May 2016, 7 September 2016, 5 January 2017.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Publish, edit, translate, disseminate, Institutional development, Equipment and materials, Travel for research purposes	£1,000,000	-	-	These are intended for focused research projects that may be short- or long-term in nature that can be used to support method development and continuation of research facilities and may involve more than one research group or institution. Grants do not typically exceed £1 million for up to five years. Funding is usually given on the basis of 80 per cent of full economic costs of the research to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/research-grant/
BBSRC enterprise fellowships	Royal Society of Edinburgh	04 May 16	Applications due by 4pm.	Predoctoral training fellowships, Postdoctoral training fellowships, Travel for research purposes, Directed grants for individual investigators, Equipment and materials, Senior fellowships, Early-Career fellowships, Mid-Career fellowships	-	-	-	These enable an individual to advance the commercialisation of existing research and outcomes or technological developments, whilst also receiving formal training in relevant business skills, with the objective to increase exploitation of ideas with commercial potential from BBSRC-funded research programmes. Fellowships are tenable for one year, and provide a salary within the scales for research staff in higher education institutions.	http://www.roysoced.org.uk/638_BBSRCEnterpriseFellowships.html
New investigator research grant – molecular and cellular medicine	Medical Research Council	04 May 16	Proposals may be submitted between 23 March and 4pm, 4 May 2016; between 25 July and 4pm, 7 September 2016; and between 18 November 2016 and 4pm, 5 January 2017.	Directed grants for individual investigators, Travel for research purposes, Publish, edit, translate, disseminate, Equipment and materials	-	-	-	This aims to support researchers who are capable of becoming independent principal investigators and who are ready to take the next step towards that goal within the areas of molecular and cellular medicine. Grants are tenable for three years; however, in exceptional cases applications for longer periods of time may be accepted.	http://www.mrc.ac.uk/funding/how-we-fund-research/new-investigator-research-grant/
Innovations partnership scheme	Science and Technology Facilities Council	04 May 16	Deadlines on: 4 May 2016, 7 September 2016, 27 January 2017, and repeated annually.	Academic-Industry links, Technology innovation/development, Directed grants to institutions, research groups etc, Networking/collaboration, Innovation grants	£360,000	£88,000	-	This scheme enables the applicant to transfer technology and expertise developed through STFC funding to the marketplace in partnership with industry and other academic disciplines. A maximum of £120,000 is available per year for mini and standard IPS projects, which correspond to 80 per cent of full economic costs. Mini IPS projects have a duration of up to one year and standard IPS projects have a duration of three years. A maximum of £88,000 is available for the follow-on funding, which has a maximum duration of one year.	http://www.stfc.ac.uk/funding/working-with-industry/innovations-partnership-scheme/
Mini-IPS awards	Science and Technology Facilities Council	04 May 16	Applications due between 1 April and 4 May 2016, and between 1 August and 7 September 2016.	Networking/collaboration, Technology innovation/development, Academic-Industry links, Research calls for business	£150,000	-	-	This scheme enables the applicant to transfer technology and expertise developed through STFC funding to the marketplace in partnership with industry and other academic disciplines. Funding is worth up to £150,000 at 80 per cent of full economic costs. Projects may last up to one year.	http://www.stfc.ac.uk/funding/working-with-industry/innovations-partnership-scheme/
COMING SOON: Follow-on funding	Science and Technology Facilities Council	04 May 16	Applications due between 1 December 2015 and 27 January 2016, between 1 April and 4 May 2016, and between 1 August and 7 September 2016.	Directed grants to institutions, research groups etc, Academic-Industry links, Technology innovation/development, Directed grants for individual investigators	-	-	-	The Science and Technology Facilities Council has issued a new deadline for its follow-on funding. Proposals are due between 1 December 2015 and 27 January 2016, between 1 April and 4 May 2016, and between 1 August and 7 September 2016. Particulars for the 2016 call are yet to be announced. The following information relates to the 2015 announcement. Funding provides financial support at the very early or pre-seed stage of turning research outputs into a commercial proposition.	http://www.stfc.ac.uk/funding/working-with-industry/commercialisation/follow-on-funding/
Programme grants – molecular and cellular medicine	Medical Research Council	04 May 16	New applicants must contact the programme manager at least six weeks before the deadline. Proposals may be submitted between 23 March and 4pm, 4 May 2016; between 25 July and 4pm, 7 September 2016; between 18 November 2016 and 4pm, 5 January 2017. Deadlines on: 4 May 2016, 7 September 2016, 5 January 2017.	Equipment and materials, Travel for research purposes, Publish, edit, translate, disseminate, Directed grants to institutions, research groups etc	-	-	-	These provide large and long-term renewable funding. Funding is given on the basis of 80 per cent of full economic costs of research, for a maximum period of five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/programme-grant/
Opportunities to work in the new research complex at Harwell – research grants	Medical Research Council	04 May 16	Proposals may be submitted between 23 March and 4pm, 4 May 2016; between 25 July and 4pm, 7 September 2016; between 18 November 2016 and 4pm, 5 January 2017. Deadlines on: 4 May 2016, 7 September 2016, 5 January 2017. Applicants must contact the programme manager at least six weeks before the deadline. Proposals may be submitted between 23 March and 4pm, 4 May 2016; between 25 July and 4pm, 7 September 2016; between 18 November 2016 and 4pm, 5 January 2017. Deadlines on: 4 May 2016, 7 September 2016, 5 January 2017.	Directed grants to institutions, research groups etc, Directed grants for individual investigators, Access to laboratories, telescopes etc.	-	-	-	These enable researchers to occupy laboratory space in the Harwell research complex and utilise its facilities. Grants are awarded for any period of up to five years, and are funded on 80 per cent of full economic cost to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/work-in-harwell/
Partnership grant – molecular and cellular medicine	Medical Research Council	04 May 16	Proposals may be submitted between 23 March and 4pm, 4 May 2016; between 25 July and 4pm, 7 September 2016; between 18 November 2016 and 4pm, 5 January 2017. Deadlines on: 4 May 2016, 7 September 2016, 5 January 2017.	Research centres, Equipment and materials, Networking/collaboration, Directed grants to institutions, research groups etc, Institutional development, Travel for research purposes, General operating support	-	-	-	This provides core funds to support partnerships between diverse groupings of researchers, and can be used for infrastructure support, platform activities and for bringing together managed consortia or multidisciplinary collaborations. Support can be requested for one to five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/partnership-grant/

STFC enterprise fellowships	Royal Society of Edinburgh	04 May 16	Applications due by 5pm. This call is repeated once a year.	Predoctoral fellowships, Academic-Industry links, Early-Career fellowships, Technology innovation/development, Directed grants for individual investigators, Innovation grants, Senior fellowships, Mid-Career fellowships	-	-	-	These enable an individual to advance the commercialisation of existing research and outcomes or technological developments, whilst also receiving formal training in relevant business skills, with the objective to increase exploitation of ideas with commercial potential from STFC-funded research programmes. Fellowships are tenable for one year, commencing on 1 October 2016, and provide a salary within the scales for research staff in HEIs, currently in the range of £25,769 to £38,896. In addition, a total of £5,000 is provided to cover the costs of travel, consumables, equipment and business consultancy support. Funding supports technical feasibility studies which encourage new entrants into the energy sector and stimulate the adoption of disruptive technologies that address challenges faced by the energy sector. The total budget is worth up to £2 million. Each project may receive between £25,000 and £100,000 for a period of six to 12 months, although larger projects may be considered.	http://www.royalsoced.org.uk/637_STFCEnterpriseFellowships.html
Energy game changer competition	Innovate UK	04 May 16	Registrations are invited between 28 March and 12 noon, 4 May; video submissions due by 12 noon, 11 May; invited full applications due by 12 noon 7 July 2016.	Technology innovation/development, Academic-Industry links, Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration, Research calls for business	-	-	£2,000,000	These enable well-established researchers in the disciplines of the humanities and social sciences to devote themselves to a single research project. Fellowships are awarded for two to three years and cover salary costs for an individual to undertake the normal duties of the fellow, as well as research expenses worth up to £5,000 per year.	https://interact.innovateuk.org/competition-display-page/asset_publisher/RqE12AKmEBhi/content/energy-game-changer
Major research fellowships in the humanities and social sciences	Leverhulme Trust	05 May 16	Applications are invited between 3 February and 4pm, 5 May 2016.	Directed grants for individual investigators, Senior fellowships, Mid-Career fellowships, Early-Career fellowships	-	-	-	This programme supports research that is immediately useful to patients, clinical practice, and policy and decision makers, assessing the effectiveness of technologies within the NHS. This supports interdisciplinary research projects that seek to improve our understanding of the links between ecosystem stocks, ecosystem service flows and benefits that are delivered as a result, to enable identification of critical levels of ecosystem stocks that avoid abrupt and damaging change in the delivery of benefits – tipping points. The total budget is worth up to £1.1million at 80 per cent full economic cost, which is expected to support three proposals of up to 30 months duration. Project funding is worth up to £370,000 at 80 per cent full economic cost.	http://www.leverhulme.ac.uk/funding/MRF/MRF.cfm
Health technology assessment programme: researcher-led workstream – evidence synthesis – 15/187	Department of Health including NIHR	05 May 16	Applications due by 1pm.	Networking/collaboration, Clinical trials, Directed grants to institutions, research groups etc, Directed grants for individual investigators	-	-	-	This programme supports research that is immediately useful to patients, clinical practice, and policy and decision makers, assessing the effectiveness of technologies within the NHS. This supports interdisciplinary research projects that seek to improve our understanding of the links between ecosystem stocks, ecosystem service flows and benefits that are delivered as a result, to enable identification of critical levels of ecosystem stocks that avoid abrupt and damaging change in the delivery of benefits – tipping points. The total budget is worth up to £1.1million at 80 per cent full economic cost, which is expected to support three proposals of up to 30 months duration. Project funding is worth up to £370,000 at 80 per cent full economic cost.	http://www.nets.nihr.ac.uk/funding/hta-researcher-led
Valuing nature programme – understanding ecosystem stocks and tipping points	Natural Environment Research Council	05 May 16	Applications due by 4pm.	Directed grants to institutions, research groups etc, Directed grants for individual investigators	£370,000	-	£1,100,000	These awards support researchers with established university careers who wish to build a research team to address a distinct research problem. Awards are worth up to £1 million over a duration of four to five years. These support primary research in the humanities and social sciences. Grants are tenable for up to two years and are worth between £500 and £10,000.	http://www.nerc.ac.uk/research/funded/programmes/valuingnature/news/ao-tipping/
Research leadership awards	Leverhulme Trust	10 May 16	Applications due by 4pm.	Grants - undirected, Travel for research purposes, Networking/collaboration	£1,000,000	£800,000	-	These awards support researchers with established university careers who wish to build a research team to address a distinct research problem. Awards are worth up to £1 million over a duration of four to five years. These support primary research in the humanities and social sciences. Grants are tenable for up to two years and are worth between £500 and £10,000.	http://www.leverhulme.ac.uk/funding/RLA/RLA.cfm
British Academy/Leverhulme small research grants	British Academy	11 May 16	Applications due by 5pm. Deadlines on: 14 October 2015, 11 May 2016.	Travel for research purposes, Directed grants for individual investigators, Networking/collaboration, Hosting visits, Travel to conferences, meetings etc.	£10,000	£500	-	These support investigator-led research activities addressing any topic within the council's remit. Grants may be used for research projects, technology development, equipment or use of existing facilities, new facilities or infrastructure provision, research networks and coordination, and summer schools. Grants support periods of up to five years.	http://www.britac.ac.uk/funding/guide/serg.cfm
Responsive mode research grants	Biotechnology and Biological Sciences Research Council	11 May 16	Applications due by 4pm.	Innovation grants, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Equipment and materials, Access to laboratories, telescopes etc., Networking/collaboration, Technology innovation/development	-	-	-	These aim to facilitate the transfer of knowledge, technology and skills, and help businesses innovate and grow, by linking them with a university and a graduate. Partnerships may last between six months and three years. SMEs must contribute a third of the project costs, usually around £20,000, whereas large companies must contribute 50 per cent of the costs, usually around £30,000.	http://www.bbsrc.ac.uk/funding/apply/ deadlines.aspx
Knowledge transfer partnerships	Innovate UK	11 May 16	Deadlines on: 11 May 2016, 6 July 2016, 7 September 2016, 2 November 2016.	Academic-Industry links, Technology innovation/development, Grants - undirected, Innovation grants, Research calls for business, Networking/collaboration	-	-	-	This assists early-career researchers in securing their first major element of research funding. The scheme is available for up to five years. These support science-led research projects that address any topic within the council's remit, and where industrial partners contribute in cash funding. Industrial partners must contribute in cash at least 10 per cent of the full economic costs of projects. Awards are tenable for up to five years.	https://interact.innovateuk.org/competition-display-page/asset_publisher/RqE12AKmEBhi/content/knowledge-transfer-partnershi-1
New investigator scheme	Biotechnology and Biological Sciences Research Council	11 May 16	Applications due by 4pm.	Directed grants for individual investigators	-	-	-	This supports applications that cut across national boundaries and involve international collaborative teams. Proposals may be submitted in any area of science within the remit of both supporting organisations. Funding is available for up to five years.	http://www.bbsrc.ac.uk/funding/grants/new-investigator.aspx
Industrial partnership awards	Biotechnology and Biological Sciences Research Council	11 May 16	Applications due by 4pm.	Research calls for business, Academic-Industry links, Networking/collaboration, Directed grants to institutions, research groups etc	-	-	-	This supports pre-competitive research projects that address any topic within the council's remit, and where industry contributes funding. Industry partners must contribute in cash at least 50 per cent of the full economic cost of projects. Funding is available for up to five years.	http://www.bbsrc.ac.uk/business/collaborative-research/industrial-partnership-awards.aspx
BBSRC-State of São Paulo Research Foundation joint research funding	Biotechnology and Biological Sciences Research Council	11 May 16	Applications due by 4pm.	Networking/collaboration, Directed grants to institutions, research groups etc	-	-	-	This supports applications that cut across national boundaries and involve international collaborative teams. Proposals may be submitted in any area of science within the remit of both supporting organisations. Funding is available for up to five years.	http://www.bbsrc.ac.uk/funding/internationalfunding/fape-sp-joint-funding-research/
Stand-alone LINK	Biotechnology and Biological Sciences Research Council	11 May 16	Applications due by 4pm.	Directed grants to institutions, research groups etc, Research calls for business, Academic-Industry links, Networking/collaboration	-	-	-	This supports pre-competitive research projects that address any topic within the council's remit, and where industry contributes funding. Industry partners must contribute in cash at least 50 per cent of the full economic cost of projects. Funding is available for up to five years.	http://www.bbsrc.ac.uk/innovation/collaboration/stand-alone-link/
BBSRC-Science Foundation Ireland joint research funding	Biotechnology and Biological Sciences Research Council	11 May 16	Applications due by 4pm.	Networking/collaboration, Directed grants to institutions, research groups etc	-	-	-	This supports applications that cut across national boundaries and involve international collaborative teams led by researchers from the UK and the Republic of Ireland.	http://www.bbsrc.ac.uk/funding/internationalfunding/sfi-joint-funding-of-research/?utm_source=feedburner&utm_medium=feed&utm_campaign=Feed%3A+bbsrcfunding+%28BBSRC+--+Funding+opportunities%29
Visiting professorships	Leverhulme Trust	12 May 16	Applications due by 4pm. This call is repeated 2 times a year.	Institutional development, Hosting visits, Networking/collaboration, Equipment and materials, Grants - undirected	-	-	-	These enable UK institutions to host eminent researchers from overseas, primarily to enhance the skills of academic staff or students at the host institution. Funding covers maintenance, travel expenses and research costs and supports visits that last between three and 12 months. Travel within the UK, laboratory consumables and essential technical assistance may also be covered.	http://www.leverhulme.ac.uk/funding/VP/VP.cfm
David Phillips fellowships	Biotechnology and Biological Sciences Research Council	12 May 16	Applications due by 4pm. This call is repeated once a year.	Early-Career fellowships, Directed grants for individual investigators, Mid-Career fellowships, Personal development	-	-	-	These support researchers who wish to establish their first independent research group in any area of science within the council's remit, which includes research on plants, microbes, animals, and tools and technology underpinning biological research. Up to five fellowships per year are available. Each fellowship is worth up to £1 million at 80 per cent full economic cost.	http://www.bbsrc.ac.uk/funding/fellowships/david-phillips.aspx

Future leader fellowship	Biotechnology and Biological Sciences Research Council	12 May 16	Applications due by 4pm.	Postdoctoral training fellowships, Directed grants for individual investigators, Early-Career fellowships, Travel for research purposes	£300,000	-	-	-	This enables early-career researchers to undertake independent research in any area within biotechnology and biological sciences, and to gain leadership skills. The fellowship is worth up to £300,000 over a period of three years. Proposals are sought on the topics of improving the outputs of national clinical audits to support organisations to improve the quality of care and clinical outcomes; and workforce interventions for the assessment and management of older adult patients with cognitive impairments.	http://www.bbsrc.ac.uk/funding/fellowships/future-leader-fellowship.aspx
Health services and delivery research programme – commissioned calls: 16/04, 16/05	Department of Health including NIHR	12 May 16	Proposals due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	-	Proposals are sought on the topics of improving the outputs of national clinical audits to support organisations to improve the quality of care and clinical outcomes; and workforce interventions for the assessment and management of older adult patients with cognitive impairments.	http://www.nets.nihr.ac.uk/funding/hdsr-commissioned
Capital funding for public engagement and medical history	Wellcome Trust	13 May 16	This call is repeated once a year.	Buildings (renovation/refurbishment), Equipment and materials, Directed grants to institutions, research groups etc. General operating support	-	£200,000	-	-	This scheme provides capital funding for large-scale projects that support public engagement or medical history. Awards are normally worth over £200,000. These recognise the achievement of outstanding researchers whose work has attracted international recognition and whose future career is promising. Up to 30 awards are available, each worth £100,000 over two to three years.	http://www.wellcome.ac.uk/Funding/Public-engagement/Funding-schemes/Capital-awards/index.htm
Philip Leverhulme prizes	Leverhulme Trust	16 May 16	Nominations are invited between 4 January and 16 May 2016. This call is repeated once a year.	Prizes	£100,000	-	-	£3,000,000	These awards recognise the achievement of outstanding researchers whose work has attracted international recognition and whose future career is promising. Up to 30 awards are available, each worth £100,000 over two to three years.	http://www.leverhulme.ac.uk/funding/PLP/PLP.cfm
Ecosystem Services for Poverty Alleviation – research synthesis projects grants	Natural Environment Research Council	17 May 16	Applications due by 4pm, UK time.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration	£200,000	£50,000	-	£1,000,000	These aim to advance global understanding on the way that ecosystem services contribute to poverty alleviation. Funding in the range of between £50,000 and £200,000 full economic cost will be available. The total budget for this call is worth up to £1 million.	http://www.nerc.ac.uk/research/funded/programmes/esp-a/news/ao-2016/
Research grants – infections and immunity	Medical Research Council	18 May 16	Proposals may be submitted between 20 November 2015 and 4pm, 13 January 2016; and between 23 March and 4pm, 18 May 2016.	Directed grants to institutions, research groups etc, Directed grants for individual investigators, Equipment and materials, Travel for research purposes, Publish, edit, translate, disseminate, Institutional development	£1,000,000	-	-	-	These are suitable for focused research projects that may be short- or long-term in nature. In addition, they can be used to support method development and continuation of research facilities and may involve more than one research group or institution. Grants do not typically exceed £1 million. Funding is usually given on the basis of 80 per cent of full economic costs of the research to the applicant's institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/research-grant/
Intermediate clinical fellowships	Wellcome Trust	18 May 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 5pm, 18 May and 5pm, 30 October 2015; invited full applications due by 5pm, 13 July 2015 and 5pm, 11 January 2016.	Publish, edit, translate, disseminate, Travel to conferences, meetings etc., Early-Career fellowships, Equipment and materials, Travel for research purposes, Postdoctoral training fellowships, Directed grants for individual investigators	-	-	-	-	These enable medical, dental, veterinary or clinical psychology graduates to continue their research interests at a postdoctoral level in an appropriate unit or clinical research facility. Fellowships provide research expenses and a salary for up to four or five years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Clinical-fellowships/WTD004402.htm
New investigator research grant – infections and immunity	Medical Research Council	18 May 16	Proposals may be submitted between 23 March and 4pm, 18 May 2016; between 25 July and 4pm, 21 September 2016; and between 18 November 2016 and 4pm, 11 January 2017.	Directed grants for individual investigators, Travel for research purposes, Publish, edit, translate, disseminate, Equipment and materials	-	-	-	-	This aims to support researchers who are capable of becoming independent principal investigators and who are ready to take the next step towards that goal within the areas of infections and immunity. Grants are tenable for three years; however, in exceptional cases applications for longer periods of time may be accepted.	http://www.mrc.ac.uk/funding/how-we-fund-research/new-investigator-research-grant/
Partnership grant – infections and immunity	Medical Research Council	18 May 16	Applicants must contact the programme manager at least six weeks before the deadline. Proposals may be submitted between 29 July and 4pm, 23 September 2015; between 20 November 2015 and 4pm, 13 January 2016; and between 23 March and 4pm, 18 May 2016.	Studentship allocations, Research centres, Equipment and materials, Networking/collaboration, Directed grants to institutions, research groups etc, Institutional development	-	-	-	-	This provides core funds to support partnerships between diverse groupings of researchers, and can be used for infrastructure support, platform activities and for bringing together managed consortia or multidisciplinary collaborations. Grants are funded on the basis of 80 per cent of full economic cost of research to the institution. Support can be requested for between one and five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/partnership-grant/
Programme grants – infections and immunity	Medical Research Council	18 May 16	New applicants must contact the programme manager at least six weeks before the deadline. Proposals may be submitted between 29 July and 4pm, 23 September 2015; between 20 November 2015 and 4pm, 13 January 2016; and between 23 March and 4pm, 18 May 2016.	Travel for research purposes, Publish, edit, translate, disseminate, Equipment and materials, Directed grants to institutions, research groups etc	-	-	-	-	These provide large and long-term renewable funding. Funding is given on the basis of 80 per cent of full economic costs of research, for a maximum period of five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/programme-grant/
Senior research fellowships in clinical science	Wellcome Trust	19 May 16	First round preliminary applications due by 5pm, 24 May; invited full applications due by 5pm, 27 July; second round preliminary applications due by 5pm, 19 September; invited full applications for second round due by 5pm, 21 November 2016. Deadlines on: 19 May 2016, 24 May 2016.	Senior fellowships, Equipment and materials, Networking/collaboration, Travel for research purposes, Travel to conferences, meetings etc., Publish, edit, translate, disseminate, Directed grants for individual investigators	-	-	-	-	These enable clinical investigators to further develop their research potential and to establish themselves as leading investigators in clinical academic medicine. Fellowships are tenable for five years and cover basic salary, research expenses, including equipment and collaborative travel, inflation allowance and public engagement costs. Additional funding is available to enable institutions to recruit exceptional scientists to the UK from overseas.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Clinical-fellowships/WTD004445.htm
International opportunities fund – pump priming and pump priming plus grants	Natural Environment Research Council	19 May 16	Proposals due by 4pm BST. This call is repeated once a year.	Travel for research purposes, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Networking/collaboration, Travel to conferences, meetings etc., Hosting conferences, Hosting visits	£250,000	£40,000	-	£1,100,000	This provides resources to NERC-supported researchers to allow them to forge long-term partnerships with overseas scientists that add value to current NERC-funded science. Grants are worth up to £250,000 each at 80 per cent full economic cost over a maximum period of three years.	http://www.nerc.ac.uk/research/partnerships/international/ao/news/ao2016/
HEE/NIHR integrated clinical academic programme – clinical doctoral research fellowship	Department of Health including NIHR	19 May 16	Applications are due by 1pm.	Predoctoral training fellowships, Directed grants for individual investigators, Financial aid for postgraduate students	-	-	-	-	This enables non-medical or dental healthcare professionals to obtain a PhD whilst developing their research and clinical skills. The fellowship covers salary costs, PhD tuition fees, and the costs of an appropriate research project and training and development programme.	http://www.nihr.ac.uk/funding/nihr-hee-ica-programme-CDRF.htm
Health technology assessment programme – commissioned call: 15/33	Department of Health including NIHR	19 May 16	Proposals due by 1pm.	Directed grants to institutions, research groups etc, Clinical trials, Directed grants for individual investigators	-	-	-	-	Proposals are sought on the topic of promising pharmacological therapy for the treatment of resistant bipolar depression. There are no fixed limits on the duration of projects or funding.	http://www.nets.nihr.ac.uk/funding/hta-commissioned
Health technology assessment programme – commissioned calls: 16/11, 16/12	Department of Health including NIHR	19 May 16	Proposals due by 1pm.	Directed grants for individual investigators, Clinical trials, Directed grants to institutions, research groups etc	-	-	-	-	Proposals for evidence synthesis are sought on treating mental health problems associated with a history of complex traumatic events, and Aids to cancer diagnosis in primary care. There are no fixed limits on the duration of projects or funding.	http://www.nets.nihr.ac.uk/funding/hta-commissioned
Health technology assessment programme: commissioned calls 16/13, 16/14, 16/15, 16/16, 16/18, 16/19, 16/20, 16/21, 16/23	Department of Health including NIHR	19 May 16	Proposals due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Clinical trials	-	-	-	-	Proposals for primary research are sought on several topics under the health technology assessment programme. There are no fixed limits on the duration of projects or funding.	http://www.nets.nihr.ac.uk/funding/hta-commissioned
Health technology assessment programme – commissioned call for proposal 15/154	Department of Health including NIHR	19 May 16	Proposals due by 1pm.	Directed grants to institutions, research groups etc, Directed grants for individual investigators	-	-	-	-	Proposals are sought on the topic of management of thoracolumbar fractures, which should aim to find out what the clinical and cost-effectiveness of surgical fixation in patients with a stable thoracolumbar fracture without spinal cord injury is.	http://www.nets.nihr.ac.uk/funding/hta-commissioned
Health technology assessment programme – commissioned call for proposal 15/167	Department of Health including NIHR	19 May 16	Proposals are due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	-	Proposals are sought on the topic of management of knee braces in the management of knee osteoarthritis, with the specific research question: What is the clinical and cost-effectiveness of knee braces in the management of knee osteoarthritis.	http://www.nets.nihr.ac.uk/funding/hta-commissioned

People awards	Wellcome Trust	20 May 16	Applications due by 5pm.	Directed grants for individual investigators, Hosting conferences, Directed grants to institutions, research groups etc. Networking/collaboration. Access to libraries	£40,000	-	-	-	These support projects that are innovative and creative and engage the public with biomedical science or the history of medicine. Each award is worth up to £40,000. These support outstanding postdoctoral scientists based in academic institutions in the UK and the Republic of Ireland. Fellowships are tenable for five years in the first instance, and provide a basic salary, normally of up to £65,000 per year, with an additional trust supplement of £12,500 per year, research programme costs, including equipment and collaborative travel, inflation allowance and public engagement costs. These are suitable for focused research projects that may be short- or long-term in nature. In addition, they can be used to support method development and continuation of research facilities and may involve more than one research group or institution. Grants do not typically exceed £1 million. Funding is usually given on the basis of 80 per cent of full economic costs of the research to the applicant's institution.	http://www.wellcome.ac.uk/Funding/Public-engagement/Funding-schemes/People-Awards-and-Society-Awards/index.htm
Senior research fellowships in basic biomedical science	Wellcome Trust	24 May 16	First round preliminary applications due by 5pm, 24 May; invited full applications due by 5pm, 27 July; second round preliminary applications due by 5pm, 19 September; invited full applications for second round due by 5pm, 21 November 2016. Deadlines on: 24 May 2016, 19 September 2016.	Senior fellowships, Equipment and materials, Networking/collaboration, Travel for research purposes, Travel to conferences, meetings etc., Publish, edit, translate, disseminate, Mid-Career fellowships	-	-	-	-	These support outstanding postdoctoral scientists based in academic institutions in the UK and the Republic of Ireland. Fellowships are tenable for five years in the first instance, and provide a basic salary, normally of up to £65,000 per year, with an additional trust supplement of £12,500 per year, research programme costs, including equipment and collaborative travel, inflation allowance and public engagement costs. These are suitable for focused research projects that may be short- or long-term in nature. In addition, they can be used to support method development and continuation of research facilities and may involve more than one research group or institution. Grants do not typically exceed £1 million. Funding is usually given on the basis of 80 per cent of full economic costs of the research to the applicant's institution.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Fellowships/Basic-biomedical-fellowships/WT004442.htm
Research grants – population and systems medicine	Medical Research Council	25 May 16	Applications may be submitted between 29 July and 4pm, 30 September 2015; between 20 November 2015 and 4pm, 20 January 2016; and between 23 March and 4pm, 25 May 2016. Deadlines on: 27 May 2015, 30 September 2015, 20 January 2016, 20 January 2016, 25 May 2016, 25 May 2016, 29 September 2016, 19 January 2017.	Directed grants to institutions, research groups etc, Directed grants for individual investigators, Equipment and materials, Travel for research purposes, Institutional development, Publish, edit, translate, disseminate	£1,000,000	-	-	-	This aims to support researchers who are capable of becoming independent principal investigators and who are ready to take the next step towards that goal within the areas of population and systems medicine. Grants are tenable for three years; however, in exceptional cases applications for longer periods of time may be accepted.	http://www.mrc.ac.uk/funding/how-we-fund-research/research-grant/
New investigator research grant – population and systems medicine	Medical Research Council	25 May 16	Proposals are invited between 23 March and 4pm, 25 May 2016; between 25 July and 4pm, 29 September 2016; and between 18 November 2016 and 4pm, 19 January 2017.	Directed grants for individual investigators, Publish, edit, translate, disseminate, Travel for research purposes, Equipment and materials	-	-	-	-	This aims to support researchers who are capable of becoming independent principal investigators and who are ready to take the next step towards that goal within the areas of population and systems medicine. Grants are tenable for three years; however, in exceptional cases applications for longer periods of time may be accepted.	http://www.mrc.ac.uk/funding/how-we-fund-research/new-investigator-research-grant/
Partnership grant – population and systems medicine	Medical Research Council	25 May 16	Applicants must contact the programme manager at least six weeks before the deadline. Applications may be submitted between 29 July and 4pm, 30 September 2015; between 20 November 2015 and 4pm, 20 January 2016; and between 23 March and 4pm, 25 May 2016. Deadlines on: 27 May 2015, 30 September 2015, 20 January 2016, 20 January 2016, 25 May 2016, 25 May 2016, 29 September 2016, 19 January 2017.	Research centres, Equipment and materials, Studentship allocations, Networking/collaboration, Directed grants to institutions, research groups etc, Institutional development	-	-	-	-	This provides core funds to support partnerships between diverse groupings of researchers, and can be used for infrastructure support, platform activities and for bringing together managed consortia or multidisciplinary collaborations. Grants are funded on the basis of 80 per cent of full economic cost of research to the institution. Support can be requested for between one and five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/partnership-grant/
Programme grants – population and systems medicine	Medical Research Council	25 May 16	New applicants must contact the programme manager at least six weeks before the deadline. Applications may be submitted between 29 July and 4pm, 30 September 2015; between 20 November 2015 and 4pm, 20 January 2016; and between 23 March and 4pm, 25 May 2016. Deadlines on: 27 May 2015, 30 September 2015, 20 January 2016, 20 January 2016, 25 May 2016, 25 May 2016, 29 September 2016, 19 January 2017.	Travel for research purposes, Publish, edit, translate, disseminate, Equipment and materials, Directed grants to institutions, research groups etc	-	-	-	-	These provide large and long-term renewable funding. Funding is given on the basis of 80 per cent of full economic costs of research, for a maximum period of five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/programme-grant/
Collaborative training partnerships	Biotechnology and Biological Sciences Research Council	25 May 16	Registrations for the town hall meeting due by 1 March; applications due by 4pm, 25 May 2016.	Academic-Industry links, Networking/collaboration, Studentship allocations, Directed grants to institutions, research groups etc	-	-	-	-	These aim to train the next generation of skilled people for the research base and wider bioeconomy by providing PhD students with a first-rate, challenging research training experience within the context of a mutually beneficial research collaboration, between academic and partner organisations. Up to 15 CTPs are to be awarded with a minimum number of four studentships per year per award. The notional studentship cost is to be calculated on a four-year basis, and of a £5,000 per year research training element must be provided.	http://www.bbsrc.ac.uk/funding/filter/collaborative-training-partnerships/
Biotechnology YES – young entrepreneurs scheme	Biotechnology and Biological Sciences Research Council	27 May 16		Academic-Industry links, Networking/collaboration, Innovation grants, Travel to conferences, meetings etc., Prizes, Young investigator awards	£5,000	-	-	-	This scheme aims to raise awareness of the commercialisation of ideas from the biosciences among postgraduate students and postdoctoral scientists. There is a prize fund of £5,000.	http://www.bbsrc.ac.uk/business/commercialisation/biotechnology-yes.aspx
Mary Seacole awards	NHS Employers	29 May 16 (Forecast)	If Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications are accepted between 27 February and 29 May 2015. This call is repeated once a year. Deadlines for judging are every four months. The prize will remain open until it is won, or if there is no winner, until 31 December 2019. Deadlines on: 31 January 2016, 31 May 2016, 30 September 2016, 31 January 2017, 31 May 2017, 30 September 2017, 31 January 2018, 31 May 2018, 30 September 2018, 31 January 2019, 31 May 2019, 30 September 2019.	Directed grants for individual investigators, Personal development	£12,500	-	-	-	These support specific healthcare projects or other educational or developmental activities that aim to improve the health outcomes of people from black and minority ethnic communities. Awards are worth up to £12,500 each.	http://www.nhsemployers.org/your-workforce/plan/building-a-diverse-workforce/get-involved/the-mary-seacole-awards
Longitude prize	Nesta	31 May 16		Prizes, Innovation grants	£8,000,000	-	£10,000,000	-	This rewards the development of a transformative point-of-care diagnostic test to revolutionise the delivery of global healthcare and conserve antibiotics for future generations. The winner is awarded £8 million. £2m is awarded to support promising entries along the way.	http://www.longitudeprize.org/
Community resource for wheat transformation	National Institute of Agricultural Botany	31 May 16		Directed grants to institutions, research groups etc, Directed grants for individual investigators	-	-	-	-	Funding provides capacity for genes to be transformed into wheat free of charge, with half of the resource reserved for researchers working on model crops to encourage early testing of novel genes in wheat, and the remaining half reserved for researchers working on cereal crops, wheat and barley. This aims to encourage research networking proposals which explore the contribution that arts and humanities research can play in debates about international development. Grants are worth up to £30,000 each over two years. An additional £30,000 full economic cost may be provided to cover the costs of any international participants or activities in addition to the scheme limit.	http://www.niab.com/transgenic
Highlight notice for international development – research networking scheme	Arts and Humanities Research Council	31 May 16	Applications due by 12 midnight. Proposals relevant to this notice will be accepted after the deadline but will not be eligible for supplementary funding or have an increased chance of funding.	Networking/collaboration, Directed grants for individual investigators, Travel to conferences, meetings etc., Directed grants to institutions, research groups etc, Hosting conferences	£60,000	-	-	-	This aims to encourage applications exploring innovative ways to enhance engagement with, and impacts from, research funded by the AHRC in one or more countries which receive Official Development Assistance or which will contribute more broadly to international development. Grants are worth up to £100,000 over a maximum period of one year. Smaller grants of up to £30,000 may be awarded for shorter or higher risk activities.	http://www.ahrc.ac.uk/funding/opportunities/current/high-notice-international-development-in-the-research-networking-scheme/
Follow-on fund for impact and engagement – highlight notice for international development	Arts and Humanities Research Council	31 May 16	Applications due by 12 midnight. Proposals relevant to this notice will be accepted after the deadline but will not be eligible for supplementary funding or have an increased chance of funding.	Networking/collaboration, Publish, edit, translate, disseminate, Directed grants to institutions, research groups etc	£100,000	-	-	-	This aims to encourage applications exploring innovative ways to enhance engagement with, and impacts from, research funded by the AHRC in one or more countries which receive Official Development Assistance or which will contribute more broadly to international development. Grants are worth up to £100,000 over a maximum period of one year. Smaller grants of up to £30,000 may be awarded for shorter or higher risk activities.	http://www.ahrc.ac.uk/funding/opportunities/current/high-notice-international-development-in-the-follow-on-funding-scheme/
Research grants – neurosciences and mental health	Medical Research Council	01 Jun 16	Proposals may be submitted between 29 July and 4pm, 6 October 2015; between 20 November 2015 and 4pm, 3 February 2016; and between 23 March and 4pm, 1 June 2016.	Directed grants to institutions, research groups etc, Equipment and materials, Travel for research purposes, Publish, edit, translate, disseminate, Networking/collaboration, Institutional development	£1,000,000	-	-	-	This aims to support researchers who are capable of becoming independent principal investigators and who are ready to take the next step towards that goal within the area of neurosciences and mental health. Grants are tenable for three years; however, in exceptional cases applications for longer periods of time may be accepted.	http://www.mrc.ac.uk/funding/how-we-fund-research/research-grant/
New investigator research grant – neurosciences and mental health	Medical Research Council	01 Jun 16	Proposals may be submitted between 23 March and 4pm, 1 June; between 25 July and 4pm, 6 October 2016; and between 18 November 2016 and 4pm, 2 February 2017.	Directed grants for individual investigators, Equipment and materials, Travel for research purposes, Publish, edit, translate, disseminate	-	-	-	-	This aims to support researchers who are capable of becoming independent principal investigators and who are ready to take the next step towards that goal within the area of neurosciences and mental health. Grants are tenable for three years; however, in exceptional cases applications for longer periods of time may be accepted.	http://www.mrc.ac.uk/funding/how-we-fund-research/new-investigator-research-grant/

Partnership grant – neurosciences and mental health	Medical Research Council	01 Jun 16	Applicants must contact the programme manager at least six weeks before the deadline. Proposals may be submitted between 29 July and 4pm, 6 October 2015; between 20 November 2015 and 4pm, 3 February 2016; and between 23 March and 4pm, 1 June 2016.	Studentship allocations, Research centres, Equipment and materials, Networking/collaboration, Directed grants to institutions, research groups etc, Institutional development	-	-	-	-	This provides core funds to support partnerships between diverse groupings of researchers, and can be used for infrastructure support, platform activities and for bringing together managed consortia or multidisciplinary collaborations. Grants are funded on the basis of 80 per cent of full economic cost of research to the institution.	http://www.mrc.ac.uk/funding/how-we-fund-research/partnership-grant/
Programme grants – neurosciences and mental health	Medical Research Council	01 Jun 16	New applicants must contact the programme manager at least six weeks before the deadline. Proposals may be submitted between 29 July and 4pm, 6 October 2015; between 20 November 2015 and 4pm, 3 February 2016; and between 23 March and 4pm, 1 June 2016. Deadlines on: 3 June 2015, 6 October 2015, 3 February 2016, 1 June 2016, 6 October 2016, 2 February 2017.	Equipment and materials, Travel for research purposes, Publish, edit, translate, disseminate, Directed grants to institutions, research groups etc	-	-	-	-	These provide large and long-term renewable funding. Funding is given on the basis of 80 per cent of full economic costs of research, for a maximum period of five years.	http://www.mrc.ac.uk/funding/how-we-fund-research/programme-grant/
COMING SOON: Invention for innovation (i4i) product development awards	Department of Health including NIHR	01 Jun 16	Stage one submissions are invited between 6 April and 1pm, 1 June; invited stage two submissions are accepted between 20 July and 1pm, 14 September 2016.	Academic-Industry links, Directed grants to institutions, research groups etc, Innovation grants, Technology innovation/development, Networking/collaboration, Clinical trials	-	-	-	-	The National Institute for Health Research will shortly be inviting applications for its Invention for Innovation (i4i) product development awards. The next round will open 6 April and close on 1 June 2016. The following information is from the previous round and is subject to change. These awards support R&D of medical devices, active implantable devices and in vitro diagnostic devices in any area of existing or emerging clinical need.	http://www.nihr.ac.uk/funding/i4i-guidance.htm
Modular training partnerships	Biotechnology and Biological Sciences Research Council	02 Jun 16	Proposals are invited between 22 February and 4pm, 2 June 2016. This call is repeated 3 times a year.	Networking/collaboration, Institutional development, Academic-Industry links, Directed grants to institutions, research groups etc	-	-	-	-	These enable research organisations to collaborate with industry to develop industrially-relevant short training courses at master's level. There are three MTP calls per year, with a total amount of £250,000 available per year.	http://www.bbsrc.ac.uk/business/training/modular-training.aspx
Strategic training awards for research skills	Biotechnology and Biological Sciences Research Council	02 Jun 16	Applications are invited between 22 February and 4pm, 2 June 2016. This call is repeated 3 times a year.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Personal development	-	-	£250,000	-	These aim to support the development of strategically important and vulnerable research skills and capabilities in the biosciences. The budget is worth up to £250,000 per year and each application may be for up to £100,000. It is anticipated that up to 30 awards may be supported each year.	http://www.bbsrc.ac.uk/funding/studentships/stars/
Arts awards – small to medium-sized projects	Wellcome Trust	03 Jun 16	Applications due by 5pm. Deadlines on: 7 August 2015, 27 November 2015, 4 March 2016, 3 June 2016.	Travel to conferences, meetings etc., Publish, edit, translate, disseminate, Equipment and materials, Directed grants to institutions, research groups etc, Networking/collaboration, Directed grants for individual investigators, Travel for research purposes	£40,000	-	-	-	These support creative collaborations that stimulate interest, excitement and debate about biomedical science through the arts, examine the social, cultural and ethical impact of biomedical science, and support formal and informal learning. Awards are worth up to £40,000 each for a maximum period of three years.	http://www.wellcome.ac.uk/Funding/Public-engagement/Funding-schemes/Arts-Awards/index.htm
Research project grant (parent R01)	NIH: National Institutes of Health	05 Jun 16	Applications due by 5pm proposer's local time, every 5 February, 5 June and 5 October until 8 September 2016.	Directed grants to institutions, research groups etc	-	-	-	-	The research project grant (R01) is an award made to an institution/organization to support a discrete, specified, circumscribed project to be performed by the named investigators in areas representing the specific interests and competencies of the investigators. A project duration of up to five years may be requested.	http://grants.nih.gov/grants/guide/pa-files/PA-13-302.html
Human dimensions of cyber security	Engineering and Physical Sciences Research Council	08 Jun 16	Proposals due by 4pm.	Directed grants to institutions, research groups etc, Equipment and materials, Travel for research purposes, Publish, edit, translate, disseminate, Travel to conferences, meetings etc., Networking/collaboration, Directed grants for individual investigators, Academic-Industry links	-	-	£5,000,000	-	This supports collaborative, international and problem-driven projects which address the human dimensions of cyber security. Funding is worth up to £5million to support around six projects.	https://www.epsrc.ac.uk/funding/calls/humandimensions/cybersecurity/
Science Learning+ phase two grants	Wellcome Trust	14 Jun 16		Networking/collaboration, Directed grants to institutions, research groups etc	£2,400,000	£1,500,000	-	-	These support partnerships involving partners both in the US and in the UK or Republic of Ireland that aim to improve the knowledge base and practice of informal science experiences to better understand, strengthen and coordinate their vital role in science engagement and learning. Project budgets should not exceed £1.5 million and £2.4m for up to five years. Approximately five projects will be funded.	http://www.wellcome.ac.uk/Funding/Public-engagement/Funding-schemes/Science-Learning/index.htm
Skills development fellowships – quantitative expertise	Medical Research Council	16 Jun 16	Applications are invited between 5 May and 4pm, 16 June 2016. This call is repeated once a year.	Postdoctoral training fellowships, Early-Career fellowships, Directed grants for individual investigators, Equipment and materials, Travel for research purposes	-	-	-	-	These support training for very early career researchers in, or individuals changing disciplines to, areas covering mathematics, statistics, computation and informatics applicable to any biomedical or health-related data sources. Fellowships are available for three years and they cover salary and costs for consumables, travel and capital equipment.	http://www.mrc.ac.uk/skills-careers/fellowships/skills-development-fellowships/
Skills development fellowships – expertise at the social science interface	Medical Research Council	16 Jun 16	Applications are invited between 5 May and 4pm, 16 June 2016. This call is repeated once a year.	Early-Career fellowships, Postdoctoral training fellowships, Directed grants for individual investigators, Equipment and materials, Travel for research purposes	-	-	-	-	These support training for very early career researchers in, or individuals changing disciplines to, the areas of health economics and mixed methods research. Fellowships are available for three years and they cover salary as well as costs for consumables, travel and capital equipment appropriate for the research project.	http://www.mrc.ac.uk/skills-careers/fellowships/skills-development-fellowships/
Pathfinder awards	Wellcome Trust	20 Jun 16	Deadlines on: 23 November 2015, 20 June 2016.	Networking/collaboration, Research calls for business, Technology innovation/development, Academic-Industry links, Directed grants to institutions, research groups etc, Innovation grants	£350,000	-	-	-	These support innovative early-stage applied R&D projects in areas of unmet medical need. Awards are usually capped at £100,000 each over a maximum period of 18 months. Awards worth up to £350,000 may be considered in exceptional cases. The Wellcome Trust has brought forward the deadline for its seed awards in science. The previous deadline of 25 February 2016 has now been brought forward to 8 February 2016. All other call information remains unchanged. These awards enable researchers to develop a novel idea to a position where it may compete for a larger award from the trust or another source. Awards are worth up to £100,000 each over a maximum period of two years.	http://www.wellcome.ac.uk/Funding/Technology-transfer/Awards/Pathfinder-Awards/index.htm
DEADLINE BROUGHT FORWARD: Seed awards in science	Wellcome Trust	20 Jun 16	Deadlines on: 8 February 2016, 20 June 2016.	Networking/collaboration, Travel for research purposes, Directed grants to institutions, research groups etc, Travel to conferences, meetings etc., Directed grants for individual investigators, Equipment and materials, Innovation grants	£100,000	-	-	-	These support innovative early-stage applied R&D projects in areas of unmet medical need. Awards are usually capped at £100,000 each over a maximum period of 18 months. Awards worth up to £350,000 may be considered in exceptional cases. The Wellcome Trust has brought forward the deadline for its seed awards in science. The previous deadline of 25 February 2016 has now been brought forward to 8 February 2016. All other call information remains unchanged. These awards enable researchers to develop a novel idea to a position where it may compete for a larger award from the trust or another source. Awards are worth up to £100,000 each over a maximum period of two years.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Funding-schemes/Seed-Awards/index.htm
Methodology research programme	Medical Research Council	21 Jun 16	Proposals are invited between 10 May and 4pm, 21 June and 7 October and 4pm, 16 November 2016. Deadlines on: 21 June 2016, 16 November 2016.	Academic-Industry links, Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	-	This supports research on methods development to underpin the biomedical and health sciences as well as methods in research for developing methods and their implementation in research standards. Grants may be awarded for up to five years, but those of two years or less are for proof-of-principle or pilot work only.	http://www.mrc.ac.uk/funding/browse/methodology-research-programme/
Missing data and the use of propensity scores	Medical Research Council	21 Jun 16	Proposals are invited between 10 May and 4pm, 21 June and between 7 October and 4pm, 16 November 2016. Deadlines on: 21 June 2016, 16 November 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	-	This supports research aimed at further understanding the robustness of propensity scores and the results of the analysis adjusting for them. MRC is likely to fund one or two proposals in this area.	http://www.mrc.ac.uk/documents/pdf/how-to-apply-detailed-instructions/how-to-apply-missing-data/
Multiple testing and subgroup analyses – deriving minimally biased estimates	Medical Research Council	21 Jun 16	Proposals are invited between 10 May and 4pm, 21 June, and 7 October and 4pm, 16 November 2016. Deadlines on: 21 June 2016, 16 November 2016.	Directed grants to institutions, research groups etc, Directed grants for individual investigators	-	-	-	-	This supports methods development research aimed at better understanding the effect of bias in randomised controlled trials, particularly in multiple testing and subgroup analysis. MRC is likely to fund one or two proposals in this area.	https://www.mrc.ac.uk/documents/pdf/how-to-apply-detailed-instructions/how-to-apply-multiple-testing/

Methods research for assessing quality of life in carers – highlight notice	Medical Research Council	21 Jun 16	Proposals are invited between 10 May and 4pm, 21 June and between 7 October and 4pm, 16 November 2016. Applicants are encouraged to discuss their proposal with the MRC Head Office prior to applying. Deadlines on: 21 June 2016, 16 November 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	Funding supports the development of validated and reliable instruments to assess the quality of life in carers of people with cognitive impairment in the domestic environment.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/methods-research-quality-life-carers/
Methods research to support the use of observational data in clinical decision making – highlight notice	Medical Research Council	21 Jun 16	Proposals are invited between 10 May and 4pm, 21 June; and between 7 October and 4pm, 16 November 2016. Applicants are advised to contact MRC at least 12 weeks prior to the deadline to discuss their proposals. Deadlines on: 21 June 2016, 16 November 2016.	Directed grants to institutions, research groups etc. Directed grants for individual investigators, Innovation grants	-	-	-	Funding supports the development of innovative methods for identifying, synthesising, interpreting and presenting observational data for use in guidance development and clinical decision-making, both at the national level and for individual patients, and in particular, how one may interpret and rationalise data from different sources.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/methods-research-observational-data/
Methodology for stratified medicine – highlight notice	Medical Research Council	21 Jun 16	Proposals are invited between 10 May and 4pm, 21 June and between 7 October and 4pm, 16 November 2016. Applicants are encouraged to discuss their proposals with the MRC Head Office prior to applying. Deadlines on: 21 June 2016, 16 November 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	Funding supports high-quality, investigator-led, methodological research into the challenges raised by stratifying patient groups.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/methodology-for-stratified-medicine/
Improving cross-sector comparisons – beyond QALY	Medical Research Council	21 Jun 16	Proposals are invited between 10 May and 4pm, 21 June; and between 7 October and 4pm, 16 November 2016. Applicants are advised to contact MRC at least 12 weeks prior to the deadline to discuss their proposals. Deadlines on: 21 June 2016, 16 November 2016.	Directed grants to institutions, research groups etc, Directed grants for individual investigators	-	-	-	This supports research into the possibility of creating a measure of quality of life or wellbeing, which would have utility across health and social care.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/improving-cross-sector-comparisons-beyond-qaly/
Methodology for eliciting expert opinion	Medical Research Council	21 Jun 16	Proposals are invited between 10 May and 4pm, 21 June; and between 7 October and 4pm, 16 November 2016. Applicants are advised to contact MRC at least 12 weeks prior to the deadline to discuss their proposals. Deadlines on: 21 June 2016, 16 November 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	Proposals are particularly sought on the comparison of available expert elicitation protocols and software, the investigation of whether the mode of expert opinion elicitation affects results, methodology to identify and understand the range of opinions that are being obtained from an elicitation exercise and methods for synthesis of elicited expert opinion with other strands of evidence.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/methodology-for-eliciting-expert-opinion/
Methodological research for health and care systems modelling – identifying and measuring spillover effects	Medical Research Council	21 Jun 16	Proposals are invited between 10 May and 4pm, 21 June; and between 7 October and 4pm, 16 November 2016. Applications must be approved by the methodology programme manager prior to submission. Deadlines on: 21 June 2016, 16 November 2016.	Directed grants for individual investigators, Innovation grants, Directed grants to institutions, research groups etc	-	-	-	This highlight notice supports research into methodologies for developing models which may enable identification, measurement and understanding of spillover effects in health service and public health systems.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/methodology-identifying-and-measuring-spillover-effects/
Methodological research to improve the quality of national clinical audits – highlight notice	Medical Research Council	21 Jun 16	Applications are invited between 10 May and 4pm, 21 June 2016; and between 7 October and 16 November 2016. Deadlines on: 21 June 2016, 16 November 2016.	Directed grants for individual investigators, Directed grants to institutions, research groups etc, Innovation grants	-	-	-	This highlight notice supports research into methodologies to optimise national clinical audits, focusing on: benefits and costs of different methods to check case ascertainment and the quality, completeness and accuracy, of audit data; linkage across audits to construct and assess pathways of care – meta-audit; and using multiple audits to look at a provider's overall performance.	http://www.mrc.ac.uk/funding/how-we-fund-research/highlight-notices/methodological-research-to-improve-the-quality-of-national-clinical-audits/
Competition to select clinical research facilities for experimental medicine	Department of Health including NIHR	22 Jun 16	Applications due by 1pm.	Institutional development, Travel for research purposes, Equipment and materials, Research centres, Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	£112,500,000	Funding aims to meet the necessary recurrent NHS infrastructure costs and NHS support costs of funded, world-class, early translational research that needs to be undertaken in dedicated, purpose-built, CRFs in England. The total budget is worth £112.5 million over five years.	http://www.nihr.ac.uk/funding/clinical-research-facilities-competition.htm
Digging into data challenge	Trans-Atlantic Platform	29 Jun 16		Directed grants to institutions, research groups etc, Innovation grants, Networking/collaboration	-	-	-	This supports research projects in the humanities or social sciences that use techniques of large-scale digital data analysis and demonstrates how these techniques can lead to new theoretical insights. Projects will have a duration of between 24 and 36 months. Project funding varies by country, and may be worth between €40,000 and €180,000 per project.	http://www.transatlanticplatform.com/2016/02/29/transatlantic-platform-announces-the-2016-t-ap-digging-into-data-challenge/
ESRC/PIC master's studentship scheme in population studies	London School of Economics and Political Science	30 Jun 16	This call is repeated once a year.	Directed grants for individual investigators, Studentship allocations, Financial aid for postgraduate students	£15,000	-	-	This aids the recruitment and initial development of students in demography by contributing to student fees and maintenance costs. Seven studentships are available, each worth up to £15,000.	http://www.lse.ac.uk/socialPolicy/researchcentresandgroups/PIC/Scholarshipscheme.aspx
Highlight notice for the UN international decade for people of African descent – research networking scheme	Arts and Humanities Research Council	30 Jun 16	Applications due by 12 midnight. Proposals relevant to this notice will be accepted after the deadline but will not be eligible for supplementary funding or have an increased chance of funding.	Travel to conferences, meetings etc., Networking/collaboration, Directed grants for individual investigators, Directed grants to institutions, research groups etc, Hosting conferences	£45,000	-	-	This aims to encourage research networking proposals which are relevant to the UN international decade for people of African descent. Grants are worth up to £30,000 each over two years. An additional £15,000 full economic cost may be provided to cover the costs of any international participants or activities in addition to the scheme limit.	http://www.ahrc.ac.uk/funding/opportunities/current/highlight-notice-un-international-decade-for-people-of-african-descent-in-the-research-networking-scheme/
Starter grants for clinical lecturers	Academy of Medical Sciences	01 Jul 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications due by 5pm. This call is repeated 2 times a year.	Directed grants for individual investigators, Equipment and materials	£30,000	-	-	These enable research-active clinical lecturers to gather data in order to strengthen future applications for longer-term fellowships and funding, and to develop and strengthen their research careers. Grants are worth up to £30,000 each over one to two years.	http://rsrch.co/1ceCu5a
UK in a changing Europe – commissioning fund	Economic and Social Research Council	03 Jul 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. This call is repeated 3 times a year.	Directed grants to institutions, research groups etc, Hosting conferences, Publish, edit, translate, disseminate, Directed grants for individual investigators, Networking/collaboration	-	-	-	This aims to promote high quality social scientific research into the nature of the relationship between the UK and EU, with a particular emphasis on making the findings of this research easily available to non-academic stakeholders. Grants are worth up to £9,999 each. Grants are worth up to £9,999 each, and three to four projects are expected to be funded.	http://www.esrc.ac.uk/funding/funding-opportunities/uk-in-a-changing-europe-commissioning-fund/
Efficacy and mechanism evaluation programme – researcher-led workstream: 16/34	Department of Health including NIHR	05 Jul 16	Proposals due by 1pm. This call is repeated 3 times a year.	Technology innovation/development, Directed grants for individual investigators, Clinical trials, Directed grants to institutions, research groups etc, Networking/collaboration	-	-	-	Funding supports research into interventions based in or used by the NHS and its partners, including any method used to promote health, prevent and treat disease and improve rehabilitation or long-term care. There is no fixed limit on project duration. All funding should be clearly justified, but there is no upper limit.	http://www.nets.nihr.ac.uk/funding/eme-researcher-led-workstream/
Efficacy and mechanism evaluation programme – commissioned calls for proposals: 16/33, 16/35, 16/36, 16/43, 16/44	Department of Health including NIHR	05 Jul 16	Proposals due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	Proposals may address the following topics: mechanisms of action of health interventions; foetal and maternal health outcomes in chronic disease; immunotherapy for type 1 diabetes; clinical efficacy of novel biosensing technologies; non-invasive transcranial stimulation.	http://www.nihr.ac.uk/funding-opportunities/efficacy-and-mechanism-evaluation-programme-commissioned-calls/2931
Biomedical catalyst – regenerative medicine research committee	Medical Research Council	07 Jul 16	Proposals due by 4pm. Deadlines on: 17 March 2016, 7 July 2016, 18 November 2016.	Networking/collaboration, Directed grants to institutions, research groups etc, Clinical trials, Innovation grants	-	-	-	This supports the translation of fundamental discoveries that aim to develop regenerative medicine therapies in order to improve human health. Proposals are funded on the basis of 80 per cent of full economic costs, except for exceptional costs which are funded at 100 per cent. MRC aims to meet the academic costs of a project only.	http://www.mrc.ac.uk/funding/browse/biomedical-catalyst-regenerative-medicine-research-committee/

Industrial CASE studentships	Medical Research Council	08 Jul 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Proposals due by 4pm. This call is repeated once a year.	Studentship allocations, Academic-Industry links, Networking/collaboration, Postdoctoral training fellowships	-	-	-	These aim to provide doctoral students with research training experience by facilitating collaborations with academic and partner organisations in the private, public and civil society sectors. Between 30 and 35 studentships, each lasting three to four years. may be funded. These support environmental research that is driven by curiosity rather than by NERC's wider strategic priorities. The minimum that can be requested per complete proposal and per component is £65,000 and the maximum for complete proposal is £800,000 at 100 per cent full economic cost. These support the completion of necessary preparatory work to submit a competitive stage two full programme grant application. Each grant is worth up to £100,000 over six to 18 months.	http://www.mrc.ac.uk/skills-careers/studentships/how-we-fund-studentships/industrial-case-studentships/
Standard research grants – including new investigator grants	Natural Environment Research Council	19 Jul 16	Applications due by 4pm. This call is repeated 2 times a year.	Networking/collaboration, Equipment and materials, Directed grants to institutions, research groups etc	£800,000	£65,000	-	These support environmental research that is driven by curiosity rather than by NERC's wider strategic priorities. The minimum that can be requested per complete proposal and per component is £65,000 and the maximum for complete proposal is £800,000 at 100 per cent full economic cost. These support the completion of necessary preparatory work to submit a competitive stage two full programme grant application. Each grant is worth up to £100,000 over six to 18 months.	http://www.nerc.ac.uk/funding/available/researchgrants/standard/
Programme development grants for applied research	Department of Health including NIHR	22 Jul 16	Competition 16 applications due between 25 May and 1pm, 22 July 2016.	Directed grants to institutions, research groups etc, Networking/collaboration	£100,000	-	-	These support the completion of necessary preparatory work to submit a competitive stage two full programme grant application. Each grant is worth up to £100,000 over six to 18 months.	http://www.nihr.ac.uk/funding/pdg-calls-and-competitions.htm
University awards	Wellcome Trust	22 Jul 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 22 January; full applications due by 30 March 2016. This call is repeated 2 times a year.	Directed grants to institutions, research groups etc, Travel to conferences, meetings etc., Institutional development, Hosting visits	-	-	-	These enable universities to attract research staff by providing support for up to five years, after which the award holder takes up a guaranteed permanent post in the university. Awards cover salary; travel expenses to meetings and research expenses for part of the five-year award term.	http://www.wellcome.ac.uk/Funding/Humanities-and-social-science/funding-schemes/university-awards/index.htm
Investigator awards in humanities and social sciences	Wellcome Trust	22 Jul 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Preliminary applications due by 22 January; full applications due by 30 March 2016.	Directed grants to institutions, research groups etc, Directed grants for individual investigators, Travel for research purposes, Publish, edit, translate, disseminate, Networking/collaboration, Travel to conferences, meetings etc., Hosting conferences, Innovation grants	£1,000,000	£100,000	-	These aim to provide flexible support at a level and length to enable humanities and social science research to explore any aspect of human and animal health. Awards are in the range of £100,000 to £200,000 per year each over a maximum period of five years.	http://www.wellcome.ac.uk/Funding/Medical-humanities/Funding-schemes/Investigator-Awards/index.htm
Collaborative awards in humanities and social science	Wellcome Trust	22 Jul 16	Preliminary applications due by 22 January; full applications due by 30 March 2016. This call is repeated 2 times a year.	Publish, edit, translate, disseminate, Networking/collaboration, Directed grants to institutions, research groups etc, Travel for research purposes, Travel to conferences, meetings etc.	£2,000,000	-	-	These enable teams to tackle major health-related questions in the humanities and social sciences. Awards are normally worth up to £2 million each over a maximum period of five years, with most in the range of £1m to £1.5m.	http://www.wellcome.ac.uk/Funding/Medical-humanities/Funding-schemes/Collaborative-Awards/index.htm
Research for patient benefit programme – including obesity themed call	Department of Health including NIHR	23 Jul 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Stage one applications due by 1pm, 23 March 2016; invited stage two applications may be submitted between mid June and late July 2016. This call is repeated 3 times a year.	Directed grants to institutions, research groups etc, Directed grants for individual investigators, Networking/collaboration	£350,000	-	-	Funding supports research that directly benefits users of the NHS in England, as well as the themed call on the prevention and treatment of obesity. Grants are worth up to £350,000 each for a maximum of three years.	http://www.nihr.ac.uk/funding/research-for-patient-benefit.htm
Research and knowledge exchange fund grants	Institute for Small Business and Entrepreneurship	25 Jul 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Proposals due by 5pm GMT. This call is repeated once a year.	Directed grants to institutions, research groups etc, Academic-Industry links, Directed grants for individual investigators	£12,000	-	-	These encourage and support new research activities from academics, third sector organisations, consultants and practitioners with the ambition of drawing together and generating an entrepreneurial community of practice to facilitate knowledge exchange and transfer. The theme for this year's call is the assessment of the value of innovation and invention in small firms. Bids of up to £12,000 will be considered.	http://www.isbe.org.uk/rakefund
Investigator awards in biomedical science	Wellcome Trust	27 Jul 16	Deadlines on: 27 July 2016.	Directed grants to institutions, research groups etc, Equipment and materials, Networking/collaboration, Directed grants for individual investigators, Travel for research purposes	£3,000,000	-	-	These enable researchers at any career level to address important research questions relevant to human and animal health and disease. Awards are worth a maximum of £3 million for up to seven years. They may cover research expenses, including research assistance, animals, equipment, fieldwork costs and funding for collaborative activities, travel and subsistence, and overseas allowances.	http://www.wellcome.ac.uk/Funding/Biomedical-science/Grants/Investigator-Awards/WTX059284.htm
Senior investigators	Department of Health including NIHR	28 Jul 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications due by 1pm. This call is repeated once a year.	Directed grants for individual investigators, Travel to conferences, meetings etc., Personal development, Travel for research purposes, Equipment and materials	-	-	-	This aims to attract, develop and retain the best research professionals in the NIHR to conduct clinical and applied health and social care research. Senior investigators will receive an award of £15,000 per year to support their research work, and their institution will receive a further £75,000.	http://www.nihr.ac.uk/faculty/Pages/faculty_senior_investigators.aspx
Joint Singapore–UK research call in cybersecurity	Engineering and Physical Sciences Research Council	30 Jul 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect.	Directed grants to institutions, research groups etc, Equipment and materials, Travel for research purposes, Networking/collaboration, Publish, edit, translate, disseminate	-	-	£1,200,000	This support up to three collaborations with potential to enhance understanding of cybersecurity and strengthen relationships between researchers in both countries. The combined budget is worth up to £1.2 million. Proposals may request between £10,000 and £200,000 at 80 per cent full economic cost.	https://www.epsrc.ac.uk/funding/calls/singaporeukcybersec/
Seed awards in humanities and social science	Wellcome Trust	05 Aug 16	Deadlines on: 15 January 2016, 5 August 2016.	Directed grants for individual investigators, Hosting conferences, Networking/collaboration, Publish, edit, translate, disseminate, Directed grants to institutions, research groups etc	£50,000	£25,000	-	These enable researchers to develop a novel idea to a position where they could compete for a larger award from the trust or another funder. Awards typically range from £25,000 to £50,000 over six to 12 months, however proposals outside this time frame may be considered.	http://www.wellcome.ac.uk/Funding/Humanities-and-social-science/Funding-schemes/Seed-Awards/index.htm
Public health research programme – commissioned calls for proposals: 15/192, 16/07, 16/08, 16/09	Department of Health including NIHR	15 Aug 16	Proposals due by 1pm.	Directed grants for individual investigators, Directed grants to institutions, research groups etc	-	-	-	Proposals may address one of the following subjects: interventions to reduce negative health effects associated with noise in the living environment; outdoor green and blue spaces; loneliness and unwanted social isolation; and community engagement.	http://www.nets.nihr.ac.uk/funding/phr-commissioned
Flexible interchange programme (FLIP)	Biotechnology and Biological Sciences Research Council	17 Aug 16	Applications due by 4pm.	Directed grants to institutions, research groups etc, Directed grants for individual investigators, Academic-Industry links, Networking/collaboration, Travel for research purposes	£120,000	-	-	This supports the movement of people between different environments to further the exchange of knowledge, technology and skills in the field of bioscience research and the council's strategic priorities. Projects costing up to £150,000 each will be funded at a rate of 80 per cent full economic cost over a maximum period of two years.	http://www.bbsrc.ac.uk/business/people-information/flexible-interchange-programme.aspx
DEADLINE BROUGHT FORWARD: Artist in residence grants	Leverhulme Trust	18 Aug 16	Applications are invited between 1 April and 4pm, 18 August 2016. This call is repeated once a year.	Networking/collaboration, Institutional development, Hosting visits, Travel for research purposes, Equipment and materials	£15,000	-	-	The Leverhulme Trust has brought forward the deadline for its artist in residence grants. The previous deadline of 8 September has been brought forward to 18 August 2016. In addition, the previous opening date of 8 April has been brought forward to 1 April. No other information has changed. These enable UK universities and museums to foster a new creative collaboration with an artist working in a discipline outside the institution's usual curriculum. Grants are worth up to £15,000 each and typically support a 10-month period, during which the artists are present at the institution for two days per week.	http://www.leverhulme.ac.uk/funding/AIR/AIR.cfm
International engagement awards	Wellcome Trust	19 Aug 16	Deadlines on: 19 February 2016, 19 August 2016.	Directed grants to institutions, research groups etc, Development (Africa/Caribbean), Networking/collaboration	£30,000	-	-	These support innovative public or community engagement projects that explore biomedical research or health in Africa and Asia. Each award is worth up to £30,000 for up to three years.	http://www.wellcome.ac.uk/Funding/Public-engagement/Funding-schemes/International-Engagement-Awards/index.htm

High Value Manufacturing Catapult fellowships	Engineering and Physical Sciences Research Council	28 Aug 16 (Forecast)	!! Call has not yet been announced by funder, but this is the approximate deadline we expect. Applications due by 5pm. This call is repeated once a year.	Directed grants for individual investigators, Postdoctoral training fellowships, Senior fellowships, Networking/collaboration, Mid-Career fellowships, Academic-Industry links, Early-Career fellowships	-	-	-	These enable academic staff to spend a short period of time in one or more of the High Value Manufacturing Catapult centres in order to strengthen relations between academics and manufacturers, and accelerate the transition of research from the laboratory to industry in the field of advanced manufacturing in the UK. Fellowships include six-month visits which are spread over one to four years.	https://www.epsrc.ac.uk/funding/calls/hvmcatapult3/
